This is the general idea that the first three years of life are a critical period for children's brain development, and that deprivation over those years will result in persistent deficits in cognitive, emotional and even physical health. This idea was first propounded in the late 90s in America, and became the 'zero to three movement', which aimed both to change parental attitudes to early development and to affect public health policy.

The unknown years of Jesus generally refers to the period of Jesus's life between his childhood and the beginning of his ministry, a period not described in the New Testament. The "lost years of Jesus" concept is usually encountered in esoteric literature but is not commonly used in scholarly literature since it is

assumed that Jesus was probably working as a carpenter in Galilee, at least some of the time with Joseph, from the age of 12 to 29, so the years were not "lost years", and that he die
