That Will Never Work

The Birth of Netflix and the Amazing Life of an Idea *Little, Brown*

In the tradition of Phil Knight's *Shoe Dog* comes the incredible untold story of how Netflix went from concept to company-all revealed by co-founder and first CEO Marc Randolph. Once upon a time, brick-and-mortar video stores were king. Late fees were ubiquitous, video-streaming unheard of, and widespread DVD adoption seemed about as imminent as flying cars. Indeed, these were the widely accepted laws of the land in 1997, when Marc Randolph had an idea. It was a simple thought-leveraging the internet to rent movies-and was just one of many more and far worse proposals, like personalized baseball bats and a shampoo delivery service, that Randolph would pitch to his business partner, Reed Hastings, on their commute to work each

morning. But Hastings was intrigued, and the pair-with Hastings as the primary investor and Randolph as the CEO-founded a company. Now with over 150 million subscribers, Netflix's triumph feels inevitable, but the twenty first century's most disruptive start up began with few believers and calamity at every turn. From having to pitch his own mother on being an early investor, to the motel conference room that served as a first office, to server crashes on launch day, to the now-infamous meeting when Netflix brass pitched Blockbuster to acquire them, Marc Randolph's transformational journey exemplifies how anyone with grit, gut instincts and determination can change the world-even with an idea that many think will never work. What emerges, though, isn't just the inside story of one of the world's most iconic companies. Full of counter-intuitive concepts and written in binge-worthy prose, it answers some of our most fundamental questions about taking that leap of faith in business or in life: How do you begin? How do you weather disappointment and failure? How do you deal with success? What even is success? From idea generation to team building to knowing when it's time to let go, *That Will Never Work* is not only the ultimate follow-your-dreams parable, but also one of the most dramatic and insightful entrepreneurial stories of our time.

It Should Never Happen Again

The Failure of Inquiries and Commissions to Enhance Risk Governance *Routledge*

In *It Should Never Happen Again*, Dr Mike Lauder questions the value of public inquiries. Every day, we hear about another inquiry being set up, or

why the last one failed to deliver the hoped for outcomes. A great deal of time and taxpayers' money is spent on inquiries and even more on implementing their recommendations, but the author suggests that those conducting inquiries might be considered (by their own test) criminally negligent in the way they do so and that it is no surprise that they do not lead to the learning they should. The focus of Mike Lauder's research is the gaps between what is known, what knowledge is used by practitioners and those who judge them. He contends that the difference between the judicial perspective and that of practitioners who are judged by the inquiry process creates barriers that impede others from learning. Crucially, inquiry outcomes do not assist the leadership of organisations to improve risk governance. *It Should Never Happen Again* is based on research into high profile public inquiries and presidential commissions in the UK, the USA, Continental Europe, and elsewhere. Embracing issues ranging from terrorist attacks to pollution, fire and air disasters; criminal cases; banking and bribery scandals; and the state of public services, Mike Lauder contrasts the judicial perspective of those who inquire, the academic perspective of those who know and the practical perspective of those who are required to act, and offers new models for understanding risk and its governance.

Let's Pretend This Never Happened
Penguin

The #1 New York Times bestselling (mostly true) memoir from the hilarious author of *Furiously Happy*. "Gaspingly funny and wonderfully inappropriate."—O, The Oprah Magazine

When Jenny Lawson was little, all she ever wanted was to fit in. That dream was cut short by her fantastically unbalanced father and a morbidly eccentric childhood. It did, however, open up an opportunity for Lawson to find the humor in the strange shame-spiral that is her life, and we are all the better for it. In the irreverent *Let's Pretend This Never Happened*, Lawson's long-suffering husband and sweet daughter help her uncover the surprising discovery that the most terribly human moments—the ones we want to pretend never happened—are the very same moments that make us the people we are today. For every intellectual misfit who thought they were the only ones to think the things that Lawson dares to say out loud, this is a poignant and hysterical look at the dark, disturbing, yet wonderful moments of our lives. You'll Never Believe What Happened to Lacey

Crazy Stories about Racism *Grand Central Publishing*

A NEW YORK TIMES BESTSELLER AND INDIE NEXT PICK Writer and performer on *Late Night with Seth Meyers* Amber Ruffin writes with her sister Lacey Lamar with humor and heart to share absurd anecdotes about everyday experiences of racism. Now a writer and performer on *Late Night with Seth Meyers* and host of *The Amber Ruffin Show*, Amber Ruffin lives in New York, where she is no one's First Black Friend and everyone is, as she puts it, "stark raving normal." But Amber's sister Lacey? She's still living in their home state of Nebraska, and trust us, you'll never believe what happened to Lacey. From racist donut shops to strangers putting their whole hand in her

hair, from being mistaken for a prostitute to being mistaken for Harriet Tubman, Lacey is a lightning rod for hilariously ridiculous yet all-too-real anecdotes. She's the perfect mix of polite, beautiful, petite, and Black that apparently makes people think "I can say whatever I want to this woman." And now, Amber and Lacey share these entertainingly horrifying stories through their laugh-out-loud sisterly banter. Painfully relatable or shockingly eye-opening (depending on how often you have personally been followed by security at department stores), this book tackles modern-day racism with the perfect balance of levity and gravity.

It Will Never Happen To Us: a Memoir

IT WILL NEVER HAPPEN TO US (only to other people) A true story about one of those awful things that are supposed to happen only to other people - never to you. A life-changing motorcycle accident in Spain, a traumatic week in a hospital in Malaga. The long, painful and difficult process of coming to terms with an entirely different life - a life without a leg. This is also a story of love, of courage and hope, of determination and perseverance - a story of the triumph of the human spirit over adversity and the great kindness that one sometimes finds in complete strangers. And it proves - once again - that humour is nearly always to be found in something that is not at all funny.

It Can't Happen Here

Penguin

"The novel that foreshadowed Donald Trump's authoritarian appeal."—Salon *It Can't Happen Here* is the only one of Sinclair Lewis's later novels to match the power of *Main Street*, *Babbitt*, and *Arrowsmith*. A cautionary tale about the fragility of democracy, it is an alarming, eerily timeless look at how fascism could take hold in America. Written during the Great Depression, when the country was largely oblivious to Hitler's aggression, it juxtaposes sharp political satire with the chillingly realistic rise of a president who becomes a dictator to save the nation from welfare cheats, sex, crime, and a liberal press. Called "a message to thinking Americans" by the *Springfield Republican* when it was published in 1935, *It Can't Happen Here* is a shockingly prescient novel that remains as fresh and contemporary as today's news. Includes an Introduction by Michael Meyer and an Afterword by Gary Scharnhorst

Field Notes on Love

Delacorte Press
"Utterly romantic." --Jenny Han, NYT bestselling author of *To All the Boys I've Loved Before* The bestselling author of *Windfall* and *The Statistical Probability of Love at First Sight* returns with a meet-cute romance about Hugo and Mae, two teens who are thrown together on a cross-country train trip that will teach them about love, each other, and the futures they can build for themselves. It's the perfect idea for a romantic week together: traveling across America by train. But then Hugo's girlfriend dumps him. Her parting gift: the tickets for their long-planned last-hurrah-before-uni trip. Only, it's been booked under her name. Nontransferable, no exceptions. Mae is still reeling from being rejected from USC's film school. When she stumbles across Hugo's ad for a replacement

Margaret Campbell (her full name!), she's certain it's exactly the adventure she needs to shake off her disappointment and jump-start her next film. A cross-country train trip with a complete stranger might not seem like the best idea. But to Mae and Hugo, both eager to escape their regular lives, it makes perfect sense. What starts as a convenient arrangement soon turns into something more. But when life outside the train catches up to them, can they find a way to keep their feelings for each other from getting derailed? "One of the loveliest, most touching romances of 2019 thus far that gets at the nature of something deeply buried in all of our hearts." --Entertainment Weekly "This warm, romantic, never overly sentimental story is told with humor and heart....A deeply satisfying read about a life-changing journey full of poignant moments." --Kirkus, starred review

Democracy Under Siege

It Could Never Happen In America *Independently Published*

In this critical study of the present threat to American Democracy from the legacy of the Trump Presidency and the violent insurrection at America's Capitol on January 6, 2021, filmmaker Mark Sobel takes us on a journey that spans the ongoing influence of Trumpism in America, and considers possible steps to assure the survival of democracy in the United States. This collection of author essays calls out the former President's unrelenting lies and racist speeches, looking at how they "programmed" the thinking of a large percentage of American voters. The work examines the dangers posed by Trump's party in its ongoing efforts to rewrite history, and suggests that without immediate

creation of a new Center-Right opposition party the United States could find herself at the end of an almost 250-year "experiment" in Democratic Rule. Additional topics range from how the world regards the separation of migrant children from their parents under International Law, to Wall Street's alleged subversion of the legislation by Congress to save the homes of 4 million American families during the Great Recession, to how the economic system might be made more fair for all Americans. The author is a Los Angeles based independent filmmaker and a director of numerous movies for Network and Cable television. He has been in post-production for a number of years on a personal labor-of-love independent motion picture, "The Commission," featuring Martin Sheen, Sam Waterston, Martin Landau, Joe Don Baker, Corbin Bernsen and Ed Asner. The film's screenplay is adapted from the formerly Top Secret transcripts of the private meetings of the Warren Commissioners in 1964, originally to have remained Classified and sealed until the year 2039. Not a "who-done-it?" but a suspense/drama drawn from the Commissioners' own words, the film is a study of the hypocrisy that takes place behind closed doors in Washington D.C. when issues of Politics and Justice collide.

One Billion Americans

The Case for Thinking Bigger *Penguin*

NATIONAL BESTSELLER What would actually make America great: more people. If the most challenging crisis in living memory has shown us anything, it's that America has lost the will and the means to lead. We can't compete with the huge population clusters of the global marketplace by keeping our population static or letting it diminish, or with our crumbling transit and unaffordable housing. The winner in the future world is going to have more—more ideas, more ambition, more utilization of resources, more people. Exactly how many Americans do we need to win? According to Matthew Yglesias, one billion. From one of our foremost policy writers, *One Billion Americans* is the provocative yet logical argument that if we aren't moving forward, we're losing. Vox founder Yglesias invites us to think bigger, while taking the problems of decline seriously. What really contributes to national prosperity should not be controversial: supporting parents and children, welcoming immigrants and their

contributions, and exploring creative policies that support growth—like more housing, better transportation, improved education, revitalized welfare, and climate change mitigation. Drawing on examples and solutions from around the world, Yglesias shows not only that we can do this, but why we must. Making the case for massive population growth with analytic rigor and imagination, *One Billion Americans* issues a radical but undeniable challenge: Why not do it all, and stay on top forever?

The Dictionary of Obscure Sorrows *Simon and Schuster*

NEW YORK TIMES BESTSELLER "It's undeniably thrilling to find words for our strangest feelings...Koenig casts light into lonely corners of human experience...An enchanting book. " —The Washington Post A truly original book in every sense of the word, *The Dictionary of Obscure Sorrows* poetically defines emotions that we all feel but don't have the words to express—until now. Have you ever wondered about the lives of each person you pass on the street, realizing that everyone is the main character in their own story, each living a life as vivid and complex as your own? That feeling has a name: "sonder." Or maybe you've watched a thunderstorm roll in and felt a primal hunger for disaster, hoping it would shake up your life. That's called "lachesism." Or you were looking through old photos and felt a pang of nostalgia for a time you've never actually experienced. That's "anemoia." If you've never heard of these terms before, that's because they didn't exist until John Koenig set out to fill the gaps in our language of emotion. *The Dictionary of Obscure Sorrows* "creates beautiful new words that we need but do not yet have," says John Green, bestselling author of *The Fault in Our Stars*. By turns poignant, relatable, and mind-bending, the definitions include whimsical etymologies drawn from languages around the world,

interspersed with otherworldly collages and lyrical essays that explore forgotten corners of the human condition—from “astrophe,” the longing to explore beyond the planet Earth, to “zenosyne,” the sense that time keeps getting faster. *The Dictionary of Obscure Sorrows* is for anyone who enjoys a shift in perspective, pondering the ineffable feelings that make up our lives. With a gorgeous package and beautiful illustrations throughout, this is the perfect gift for creatives, word nerds, and human beings everywhere.

Winners Take All

The Elite Charade of Changing the World *Vintage*

The New York Times bestselling, groundbreaking investigation of how the global elite’s efforts to “change the world” preserve the status quo and obscure their role in causing the problems they later seek to solve. An essential read for understanding some of the egregious abuses of power that dominate today’s news. Former New York Times columnist Anand Giridharadas takes us into the inner sanctums of a new gilded age, where the rich and powerful fight for equality and justice any way they can—except ways that threaten the social order and their position atop it. We see how they rebrand themselves as saviors of the poor; how they lavishly reward “thought leaders” who redefine “change” in winner-friendly ways; and how they constantly seek to do more good, but never less harm. We hear the limousine

confessions of a celebrated foundation boss; witness an American president hem and haw about his plutocratic benefactors; and attend a cruise-ship conference where entrepreneurs celebrate their own self-interested magnanimity. Giridharadas asks hard questions: Why, for example, should our gravest problems be solved by the unelected upper crust instead of the public institutions it erodes by lobbying and dodging taxes? He also points toward an answer: Rather than rely on scraps from the winners, we must take on the grueling democratic work of building more robust, egalitarian institutions and truly changing the world. A call to action for elites and everyday citizens alike.

But it has happened in our lifetimes in Europe, the Middle East, Africa, and Asia. And it could happen here. Today, as CEO of the storied ADL (the Anti-Defamation League), Jonathan Greenblatt has made it his personal mission to demonstrate how antisemitism, racism, and other insidious forms of intolerance can destroy a society, taking root as quiet prejudices but mutating over time into horrific acts of brutality. In this urgent book, Greenblatt sounds an alarm, warning that this age-old trend is gathering momentum in the United States—and that violence on an even larger, more catastrophic scale could be just around the corner. But it doesn't have to be this way. Drawing on ADL's decades of experience in fighting hate through investigative research, education programs, and legislative victories as well as his own personal story and his background in business and government, Greenblatt offers a bracing primer on how we—as individuals, as organizations, and as a society—can strike back against hate. Just because it could happen here, he shows, does not mean that the unthinkable is inevitable.

It Could Never Happen but It Did *Dorrance Publishing*

It Could Never Happen but It Did By: Edward Watkins "Dear Edward, dear friend, you are undoubtedly a storyteller of unequaled memory! I was fascinated by your remembrance of 90+ years ago. You wrote over 100+ pages of your life you obviously enjoyed. I thank you for sharing your book. It's awesome." - Charlene Dawson, writer and journalist "Edward, dear! What a fantastic tale you weave! Your memories and book style captivated my whole being. I had thought I would merely peruse the hundred and twenty pages and just say a little white lie that I had read the whole thing. But, no, I could not quit until I read it all. I believe your book should appeal to those who lived in that era and those who are interested in how life 'was' in the olden/golden days." -Charline Gajdos, lifelong secretary and world traveler "Watkins is the best salesman since St. Paul. [He] shows that faith can move mountains." -John Dudley, Scout Master of California "Dear Edward, this was an amazing autobiography. Your memory for the details is extraordinary and the recounting of your childhood, flying career, sales career, and golfing experiences is amazing. Thank you for the opportunity to read it." -Sally and Basil Binckley This is the story about Edward Watkins's life from his birth to his forty-third birthday. It covers his childhood and his working eight hours a night as an apprentice machinist while in high school. It's about how he became a Naval Aviator in 1943. He was discharged February 2, 1946, and proceeded to get a college education. He started selling books part-time and

found out that he could make more money as an encyclopedia salesman than he could as an engineer. Watkins returned to service for the Korean War October 31, 1952, and was discharged on March 3, 1954. Then Watkins went back to bookselling where he became the regional VP for Collier's of New England area. He eventually quit that position because his wife could not stand Eastern ragweed and returned to California. He became interested in cosmetics and acquired a dealership in Holiday Magic in 1968. Watkin's wife divorced him and remarried her first husband on September 7, 1968. Watkin's called her three months later and she was unhappy. He told her to return home. She canceled her marriage and she and Watkins were remarried February 27, 1969. It could never happen, but it did.

Maid

Hard Work, Low Pay, and a Mother's Will to Survive *Legacy Lit*

NEW YORK TIMES BESTSELLER AND INSPIRATION FOR THE NETFLIX LIMITED SERIES, HAILED BY ROLLING STONE AS "A GREAT ONE." "A single mother's personal, unflinching look at America's class divide, a description of the tightrope many families walk just to get by, and a reminder of the dignity of all work." -PRESIDENT BARACK OBAMA, Obama's Summer Reading List At 28, Stephanie Land's dreams of attending a university and becoming a writer quickly dissolved when a summer fling turned into an unplanned pregnancy. Before long, she found herself a single mother, scraping by as a housekeeper to make ends meet. *Maid* is an emotionally raw, masterful account of Stephanie's years spent in service to upper middle class America as a "nameless ghost" who quietly shared in her clients' triumphs, tragedies, and deepest secrets. Driven to carve out a better life for her family, she cleaned by day and took online classes by night, writing relentlessly as she worked toward earning a college degree. She wrote of the true stories that weren't being told: of living on food stamps and WIC coupons, of government programs that barely provided housing, of aloof government employees who shamed her for receiving what little assistance she did. Above all else, she wrote about pursuing the myth of the American Dream from the poverty line, all the while slashing through deep-rooted stigmas of the working poor. *Maid* is Stephanie's story, but it's not hers alone. It is an inspiring testament to the courage, determination, and ultimate strength of the human spirit.
