States in international law. Although states are not the only entities with international legal standing and are not the exclusive international actors, they are the primary subjects of international law and possess the greatest range of rights and obligations. Unlike states, which possess rights and obligations automatically, international organizations, individuals, and others derive their rights and duties in international law directly from particular instruments.

International law - States in international law | Britannica

mentioned earlier however, there is no obligation under international law for States to recognize an entity as a State, once it meets the factual criteria for statehood. At the same time however, it seems that a State cannot exercise its full legal rights under international law without recognition by other States.

international law and the criteria for statehood

In addition, they may have learned of the argument, put forward most prominently by James Crawford in The Creation of States in International Law, that there are additional criteria for the creation of states (e.g., the entity must not be created in violation of the right of self-determination or as a result of an unlawful use of force). But students of international law will also be well aware of the debate between those who hold the view that recognition by other States is simply ...

Essentially, I am afraid we are back to the problem in the writings of some German theorists of the late 19 th and early 20 th century which was probably best captured by Hersch Lauterpacht’s observation that according to them “a State exists in international law as soon as it exists.” The trick of bringing territorial integrity within Montevideo brings us back to precisely this circularity.

The Importance of Legal Criteria for Statehood: A ...

A principle recognized both in international case law (e.g., the Alabama claims case between the United States and the United Kingdom following the American Civil War) and in treaties (e.g., Article 27 of the 1969 Vienna Convention on the Law of Treaties) is that no municipal rule may be relied

upon as a justification for violating international law. The position of international law within municipal law is more complex and depends upon a country’s domestic legislation.

Associated Forces and Co-belligerency - Just Security
Abstract. The persistent objector rule is said to provide states with an ‘escape hatch’ from the otherwise universal binding force of customary international law. It provides that if a state persistently objects to a newly emerging norm of customary international law during the formation of that norm, then the objecting state is exempt from the norm once it crystallises into law.
