Section 1 - PRINCIPLES AND METHODS OF TRAINING

The principles and methods used by teachers to enable student learning. A teaching method comprises the principles and methods used by teachers to enable student learning. These strategies are determined partly on subject matter to be taught and partly by the nature of the learner. For a particular teaching method to be appropriate and efficient it has to be in relation with the characteristic of the learner and the type of learning it is supposed to bring about.

Teaching method - Wikipedia

In this paper, we present objectives, principles, and methods of strength training for horses based on human strength training applied to horses and based on our experience and some other authors. Until further researcher, we recommend trainers to use this article as a guide when designing the training program of their horses and developing the strength exercises of each session.
