Universal Machine Tool Stepperhead

Designed and built by Alan Jackson, the Stepperhead is an attempt to combine, in one unit, the range of facilities found in a medium sized lathe and a small vertical/horizontal milling machine. In the 1950s David Urwick had designed and built the ingenious and versatile Metalmaster , a device that combined a lathe and milling machine without unduly compromising the attributes of either.

We at Universal Machine & Tool Co., Inc., thank you for your valued business and look forward to sharing another 30 years, or more, of success."

Universal Machine - Solution-oriented, Full-service

Sounds very interesting to me. I don't mind which magazine as I get both. My opinion is that there should be a small amount of tools.tooling,machines and their use in ME. and a small amount of application to modelmaking in MEW. Colin. Rik Shaw: 11/09/2013 19:04:59: 1352 forum posts 368 photos

Universal Grinding machine construction series? | Model ...

Although I would admit to being more of a tool maker than a model maker, if I wanted a grinder I'd generally go and buy a used industrial example and then spend my time fettling and augmenting it. It's not as if they are ruinously expensive, whereas the materials to build a complete machine from scratch would be - you aren't going to be making one of these out of your scrap bin.
