Distributed Cognitions Psychological And Educational

This book is a bold attempt to re-examine the nature of cognitions and to propose that a clearer understanding of human cognition would be achieved if it were conceptualized and studied as distributed among individuals, that knowledge is socially constructed through collaborative efforts toward shared objectives within cultural surroundings and that information is processed between individuals and the tools and artifacts provided by culture.

Distributed Cognitions: Psychological And Educational ...

Although the phenomenon of distributed cognitions is a wide-ranging one with provocative consequences for theories of the mind, learning, and education, it has not yet been thoroughly examined. When "distributed cognitions" are the units of analysis for research and theory construction about reasoning and learning, several questions arise: What exactly is distributed and how does it become distributed?

The same applies, I think, to distributed cognitions. The individual has been dismissed from theoretical considerations, possibly as in antithesis to the excessive emphasis on the individual by traditional psychological and educational approaches. But as a result the theory is truncated and conceptually unsatisfactory.

Salomon on Distributed Cognition - New Learning Online

Distributed cognition is an approach to cognitive science research that deploys models of the extended mind (see, for example, the paper The Extended Mind) by taking as the fundamental unit of analysis "a collection of individuals and artifacts and their relations to each other in a particular work practice". "DCog" is a specific approach to distributed cognition (distinct from other meanings ...

Distributed cognition - Wikipedia

Developed by Edwin Hutchins, distributed cognition is the theory that knowledge lies not only within the individual but in the individual's social and physical environment. The dependence of the theory on the social and physical environment of the

individual makes it very useful in analysing human-computer interactions and educational technologies .

Distributed Cognitions: Psychological and Educational ...

In contrast to real-world environments, "typical psychological and educational practices treat the person in a way that is much closer to person-solo" (p.94). And Perkins feels this is misguided, for two reasons: (1) person-nearly-solo is not "lifelike"; and (2) distributing cognition is an art and needs practice, something schools should provide.

A weaker, or less radical, version would hold that 'solo' and distributed cognitions are separate from one another, but should be taken in 'an interdependent dynamic interaction' (ibid.: xvi). Both ideas are often difficult to grasp as the notion of individual cognition is very deeply ingrained in much that is written about the area.
