Finally, there is the co-ordination of the design and specification carried out by the architect, other designers, consulting engineers and specialist subcontractors, and this also introduces another 'layer' - performance specification, that is the description of the characteristics of materials, components and combined systems, by the consultants, for specialist subcontractors to 'design to'.

Writing specifications - The Architects' Journal

There seems to be a common misconception among younger, emerging Architects and designers that the Specifications are somehow less important than drawings. I think this probably has to do with two key factors: (1) Most schools don't teach their architecture students how to write specifications and (2) Specifications are complicated and not as 'fun' for most creatives.
