EQUINE REHABILITATION is a term often  
 used to encompass retraining but  
 rehabilitation is actually the application  
 of physical therapy treatments to help  
 the body heal with the aim of restring  
 correct and optimum physical function or  
 at least improving same. Nor is it not just  
 about bringing a horse back into work  
 following an injury; it is about restoring  
 muscular, tendon and ligament strength,  
 joint and tissue mobility and function,  
 balance and co-ordination.

### **Equine Therapy and Equine Rehabilitation**

Equine rehab complements veterinary medicine much the way that human physical therapy complements human medicine. Its methods are used to diagnose and treat both chronic conditions, like back pain, and acute injuries and lamenesses. They also help to speed up surgical recoveries.

### **Healing Hands: Equine Sports Medicine & Rehab - Expert how ...**

Of course, life is not always ideal, and as long as people are willing to give injured tendons and ligaments time – even if it's more time than may be needed – and are willing to watch over the rehabilitation process, most tendon and ligament injuries have successful outcomes, at least for show and companion horses (racehorses are a different kettle of fish – a tendon or ligament injury is often career ending).
