The Bluebook

A Uniform System of Citation *Harvard Law School, Human Rights Program*

This book contains three major parts: The Bluepages, new to the eighteenth edition, is a how-to guide for basic legal citation. Unlike the remainder of book, which is designed in a style and at a level of complexity commensurate with the needs of the law journal publication process, the Bluepages provides easy-to-comprehend guidance for the everyday citation needs of first-year law students, summer associates, law clerks, practicing lawyers, and other legal professionals. The examples used throughout the Bluepages are printed using simple typeface conventions common in the legal profession. The second part, printed on white paper, is the heart of the Bluebook system of citation: the rules of citation and style. This part is subdivided into two main sections. The first section, consisting of rules 1 through 9, establishes general standards of citation and style for use in all forms of legal writing. The second section, consisting of rules 10 through 21, presents rules for citation of specific kinds of authority such as cases, statutes, books, periodicals, and foreign and international materials. The examples used throughout this part are printed using typeface conventions standard in law journal footnotes. The third part, printed on white paper with a blue border at the end of the book, consists of a series of tables to be used in conjunction with the rules. The tables show, among other things, which authority to cite and how to abbreviate properly. Individual tables are referenced throughout the book.

Divergent Paths

The Academy and the Judiciary *Harvard University Press*

Judges and legal scholars talk past one another, if they have any conversation at all. Academics criticize judicial decisions in theoretical terms, which leads many judges to dismiss academic discourse as divorced from reality. Richard Posner reflects on the causes and consequences of this widening gap and what can be done to close it.

Vanishing Act

The Erosion of Online Footnotes and Implications for Scholarship in the Digital Age *Litwin Books*

A decade ago, most research was done in the library rather than through Web site, and scholars, editors, graduate directors and librarians were meticulous about the integrity of footnotes. They knew that citation was the backbone of research, from agronomy to zoology in the sciences and from art history to Zen studies in the humanities. The footnote upheld standards because it allowed others to test hypotheses or replicate experiments. In sum, the footnote safeguarded scientific method and peer review upon which academe is based, from papers by first-year and transfer students to books by postdoc and professor. Since 2003, authors Michael Bugeja and Daniela Dimitrova (Iowa State University of Science and Technology) have been at the forefront of research

on the erosion of online footnotes and its implication for scholarship. Their research has been showcased in The Chronicle of Higher Education and a number of academic journals, including The Serials Librarian, Portals: Libraries and the Academy, New Media and Society and Journalism and Mass Communication Educator, among others. Their book documents the vanishing act in flagship communication journals and provides readers with methods to mitigate the effect.

Writing to Win

The Legal Writer *Crown*

From a master teacher and writer, a fully revised and updated edition of the results-oriented approach to legal writing that is clear, that persuades—and that WINS. More than almost any profession, the law has a deserved reputation for opaque, jargon-clogged writing. Yet forceful writing is one of the most potent weapons of legal advocacy. In this new edition of Writing to Win, Steven D. Stark, a former lecturer on law at Harvard Law School, who has inspired thousands of aspiring and practicing lawyers, applies the universal principles of powerful, vigorous prose to the job of making a legal case—and winning it. Writing to Win focuses on the writing of lawyers, not judges, and includes dozens of examples of effective (and ineffective) real-life legal writing—as well as compelling models drawn from advertising, journalism, and fiction. It deals with the challenges lawyers face in writing, from organization to strengthening and editing prose; offers incisive ways of improving arguments; addresses litigation and technical writing in all its forms; and covers the writing attorneys must perform in their daily practice, from email memos to briefs and contracts. Each chapter opens with a succinct set of rules for easy reference. With new sections on client communication and drafting affidavits, as well as updated material throughout, Writing to Win is the most practical and efficacious legal-writing manual available.
