Muck City Crown

In a town deep in the Florida Everglades, where high school football is the only escape, a haunted quarterback, a returning hero, and a scholar struggle against terrible odds. The loamy black "muck" that surrounds Belle Glade, Florida once built an empire for Big Sugar and provided much of the nation's vegetables, often on the backs of roving, destitute migrants. Many of these were children who honed their skills along the field rows and started one of the most legendary football programs in America. Belle Glade's high school team, the Glades Central Raiders, has sent an extraordinary number of players to the National Football League - 27 since 1985, with five of those drafted in the first round. The industry that gave rise to the town and its team also spawned the chronic poverty, teeming migrant ghettos, and violence that cripples futures before they can ever begin. Muck City tells the story of quarterback Mario Rowley, whose dream is to win a championship for his deceased parents and quiet the ghosts that haunt him; head coach Jessie Hester, the town's first NFL star, who returns home to "win kids, not championships"; and Jonteria Williams, who must build her dream of becoming a doctor in one of the poorest high schools in the nation. For boys like Mario, being a Raider is a one-shot window for escape and a college education. Without football, Jonteria and the rest must make it on brains and fortitude alone. For the coach, good intentions must battle a town's obsession to win above all else. Beyond the Friday night lights, this book is an engrossing portrait of a community mired in a shameful past and uncertain future, but with the fierce will to survive, win, and escape to a better life.

And they in turn carried her across the world, sharing where she is from and all that she loves with the people she meets. Terry Hong of the Smithsonian Asian Pacific American Program's BOOK DRAGON, giving context to Youme's remarkable book, said, "Today, December 7, marks the 69th

anniversary of the attack on Pearl Harbor, 'a date which will live in infamy,'... Seven decades later, infamy lives on, stealing childhoods, families, homes, lives. Now as another year comes to a close, we pray for peace ... again and again ... again and again ... [Mali Under the Night Sky] is another hopeful, urgent prayer." And the Midwest Book Review calls it "a soul-stirring picturebook about the difficulties faced by wartime refugees, and deserves the highest recommendation." Youme has lived in and learned from the United States, Kenya, Japan, Laos, Haiti, and Cuba. Nikola Tesla for Kids *Chicago Review Press*

Nikola Tesla was a physicist, scientist, electrical engineer, and world-renowned inventor whose accomplishments faded into oblivion after his death in 1943. Tesla was undeniably eccentric and compulsive; some considered him to be somewhat of a "mad" scientist. But in reality, he was a visionary. Many of his ideas and inventions that were deemed impossible during his lifetime have since become reality. He was the first to successfully use rotating magnetic fields to create an AC (alternating current) electrical power supply system and induction motor. He is now acknowledged to have invented the radio ahead of Marconi. Among other things, he developed the Tesla coil, an oscillator, generators, fluorescent tubes, neon lights, and a small remote-controlled boat. He helped design the world's first hydroelectric plant at Niagara Falls. Nikola Tesla for Kids is the story of Nikola Tesla's life and ideas, complete with a time line, 21 hands-on activities, and additional resources to better understand his many accomplishments.

Call Me American *Vintage*

Abdi Nor Iftin first fell in love with America from afar. As a child, he learned English by listening to American pop and watching action films starring Arnold Schwarzenegger. When U.S. marines landed in Mogadishu to take on the warlords, Abdi cheered the arrival of these Americans, who seemed as heroic as those of the movies. Sporting American clothes and dance moves, he became known around Mogadishu as Abdi American, but when the radical Islamist group al-Shabaab rose to power in 2006, it became dangerous to celebrate Western culture. Desperate to make a living, Abdi used his language skills to post secret dispatches, which found an audience of worldwide listeners. Eventually, though, Abdi was forced to flee to Kenya. In an amazing stroke of luck, Abdi won entrance to the U.S. in the annual visa lottery, though his route to America did not come easily. Parts of his story were first heard on the BBC World Service and This American Life. Now a proud resident of Maine, on the path to citizenship, Abdi Nor Iftin's dramatic, deeply stirring memoir is truly a story for our time: a vivid reminder of why America still beckons to those looking to make a better life.

Milne, Hans Christian Andersen, and Oscar Wilde. Here too are clever retellings and newly imagined tales: refined old favorites like Arthur Rackham's "Beauty and the Beast," feminist revisions like Elinor Mordaunt's "The Prince and the Goose Girl," and sensitive stories by literary stylists like Henry Beston's "The Lost Half-Hour" and Katharine Pyle's "The Dreamer." Full of magic, ingenuity, and humor, *The Provensen Book of Fairy Tales* is a witty modern descendant of Grimm's *Fairy Tales* and a classic in its own right, sure to be beloved by a new generation.

Find Me Unafraid *HarperCollins*

Find Me Unafraid tells the uncommon love story between two uncommon people whose collaboration sparked a successful movement to transform the lives of vulnerable girls and the urban poor. With a Foreword by Nicholas Kristof. This is the story of two young people from completely different worlds: Kennedy Odede from Kibera, the largest slum in Africa, and Jessica Posner from Denver, Colorado. Kennedy foraged for food, lived on the street, and taught himself to read with old newspapers. When an American volunteer gave him the work of Mandela, Garvey, and King, teenaged Kennedy decided he was going to change his life and his community. He bought a soccer ball and started a youth empowerment group he called Shining Hope for Communities (SHOFCO). Then in 2007, Wesleyan undergraduate Jessica Posner spent a semester abroad in Kenya working with SHOFCO. Breaking all convention, she decided to live in Kibera with Kennedy, and they fell in love. Their connection persisted, and Jessica helped Kennedy to escape political violence and fulfill his lifelong dream of an education, at Wesleyan University. The alchemy of their remarkable union has drawn the support of community members and celebrities alike—The Clintons, Mia Farrow, and Nicholas Kristof are among their fans—and their work has changed the lives of many of Kibera's most vulnerable population: its girls. Jess and Kennedy founded Kibera's first tuition-free school for girls, a large, bright blue building, which stands as a bastion of hope in what once felt like a hopeless place. But Jessica and Kennedy are just getting started—they have expanded their model to connect essential services like health care, clean water, and economic empowerment programs. They've opened an identical project in Mathare, Kenya's second largest slum, and intend to expand their remarkably successful program for change. Ultimately this is a love story about a fight against poverty and hopelessness, the transformation made possible by a true love, and the power of young people to have a deep impact on the world.
