Oversized volume containing everything known about the usefulness of the cannabis plant. Completely revised, updated and expanded for more ways that hemp can really save the world.

The Emperor's New Clothes *Lindhardt og Ringhof*

There was once an emperor who was only interested in one thing, his clothes. He spent all his money on his outfits and had a different one for every time of day and every occasion. One day, two thieves arrived in town pretending to be weavers who knew how to make the most beautiful and sophisticated fabrics,

which had the marvellous property of only being visible to those who did their job well.. It was the perfect offer for our king, who immediately placed an order. Hans Christian Andersen (1805-1875) was a Danish author, poet and artist. Celebrated for children's literature, his most cherished fairy tales include "The Emperor's New Clothes", "The Little Mermaid", "The Nightingale", "The Steadfast Tin Soldier", "The Snow Queen", "The Ugly Duckling" and "The Little Match Girl". His books have been translated into every living language, and today there is no child or adult that has not met Andersen's whimsical characters. His fairy tales have been adapted to stage

and screen countless times, most notably by Disney with the animated films "The Little Mermaid" in 1989 and "Frozen", which is loosely based on "The Snow Queen", in 2013. Thanks to Andersen's contribution to children's literature, his birth date, April 2, is celebrated as International Children's Book Day.

Teaching About Race And Racism To People Who Don't Want To Know IAP

The Emperor Has No Clothes: Teaching About Race and Racism to People Who Don't Want to Know offers theoretical grounding and practical approaches for leaders and teachers interested in

effectively addressing racism and other oppressive constructs. The book draws both on the author's extensive experience teaching about race and racism in classroom and community settings and from the theory and practice of a wide range of educators, activists, and researchers committed to social justice. The first chapter looks at the toxic consequences of our western cultural insistence on profit, binary thinking, and individualism to establish the theoretical framework for teaching about race and racism. Chapter two investigates privileged resistance, offering a psycho/social history of denial, particularly as a product of racist culture. Chapter three reviews the research on the construction and reconstruction of dominant culture both historically and now in order to establish sound strategic approaches that educators, teachers, facilitators, and activists can take as we work together to move from a culture of profit and fear to one of shared hope and love. Chapter four lays out the stages of a process that supports teaching about racist, white supremacy culture, explaining how students can be taken through an iterative process of relationshipbuilding, analysis, planning, action, and reflection. The final chapter borrows from the brilliant, brave, and incisive writer Dorothy

Allison to discuss the things the author knows for sure about how to teach people to see that which we have been conditioned to fear knowing. The chapter concludes with how to encourage and support collective and collaborative action as a critical goal of the process.

Commentaries by Dennis Peacocke

Speaks out in clear and provoking terms what many of us have sensed but have often been unable to articulate. These commentaries are the result of over 15 years of addressing the issues of our day in his monthly commentary "The Bottom Line." Broad in scope and

specific in application, readers will find this book to be more than a critique of our current culture.

The Empress Has No Clothes

Conquering Self-Doubt to Embrace Success *Berrett-Koehler Publishers*

"Joyce Roché rose from humble circumstances to earn an Ivy League MBA and eventually become the first African-American vice president of Avon. She was later president of a leading hair care company and CEO of the nationally prominent nonprofit Girls Inc. But she never felt she deserved her success. In fact, the phrase "the empress has no clothes" kept running through her head. She was nothing

like the emperor in the Hans Christian Andersen story -- she was certainly not a fraud. And yet that's how she'd always felt. Roché discovered there was a name for this: the impostor syndrome. In this deeply personal memoir she shares her lifelong struggle with the imposter syndrome and offers advice and coping strategies based on her own experiences and those of other high-achieving leaders who have suffered from it."-- Publisher website.

Marijuana

A Short History
Brookings Institution Press

From "Reefer Madness" to legal purchase at the corner store With long-time legal and social barriers to marijuana falling across much of the United States, the time has come for an accessible and informative look at attitudes toward the dried byproduct of *Cannabis sativa*. *Marijuana: A Short History* profiles the politics and policies concerning the five-leaf plant in the United States and around the world. Millions of Americans have used marijuana at some point in their lives, yet

it remains a substance shrouded by myth, misinformation, and mystery. And nearly a century of prohibition has created an enforcement system that is racist, and the continuing effects of racially-targeted over criminalization limit economic and social opportunities in communities of color. *Marijuana: A Short History* tells this story, and that of states stepping up to enact change. This book offers an up-to-date, cutting-edge look at how a plant with a tumultuous history has emerged from the shadows of counterculture and illegality. Today, marijuana has become a remarkable social, economic, and even political force—with a surprising range of advocates and opponents. Over the past two decades marijuana policy has transformed dramatically in the United States, as dozens of states have openly defied the federal government. *Marijuana: A Short History* provides a brief yet compelling narrative that discusses the social and cultural history of marijuana but also tells us how a once-vilified plant has been transformed into a serious, even mainstream, public policy issue. Focusing on politics, the media, government, racism, criminal justice, and education, the book describes why public policy has changed, and what that change might mean for marijuana's future

place in society.

Tales to Grow By will be the perfect companion in the exciting path of becoming, little by little, responsible and happy grownups. Fairy tales are stories that have been passed down through generations. Their ancestral wisdom offers readers a truthful and extensive portrait of human behaviors and human experiences. This is

why fairy tales are the perfect tool to teach character education. Tales to Grow by is a new series of books that unlocks the power of fairy tales. Each tale is retold to highlight important emotions, feelings and attitudes of its characters. Beautiful illustrations make the story accessible to young readers. Questions throughout the book and backmatter written by a children's therapist guide the educator through the story and allow the readers to get in touch with their own feelings and emotions. The mix of rich content and visuals allows our little readers to enjoy the magic of the stories while developing strong and independent character. In this tender retelling

of the classic fairytale, children learn the importance of recognizing their feelings and expressing them with honesty.

The Emperor's Children *Vintage*

A bestselling, masterful novel about the intersections in the lives of three friends, now on the cusp of their thirties, making their way—and not—in New York City. There is beautiful, sophisticated Marina Thwaite—an “It” girl finishing her first book; the daughter of Murray Thwaite, celebrated intellectual and journalist—and her two closest friends from Brown, Danielle, a quietly appealing television producer, and Julius, a cash-strapped freelance

critic. The delicious complications that arise among them become dangerous when Murray’s nephew, Frederick “Bootie” Tubb, an idealistic college dropout determined to make his mark, comes to town. As the skies darken, it is Bootie’s unexpected decisions—and their stunning, heartbreaking outcome—that will change each of their lives forever. A richly drawn, brilliantly observed novel of fate and fortune—of innocence and experience, seduction and self-invention; of ambition, including literary ambition; of glamour, disaster, and promise—*The Emperor’s Children* is a tour de force that brings to life a city, a

generation, and the way we live in this moment. A New York Times Book Review Best Book of the Year

The Charisma Machine

The Life, Death, and Legacy of One Laptop per Child *MIT*

Press

A fascinating examination of technological utopianism and its complicated consequences. In *The Charisma Machine*, Morgan Ames chronicles the life and legacy of the One Laptop per Child project and explains why—despite its failures—the same utopian visions that inspired OLPC still motivate other projects trying to use technology to “disrupt” education and development.

Announced in 2005 by MIT Media Lab cofounder Nicholas Negroponte, One Laptop per Child promised to transform the lives of children across the Global South with a small, sturdy, and cheap

laptop computer, powered by a hand crank. In reality, the project fell short in many ways—starting with the hand crank, which never materialized. Yet the project remained charismatic to many who were captivated by its claims of access to educational opportunities previously out of reach. Behind its promises, OLPC, like many technology projects that make similarly grand claims, had a fundamentally flawed vision of who the computer was made for and what role technology should play in learning. Drawing on fifty years of history and a seven-month study of a model OLPC project in Paraguay, Ames reveals that the laptops were not only

frustrating to use, easy to break, and hard to repair, they were designed for “technically precocious boys”—idealized younger versions of the developers themselves—rather than the children who were actually using them. The Charisma Machine offers a cautionary tale about the allure of technology hype and the problems that result when utopian dreams drive technology development.

When the Emperor Was Divine *Anchor*

From the bestselling, award-winning author of *The Buddha in the Attic*, this commanding debut novel paints a portrait of the Japanese incarceration camps that is both a haunting

evocation of a family in wartime and a resonant lesson for our times. On a sunny day in Berkeley, California, in 1942, a woman sees a sign in a post office window, returns to her home, and matter-of-factly begins to pack her family's possessions. Like thousands of other Japanese Americans they have been reclassified, virtually overnight, as enemy aliens and are about to be uprooted from their home and sent to a dusty incarceration camp in the Utah desert. In this lean and devastatingly evocative first novel, Julie Otsuka tells their story from five flawlessly realized points of view and conveys the exact emotional texture of their experience: the

thin-walled barracks and barbed-wire fences, the omnipresent fear and loneliness, the unheralded feats of heroism. When the Emperor Was Divine is a work of enormous power that makes a shameful episode of our history as immediate as today's headlines. Don't miss Julie Otsuka's new novel, *The Swimmers*, coming in February 2022!

The Emperor Has No Clothes

Teaching about Race and Racism to People who Don't Want to Know *Information Age Pub Incorporated*

This book is designed to offer both practical and theoretical grounding for leaders

and teachers interested in effectively addressing racism as well as other oppressive constructs. It offers an overview of the role of western culture in maintaining systems of institutional and cultural oppression related to race, class, gender, and sexuality. The dynamics of cultural shift are explored; scientific, spiritual, and cultural theories about cultural transformation are investigated, as are historical periods of dynamic cultural change. The psycho/social history of resistance is examined, and successful strategies for addressing resistance, denial, and fear in the classroom are offered. Using theory, storytelling, and history, effective

strategies for teaching about dominance, privilege, internalization are covered as is the importance of working with students to apply theory and engage in the collective task of creating a more just world.

Humboldt

Life on America's Marijuana Frontier

Grand Central Publishing

In the vein of Susan Orlean's *The Orchid Thief* and Deborah Feldman's *Unorthodox*, journalist Emily Brady journeys into a secretive subculture--one that marijuana built. *Humboldt: Life on America's Marijuana Frontier* Say the words "Humboldt County" to a stranger and you might receive a knowing grin. The name is infamous, and yet the place, and its inhabitants, have been nearly impenetrable. Until now. *Humboldt* is a narrative exploration of an insular community in Northern California, which for nearly 40 years has existed primarily on the cultivation and sale of marijuana. It's a place where business is done with thick wads

of cash and savings are buried in the backyard. In Humboldt County, marijuana supports everything from fire departments to schools, but it comes with a heavy price. As legalization looms, the community stands at a crossroads and its inhabitants are deeply divided on the issue--some want to claim their rightful heritage as master growers and have their livelihood legitimized, others want to continue reaping the inflated profits of the black market. Emily Brady spent a year living with the highly secretive residents of Humboldt County, and her cast of eccentric, intimately drawn characters take us into a fascinating, alternate universe. It's the story of a small town that became

dependent on a forbidden plant, and of how everything is changing as marijuana goes mainstream.

Cannabis

A History *Macmillan*

To some it's the classic "gateway drug", to others it is a harmless way to relax, or provide relief from crippling pain. Some fear it is a dangerous drug with addictive properties; to others still it is a legal anomaly and should be decriminalized.

Whatever the viewpoint, and by whatever name it is known, cannabis--or marijuana, hashish, dope, pot, weed, grass, ganja--incites debate at every level, and the effect it has on the cultures and economics of every

corner of the globe is undeniable. In this definitive study, Martin Booth crafts a tale of medical advance, religious

enlightenment, political subterfuge and human rights; of law enforcement and custom officers, cunning smugglers, street pushers, gang warfare, writers, artists, musicians, and happy-go-lucky hippies and potheads. Booth chronicles the fascinating and often mystifying process through which cannabis, a relatively harmless substance, became outlawed throughout the Western world, and the devastating effect such legislation has on the global economy. Above all, he demonstrates how the case for decriminalization

remains one of the twenty-first century's hottest topics.

The Emperor's New Road

China and the Project of the Century *Yale University Press*

A prominent authority on China's Belt and Road Initiative reveals the global risks lurking within Beijing's project of the century China's Belt and Road Initiative is the world's most ambitious and misunderstood geoeconomic vision. To carry out President Xi Jinping's flagship foreign-policy effort, China promises to spend over one trillion dollars for new ports, railways, fiber-optic cables, power plants,

and other connections. The plan touches more than one hundred and thirty countries and has expanded into the Arctic, cyberspace, and even outer space. Beijing says that it is promoting global development, but Washington warns that it is charting a path to global dominance. Taking readers on a journey to China's projects in Asia, Europe, and Africa, Jonathan E. Hillman reveals how this grand vision is unfolding. As China pushes beyond its borders and deep into dangerous territory, it is repeating the mistakes of the great powers that came before it, Hillman argues. If China succeeds, it will remake the world and place itself at the center of everything.

But Xi may be overreaching: all roads do not yet lead to Beijing.

The Bankers' New Clothes

What's Wrong with Banking and What to Do about It *Princeton University Press*

The past few years have shown that risks in banking can impose significant costs on the economy. Many claim, however, that a safer banking system would require sacrificing lending and economic growth. The Bankers' New Clothes examines this claim and the narratives used by bankers, politicians, and regulators to

rationalize the lack of reform, exposing them as invalid. Anat Admati and Martin Hellwig argue that we can have a safer and healthier banking system without sacrificing any of its benefits, and at essentially no cost to society. They seek to engage the broader public in the debate by cutting through the jargon of banking, clearing the fog of confusion, and presenting the issues in simple and accessible terms.

In the Weeds

Demonization, Legalization, and the Evolution of U.S. Marijuana Policy *Temple University Press*

More and more states are legalizing

marijuana in some form. Moreover, a majority of the U.S. population is in favor of the drug for recreational use. In *Weeds* looks at how our society has become more permissive in the past 150 years—even though marijuana is still considered a Schedule I drug by the American government. Sociologists Clayton Mosher and Scott Akins take a deep dive into marijuana policy reform, looking at the incremental developments and the historical, legal, social, and political implications of these changes. They investigate the effects, medicinal applications, and possible harms of marijuana. In *Weeds* also considers arguments that youth

will be heavy users of legalized cannabis, and shows how “weed” is demonized by exaggerations of the drug’s risks and claims of its lack of medicinal value. Mosher and Akins end their timely and insightful book by tracing the distinct paths to the legalization of recreational marijuana in the United States and other countries as well as discussing what the future of marijuana law holds.

The Donnie Clark, Myakka Gold

President Clinton commutes Donnie's life sentence given to him for growing marijuana. A pot smoker and practical joker, a farmer and a felon, a bull rider and a business man and all done in the name of

fun; in short, the life of Donnie Clark. It seems impossible that one man can pack so much fun into one life, often at the expense of others, but most at his own expense. And yet from a boy raising hell in the rural areas of Manatee County, Florida, Donnie was able to not only make his own fun, but his own kind of trouble. Riding the Brahma bull, Sam, in parades; learning how to catch and descent skunks; using rattlesnakes to get more mowing jobs, Donnie always had a stunt up his sleeve. The biggest joke was often on Donnie, not thinking about the consequences!

Donnie's fame, though, came as one of the notorious Myakka Gold gang in the 1980s. He used his farming skills

to grow some of the best marijuana in the country and paid the price. Convicted and doing state time, Donnie soon found himself part of the Federal RICO case. Convicted to spend his life in federal prison, Donnie did what he had done his entire life, made the best of living in prison and making his own fun. A commuted sentence by President Bill Clinton, on his last day in office, his given Donnie another chance to make his own fun on the outside. www.thedonnieclark.com

Princeton University Press

An inside look at the politics of book reviewing, from the assignment and writing of reviews to why critics think we should listen to what they have to say. Taking readers behind the scenes in the world of fiction reviewing, *Inside the Critics' Circle* explores the ways critics evaluate books despite the inherent subjectivity involved and the uncertainties of reviewing when seemingly anyone can be a reviewer. Drawing on interviews with critics from such venues as the New York Times, Los Angeles Times, and Washington Post, Phillipa Chong delves into the complexities of the review-writing process, including the considerations, values, and cultural and

personal anxieties that shape what critics do. Chong explores how critics are paired with review assignments, why they accept these time-consuming projects, how they view their own qualifications for reviewing certain books, and the criteria they employ when making literary judgments. She discovers that while their readers are of concern to reviewers, they are especially worried about authors on the receiving end of reviews. As these are most likely peers who will be returning similar favors in the future, critics' fears and frustrations factor into their willingness or reluctance to write negative reviews. At a time when traditional review opportunities are dwindling while

other forms of reviewing thrive, book reviewing as a professional practice is being brought into question. Inside the Critics' Circle offers readers a revealing look into critics' responses to these massive transitions and how, through their efforts, literary values get made.

Hate Crime Hoax

How the Left is Selling a Fake Race War *Simon and Schuster*

If you believe the news, today's America is plagued by an epidemic of violent hate crimes. But is that really true? In *Hoax*, Professor Wilfred Reilly examines over one hundred widely publicized incidents of so-called hate crimes

that never actually happened. With a critical eye and attention to detail, Reilly debunks these fabricated incidents—many of them alleged to have happened on college campuses—and explores why so many Americans are driven to fake hate crimes. We're not experiencing an epidemic of hate crimes, Reilly concludes—but we might be experiencing an unprecedented epidemic of hate crime hoaxes.

The Emperor Wears No Clothes

A History of Cannabis/Hemp/Marijuana

THE OFFICIAL 14TH EDITION from Herer Media & publishing. In this thoroughly

researched, scrupulously annotated and shockingly provocative book you'll learn: * How and why cannabis prohibition began and what that has meant to America. * All the uses of hemp as medicine, food, fuel, fiber, paper and as a plastic replacement. * The straight dope on marijuana smoking and the effects on the human body. * Who profits from the prohibition and criminalization of cannabis. * What you can do to speed up legalization and profit from the coming changes. Once again includes Jack's original research in the back. As the most popular book about Cannabis/Hemp in history, *The Emperor Wears No Clothes* is required reading for anyone interested in

how this plant can heal themselves, their families and the planet.
