The Revolution Will Not Be Funded

Beyond the Non-Profit Industrial Complex *Duke*

University Press

A trillion-dollar industry, the US non-profit sector is one of the world's largest economies. From art museums and university hospitals to think tanks and church charities, over 1.5 million organizations of staggering diversity share the tax-exempt 501(c)(3) designation, if little else. Many social justice organizations have joined this world, often blunting political goals to satisfy government and foundation mandates. But even as funding shrinks, many activists often find it difficult to imagine movement-building outside the non-profit model. The Revolution Will Not Be Funded gathers essays by radical activists, educators, and non-

profit staff from around the globe who critically rethink the long-term consequences of what they call the "non-profit industrial complex." Drawing on their own experiences, the contributors track the history of non-profits and provide strategies to transform and work outside them. Urgent and visionary, *The Revolution Will Not Be Funded* presents a biting critique of the quietly devastating role the non-profit industrial complex plays in managing dissent. Contributors. Christine E. Ahn, Robert L. Allen, Alisa Bierria, Nicole Burrowes, Communities Against Rape and Abuse (CARA), William Cordery, Morgan Cousins, Ruth Wilson Gilmore, Stephanie

Guilloud, Adjoa Florência Jones de Almeida, Tiffany Lethabo King, Paul Kivel, Soniya Munshi, Ewuare Osayande, Amara H. Pérez, Project South: Institute for the Elimination of Poverty and Genocide, Dylan Rodríguez, Paula X. Rojas, Ana Clarissa Rojas Durazo, Sisters in Action for Power, Andrea Smith, Eric Tang, Madonna Thunder Hawk, Ije Ude, Craig Willse

The Revolution Will Not Be Televised

Protest Music After Fukushima *Oxford University Press*

Nuclear power has been a contentious issue in Japan since the 1950s, and in the aftermath of the Fukushima nuclear power plant disaster,

the conflict has only grown. Government agencies and the nuclear industry continue to push a nuclear agenda, while the mainstream media adheres to the official line that nuclear power is Japan's future. Public debate about nuclear energy is strongly discouraged. Nevertheless, antinuclear activism has swelled into one of the most popular and passionate movements in Japan, leading to a powerful wave of protest music. The *Revolution Will Not Be Televised: Protest Music After Fukushima* shows that music played a central role in expressing antinuclear sentiments and mobilizing political resistance in Japan. Combining musical analysis with ethnographic participation, author Noriko Manabe offers an innovative typology of the spaces central to the performance of protest music--cyberspace, demonstrations, festivals, and recordings. She argues that these four spaces encourage different modes of participation and methods of political messaging. The openness, mobile accessibility, and potential anonymity of cyberspace have allowed musicians to directly challenge the ethos of silence that permeated Japanese culture post-Fukushima. Moving from cyberspace to real space, Manabe shows how the performance and reception of music played at public

demonstrations are shaped by the urban geographies of Japanese cities. While short on open public space, urban centers in Japan offer protesters a wide range of governmental and commercial spaces in which to demonstrate, with activist musicians tailoring their performances to the particular landscapes and soundscapes of each. Music festivals are a space apart from everyday life, encouraging musicians and audience members to freely engage in political expression through informative and immersive performances. Conversely, Japanese record companies and producers discourage major-label musicians from expressing political views in

recordings, forcing antinuclear musicians to express dissent indirectly: through allegories, metaphors, and metonyms. The first book on Japan's antinuclear music, *The Revolution Will Not Be Televised* provides a compelling new perspective on the role of music in political movements.

The Revolution Will Not Be Theorized

Cultural Revolution in the Black Power Era *SUNY Press*

Studies the revolutionary theory of the Black Power Movement in the 1960s through '70s, placing it within the broader social theory of black revolution in the United States since the nineteenth century. The study of the

impact of Black Power Movement (BPM) activists and organizations in the 1960s through '70s has largely been confined to their role as proponents of social change; but they were also theorists of the change they sought. In *The Revolution Will Not Be Theorized* Errol A. Henderson explains this theoretical contribution and places it within a broader social theory of black revolution in the United States dating back to nineteenth-century black intellectuals. These include black nationalists, feminists, and anti-imperialists; activists and artists of the Harlem Renaissance; and early Cold War-era black revolutionists. The book first elaborates W. E. B. Du Bois's thesis of the "General Strike" during the Civil War, Alain Locke's thesis relating black culture to political and economic change, Harold Cruse's work on black cultural revolution, and Malcolm X's advocacy of black cultural and political revolution in the United States. Henderson then critically examines BPM revolutionists' theorizing regarding cultural and political revolution and the relationship between them in order to realize their revolutionary objectives. Focused more on importing theory from third world contexts that were dramatically different from the United States, BPM revolutionists largely ignored the theoretical template for black revolution

most salient to their case, which undermined their ability to theorize a successful black revolution in the United States. Errol A. Henderson is Associate Professor of Political Science at Pennsylvania State University. He is the author of several books, including *African Realism? International Relations Theory and Africa's Wars in the Postcolonial Era*.

Life of a Song

The fascinating stories behind 50 of the worlds best-loved songs *Nicholas Brealey*

Who knew that Paul McCartney originally referred to Yesterday as 'Scrambled Eggs' because he couldn't

think of any lyrics for his heart-breaking tune? Or that Patti LaBelle didn't know what 'Voulez-vous couches avec moi ce soir?' actually meant? These and countless other fascinating back stories of some of our best-known and best-loved songs fill this book, a collection of the highly successful weekly *The Life of a Song* columns that appear in the FT Weekend every Saturday. Each 600-word piece gives a mini-biography of a single song, from its earliest form (often a spiritual, or a jazz number), through the various covers and changes, often morphing from one genre to another, always focusing on the 'biography' of the song itself while including

the many famous artists who have performed or recorded it. The selection covers a wide spectrum of the songs we all know and love - rock, pop, folk, jazz and more. Each piece is pithy, sparkily written, knowledgeable, entertaining, full of anecdotes and surprises. They combine deep musical knowledge with the vivid background of the performers and musicians, and of course the often intriguing social and political background against which the songs were created.

The Revolution Will Not Be Televised

HarperPB

When Joe Trippi signed on to run Howard Dean's 2004 presidential campaign,

the long-shot candidate had 432 known supporters and \$100,000 in the bank. Within a year, Trippi and his team had transformed the most obscure candidate in the field into a Democratic front-runner with a groundswell of 640,000 supporters and more money than any Democrat in history -- mostly through donations of one hundred dollars or less. Trippi's revolutionary use of the Internet and an impassioned, contagious desire to overthrow politics as usual grew into a national grassroots movement and changed the face of politics forever. As Trippi argues persuasively, the Internet is distributing power to the people

right now. And the companies that understand the coming revolution will be the first movers in this new era, while those that wait will be left behind.

From his behind-the-scenes look at Dean's shocking rise and fall to his "seven inviolable, irrefutable, ingenious things your business or institution or candidate can do in the age of the Internet that might keep you from getting your ass kicked, but then again might not," Joe Trippi offers an inspiring glimpse of the world we are becoming. And he shows how power, in the hands of all of us, changes everything.

The Revolution Was Televised

How The Sopranos, Mad Men, Breaking Bad, Lost, and Other Groundbreaking Dramas Changed TV Forever *Simon and Schuster*

A phenomenal account, newly updated, of how twelve innovative television dramas transformed the medium and the culture at large, featuring Sepinwall's take on the finales of *Mad Men* and *Breaking Bad*. In *The Revolution Was Televised*, celebrated TV critic Alan Sepinwall chronicles the remarkable transformation of the small screen over the past fifteen years. Focusing on twelve innovative television dramas that changed the medium and the culture at large forever, including *The*

Sopranos, Oz, The Wire, Deadwood, The Shield, Lost, Buffy the Vampire Slayer, 24, Battlestar Galactica, Friday Night Lights, Mad Men, and Breaking Bad, Sepinwall weaves his trademark incisive criticism with highly entertaining reporting about the real-life characters and conflicts behind the scenes. Drawing on interviews with writers David Chase, David Simon, David Milch, Joel Surnow and Howard Gordon, Damon Lindelof and Carlton Cuse, and Vince Gilligan, among others, along with the network executives responsible for green-lighting these groundbreaking shows, *The Revolution Was Televised* is the story of a new golden age in TV, one that's as rich

with drama and thrills as the very shows themselves.

The Revolution Will Not Be Microwaved

Inside America's Underground Food Movements *Chelsea Green Publishing*

An instant classic for a new generation of monkey-wrenching food activists. Food in America is cheap and abundant, yet the vast majority of it is diminished in terms of flavor and nutrition, anonymous and mysterious after being shipped thousands of miles and passing through inscrutable supply chains, and controlled by multinational corporations. In our system of globalized food commodities, convenience replaces

quality and a connection to the source of our food. Most of us know almost nothing about how our food is grown or produced, where it comes from, and what health value it really has. It is food as pure corporate commodity. We all deserve much better than that. In *The Revolution Will Not Be Microwaved*, author Sandor Ellix Katz (Wild Fermentation, Chelsea Green 2003) profiles grassroots activists who are taking on Big Food, creating meaningful alternatives, and challenging the way many Americans think about food. From community-supported local farmers, community gardeners, and seed saving activists, to underground

distribution networks of contraband foods and food resources rescued from the waste stream, this book shows how ordinary people can resist the dominant system, revive community-based food production, and take direct responsibility for their own health and nutrition.

The Revolution Has Come

Black Power, Gender, and the Black Panther Party in Oakland *Duke University Press*

In *The Revolution Has Come* Robyn C. Spencer traces the Black Panther Party's organizational evolution in Oakland, California, where hundreds of young people came to political awareness and

journeyed to adulthood as members. Challenging the belief that the Panthers were a projection of the leadership, Spencer draws on interviews with rank-and-file members, FBI files, and archival materials to examine the impact the organization's internal politics and COINTELPRO's political repression had on its evolution and dissolution. She shows how the Panthers' members interpreted, implemented, and influenced party ideology and programs; initiated dialogues about gender politics; highlighted ambiguities in the Panthers' armed stance; and criticized organizational priorities. Spencer also centers gender politics and the experiences of

women and their contributions to the Panthers and the Black Power movement as a whole. Providing a panoramic view of the party's organization over its sixteen-year history, *The Revolution Has Come* shows how the Black Panthers embodied Black Power through the party's international activism, interracial alliances, commitment to address state violence, and desire to foster self-determination in Oakland's black communities.

The Last Holiday

A Memoir *Open Road + Grove/Atlantic*

In a musical career spanning five decades, from *Small Talk* at a 125th and Lenox (1970) to *I'm New Year* (2010), Gil Scott-Heron

(1949–2011) released twenty albums and many seminal singles including "The Revolution Will Not be Televised," "Home is Where the Hatred Is," "Winter in America," "B Movie" "Johannesburg" and "Lady Day and John Coltrane." He was also the author of three previous books—two novels, *The Vulture* (1970) and *The Nigger Factory* (1972) and *Now and Then, The Poems of Gil Scott-Heron*.

The Fourth Industrial Revolution *Currency*

Between the 18th and 19th centuries, Britain experienced massive leaps in technological, scientific, and economical advancement

The Revolution Will

Be Tokenized

Book I of *The Daedalus Cycle*: In the year 2040, a young girl named Cypher is caught in a desperate struggle for survival when she ends up in a refugee camp in Africa. What began as a simple journey to run from her ex soon turns into an international manhunt, as she has to become more than just a girl: The most dangerous cyber-terrorist of all times! A stunning and vividly imaginative look into our future. The first novel of the *Daedalus Cycle* leads us into a world of tomorrow, that is drowning in information and data and in which technologies like Blockchain or Artificial Intelligence have become part of our everyday life. With a

strong new woman in sci fi THE REVOLUTION WILL BE TOKENIZED is a breathtaking urban sci fi thriller that shows a dystopian future and the struggle of one girl as she descends into the heart of darkness of this digital age.

Now and Then

'A poet and polemicist whose lyrics have inspired and galvanised generations' GQ. Introduced by Kate Tempest

The Quiet Before

On the Unexpected Origins of Radical Ideas *Crown*

An "elegantly argued and exuberantly narrated" (The New York Times Book Review) look at the building of social movements—from the

1600s to the present—and how current technology is undermining them "A bravura work of scholarship and reporting, featuring amazing individuals and dramatic events from seventeenth-century France to Rome, Moscow, Cairo, and contemporary Minneapolis."—Louis Menand, author of *The Free World* We tend to think of revolutions as loud: frustrations and demands shouted in the streets. But the ideas fueling them have traditionally been conceived in much quieter spaces, in the small, secluded corners where a vanguard can whisper among themselves, imagine alternate realities, and deliberate about how to achieve their goals. This extraordinary

book is a search for those spaces, over centuries and across continents, and a warning that—in a world dominated by social media—they might soon go extinct. Gal Beckerman, an editor at The New York Times Book Review, takes us back to the seventeenth century, to the correspondence that jump-started the scientific revolution, and then forward through time to examine engines of social change: the petitions that secured the right to vote in 1830s Britain, the zines that gave voice to women's rage in the early 1990s, and even the messaging apps used by epidemiologists fighting the pandemic in the shadow of an inept administration. In each case, Beckerman shows that our most defining social movements—from decolonization to feminism—were formed in quiet, closed networks that allowed a small group to incubate their ideas before broadcasting them widely. But Facebook and Twitter are replacing these productive, private spaces, to the detriment of activists around the world. Why did the Arab Spring fall apart? Why did Occupy Wall Street never gain traction? Has Black Lives Matter lived up to its full potential? Beckerman reveals what this new social media ecosystem lacks—everything from patience to focus—and offers a recipe for growing radical ideas again. Lyrical and

profound, *The Quiet Before* looks to the past to help us imagine a different future.

Beyond Survival

Strategies and Stories from the Transformative Justice Movement *AK Press*

Transformative justice seeks to solve the problem of violence at the grassroots level, without relying on punishment, incarceration, or policing. Community-based approaches to preventing crime and repairing its damage have existed for centuries. However, in the putative atmosphere of contemporary criminal justice systems, they are often marginalized and operate under the radar. *Beyond Survival*

puts these strategies front and center as real alternatives to today's failed models of confinement and "correction." In this collection, a diverse group of authors focuses on concrete and practical forms of redress and accountability, assessing existing practices and marking paths forward. They use a variety of forms—from toolkits to personal essays—to delve deeply into the "how to" of transformative justice, providing alternatives to calling the police, ways to support people having mental health crises, stories of community-based murder investigations, and much more. At the same time, they document the history of this radical

movement, creating space for long-time organizers to reflect on victories, struggles, mistakes, and transformations.

The Revolution Will Rhyme

With Remarks from Dr. Cornel West
Independently Published

The revolution will be led by Black women who are just tired enough to do it ourselves Welcome to the revolution! In her second collection, Jillian Hanesworth explores the idea of revolutionary change through a personal and community lens. The internal revolution details some of her most personal thoughts, insecurities, pains, and triumphs, while the external

revolution displays her work and love for her community by speaking truth to power, calling for change, recounting history, and empowering people to walk in their own light. This book also features a transcribed conversation with Dr. Cornel West about using the arts to build political power. The revolution starts now.

Witness to the Revolution

Radicals, Resisters, Vets, Hippies, and the Year America Lost Its Mind and Found Its Soul
Random House Trade Paperbacks

The electrifying story of the turbulent year when the sixties ended and America teetered on the edge of

revolution NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE ST. LOUIS POST-DISPATCH As the 1960s drew to a close, the United States was coming apart at the seams. From August 1969 to August 1970, the nation witnessed nine thousand protests and eighty-four acts of arson or bombings at schools across the country. It was the year of the My Lai massacre investigation, the Cambodia invasion, Woodstock, and the Moratorium to End the War. The American death toll in Vietnam was approaching fifty thousand, and the ascendant counterculture was challenging nearly every aspect of American society. Witness to the

Revolution, Clara Bingham's unique oral history of that tumultuous time, unveils anew that moment when America careened to the brink of a civil war at home, as it fought a long, futile war abroad. Woven together from one hundred original interviews, Witness to the Revolution provides a firsthand narrative of that period of upheaval in the words of those closest to the action—the activists, organizers, radicals, and resisters who manned the barricades of what Students for a Democratic Society leader Tom Hayden called "the Great Refusal." We meet Bill Ayers and Bernardine Dohrn of the Weather Underground; Daniel Ellsberg, the former

Defense Department employee who released the Pentagon Papers; feminist theorist Robin Morgan; actor and activist Jane Fonda; and many others whose powerful personal stories capture the essence of an era. We witness how the killing of four students at Kent State turned a straitlaced social worker into a hippie, how the civil rights movement gave birth to the women's movement, and how opposition to the war in Vietnam turned college students into prisoners, veterans into peace marchers, and intellectuals into bombers. With lessons that can be applied to our time, *Witness to the Revolution* is more than just a record of the death throes of the Age of Aquarius.

Today, when America is once again enmeshed in racial turmoil, extended wars overseas, and distrust of the government, the insights contained in this book are more relevant than ever. Praise for *Witness to the Revolution* "Especially for younger generations who didn't live through it, *Witness to the Revolution* is a valuable and entertaining primer on a moment in American history the likes of which we may never see again."—Bryan Burrough, *The Wall Street Journal* "[One of the] best paperbacks of 2017 so far . . . The book is a rich tapestry of a volatile period in American history."—*Time* "A gripping oral history of the centrifugal social forces tearing America

apart at the end of the '60s . . . This is rousing reportage from the front lines of US history."—O: The Oprah Magazine "The familiar voices and the unfamiliar ones are woven together with documents to make this a surprisingly powerful and moving book."—New York Times Book Review "[An] Enthralling and brilliant chronology of the period between August 1969 and September 1970."—Buffalo News "[Bingham] captures the essence of these fourteen months through the words of movement organizers, vets, students, draft resisters, journalists, musicians, government agents, writers, and others. . . . This oral history will enable readers to see that era

in a new light and with fresh sympathy for the motivations of those involved. While Bingham's is one of many retrospective looks at that period, it is one of the most immediate and personal."—Booklist

The Revolution Will Be Bloody *Lulu.com*

What if your menstrual cycle was a map for living in flow?The greatest trick the patriarchy ever pulled was separating women from their cycles. It pitted us against each other (and ourselves), turning one of our greatest power sources into something 'gross' and 'unclean' - a 'curse' to be ashamed of.As a result, we've forgotten that our energy levels naturally wax and wane each month. Instead, we live

our lives constantly pushing, striving and doing - ending up burnt out and disempowered. And 90% of us will have a hormonal imbalance. This book proposes a revolutionary alternative: one of honoring your natural cycle, and planning your life and business in flow with it. As you journey through these pages, you'll learn how to live, eat and work in beautiful alignment with your individual flow. It's time to reconnect with the power in your period. Are you ready to join the revolution?

The Revolution Will be Digitised

Dispatches from the Information War

Random House

In 'The Revolution will

be Digitised,' Heather Brooke reports back from the front lines of the Information War, a shadow world of computer hackers, cypherpunks, encryption experts, whistleblowers and pro-democracy campaigners. She takes us to San Francisco and Boston, where pioneering geeks launch cyber warfare at night

The Revolution

A Manifesto *Grand Central Publishing*

#1 NEW YORK TIMES

BESTSELLER This much

is true: You have been

lied to. The

government is

expanding. Taxes are

increasing. More

senseless wars are

being planned. Inflation

is ballooning. Our basic

freedoms are

disappearing. The Founding Fathers didn't want any of this. In fact, they said so quite clearly in the Constitution of the United States of America.

Unfortunately, that beautiful, ingenious, and revolutionary document is being ignored more and more in Washington. If we are to enjoy peace, freedom, and prosperity once again, we absolutely must return to the principles upon which America was founded. But finally, there is hope . . . In *THE REVOLUTION*, Texas congressman and presidential candidate Ron Paul has exposed the core truths behind everything threatening America, from the real reasons behind the collapse of the dollar

and the looming financial crisis, to terrorism and the loss of our precious civil liberties. In this book, Ron Paul provides answers to questions that few even dare to ask. Despite a media blackout, this septuagenarian physician-turned-congressman sparked a movement that has attracted a legion of young, dedicated, enthusiastic supporters . . . a phenomenon that has amazed veteran political observers and made more than one political rival envious. Candidates across America are already running as "Ron Paul Republicans." "Dr. Paul cured my apathy," says a popular campaign sign. *THE REVOLUTION* may cure yours as well.

Gil Scott-Heron:

Pieces of a Man *St. Martin's Press*

Best known for his 1970 polemic "The Revolution Will Not Be Televised," Gil Scott-Heron was a musical icon who defied characterization. He tantalized audiences with his charismatic stage presence, and his biting, observant lyrics in such singles as "The Bottle" and "Johannesburg" provide a time capsule for a decade marked by turbulence, uncertainty, and racism. While he was exalted by his devoted fans as the "black Bob Dylan" (a term he hated) and widely sampled by the likes of Kanye West, Prince, Common, and Elvis Costello, he never really achieved mainstream success. Yet he maintained a

cult following throughout his life, even as he grappled with the personal demons that fueled so many of his lyrics. Scott-Heron performed and occasionally recorded well into his later years, until eventually succumbing to his life-long struggle with addiction. He passed away in 2011, the end to what had become a hermit-like existence. In this biography, Marcus Baram--an acquaintance of Gil Scott-Heron's--will trace the volatile journey of a troubled musical genius. Baram will chart Scott-Heron's musical odyssey, from Chicago to Tennessee to New York: a drug addict's twisted path to redemption and enduring fame. In *Gil Scott-Heron: Pieces of*

a Man, Marcus Baram puts the complicated icon into full focus.

The Revolution Will Be Stopped Halfway

Oscar Niemeyer in Algeria

The Revolution Will Be Stopped Halfway collects Jason Oddy's in-depth photographic survey of the Brazilian modernist Oscar Niemeyer's Algerian projects alongside archival documents and further research into Niemeyer's Algerian work in order to explore the revolutionary politics that inspired and formed these buildings.

Rules for Revolutionaries

How Big Organizing Can Change Everything Chelsea

Green Publishing

Lessons from the groundbreaking grassroots campaign that helped launch a new political revolution Rules for Revolutionaries is a bold challenge to the political establishment and the “rules” that govern campaign strategy. It tells the story of a breakthrough experiment conducted on the fringes of the Bernie Sanders presidential campaign: A technology-driven team empowered volunteers to build and manage the infrastructure to make seventy-five million calls, launch eight million text messages, and hold more than one-hundred thousand public meetings—in an effort to put Bernie Sanders’s insurgent campaign over the top.

Bond and Exley, digital iconoclasts who have been reshaping the way politics is practiced in America for two decades, have identified twenty-two rules of “Big Organizing” that can be used to drive social change movements of any kind. And they tell the inside story of one of the most amazing grassroots political campaigns ever run. Fast-paced, provocative, and profound, *Rules for Revolutionaries* stands as a liberating challenge to the low expectations and small thinking that dominates too many advocacy, non-profit, and campaigning organizations—and points the way forward to a future where political revolution is truly possible.

The Revolution Will Not Be Theorized

Cultural Revolution in the Black Power Era *SUNY Press*

Studies the revolutionary theory of the Black Power Movement in the 1960s through '70s, placing it within the broader social theory of black revolution in the United States since the nineteenth century. The study of the impact of Black Power Movement (BPM) activists and organizations in the 1960s through '70s has largely been confined to their role as proponents of social change; but they were also theorists of the change they sought. In *The Revolution Will Not Be Theorized* Errol A. Henderson explains this theoretical

contribution and places it within a broader social theory of black revolution in the United States dating back to nineteenth-century black intellectuals. These include black nationalists, feminists, and anti-imperialists; activists and artists of the Harlem Renaissance; and early Cold War-era black revolutionists. The book first elaborates W. E. B. Du Bois's thesis of the "General Strike" during the Civil War, Alain Locke's thesis relating black culture to political and economic change, Harold Cruse's work on black cultural revolution, and Malcolm X's advocacy of black cultural and political revolution in the United States. Henderson then critically examines BPM revolutionists' theorizing regarding cultural and political revolution and the relationship between them in order to realize their revolutionary objectives. Focused more on importing theory from third world contexts that were dramatically different from the United States, BPM revolutionists largely ignored the theoretical template for black revolution most salient to their case, which undermined their ability to theorize a successful black revolution in the United States. "This book is not only one of the most intellectually ambitious works but also the most comprehensive examination of revolutionary theory in the Black Power Era. A

monumental accomplishment. Bravo!" — Komozi Woodard, author of *A Nation within a Nation: Amiri Baraka (LeRoi Jones) and Black Power Politics*

The Conservation Revolution

Radical Ideas for Saving Nature Beyond the Anthropocene *Verso Books*

A post-capitalist manifesto for conservation. Conservation needs a revolution. This is the only way it can contribute to the drastic transformations needed to come to a truly sustainable model of development. The good news is that conservation is ready for revolution. Heated debates about the rise

of the Anthropocene and the current 'sixth extinction' crisis demonstrate an urgent need and desire to move beyond mainstream approaches. Yet the conservation community is deeply divided over where to go from here. Some want to place 'half earth' into protected areas. Others want to move away from parks to focus on unexpected and 'new' natures. Many believe conservation requires full integration into capitalist production processes. Building a razor-sharp critique of current conservation proposals and their contradictions, Büscher and Fletcher argue that the Anthropocene challenge demands something bigger, better and bolder.

Something truly revolutionary. They propose convivial conservation as the way forward. This approach goes beyond protected areas and faith in markets to incorporate the needs of humans and nonhumans within integrated and just landscapes. Theoretically astute and practically relevant, *The Conservation Revolution* offers a manifesto for conservation in the twenty-first century—a clarion call that cannot be ignored.

The Revolution Will Not Be Downloaded

Dissent in the Digital Age *Elsevier*

This book attacks the often implicit and damaging assumption

that ‘everyone’ is online and that ‘everyone’ is using online resources within the specified parameters of employers, government and national laws. This book summons a critical Web Studies, asking not only who is using particular applications, but also how and why. This remedial work is required. The concept and label of ‘Web 2.0’ is part of a wide-ranging suite of assumptions that offer simple answers to difficult questions. The term captures a desire for online collaboration and the sharing of information, performed most visibly through blogs, podcasts and wikis. Other ‘products’ that capture the Web 2.0 ideology include

Google Maps, Facebook, MySpace and Flickr. Within this framework, websites no longer hold information but become a platform to connect applications with users. The business applications have gained the most attention - particularly content syndication - but there are also 'political' initiatives overlaying this project including open communication, the sharing of data and the deep linking of web architecture. Development of innovative concepts and models to manage the digital divide. Evocative studies of the digitally excluded and downloading communities. Attention to digital literacy and online education.

There will be no going back.

The Revolution Will Not Be Televised

Protest Music After Fukushima *Oxford University Press*

Nuclear power has been a contentious issue in Japan since the 1950s, and in the aftermath of the Fukushima nuclear power plant disaster, the conflict has only grown. Government agencies and the nuclear industry continue to push a nuclear agenda, while the mainstream media adheres to the official line that nuclear power is Japan's future. Public debate about nuclear energy is strongly discouraged. Nevertheless, antinuclear activism has swelled into one of the most popular and passionate movements in Japan, leading to a

powerful wave of protest music. *The Revolution Will Not Be Televised: Protest Music After Fukushima* shows that music played a central role in expressing antinuclear sentiments and mobilizing political resistance in Japan. Combining musical analysis with ethnographic participation, author Noriko Manabe offers an innovative typology of the spaces central to the performance of protest music--cyberspace, demonstrations, festivals, and recordings. She argues that these four spaces encourage different modes of participation and methods of political messaging. The openness, mobile accessibility, and potential anonymity of

cyberspace have allowed musicians to directly challenge the ethos of silence that permeated Japanese culture post-Fukushima. Moving from cyberspace to real space, Manabe shows how the performance and reception of music played at public demonstrations are shaped by the urban geographies of Japanese cities. While short on open public space, urban centers in Japan offer protesters a wide range of governmental and commercial spaces in which to demonstrate, with activist musicians tailoring their performances to the particular landscapes and soundscapes of each. Music festivals are a space apart from everyday life,

encouraging musicians and audience members to freely engage in political expression through informative and immersive performances.

Conversely, Japanese record companies and producers discourage major-label musicians from expressing political views in recordings, forcing antinuclear musicians to express dissent indirectly: through allegories, metaphors, and metonyms. The first book on Japan's antinuclear music, *The Revolution Will Not Be Televised* provides a compelling new perspective on the role of music in political movements.

Reflections on the Revolution in France

West of the

Revolution: An Uncommon History of 1776 *W. W. Norton & Company*

This panoramic account of 1776 chronicles the other revolutions unfolding that year across North America, far beyond the British colonies. In this unique history of 1776, Claudio Saunt looks beyond the familiar story of the thirteen colonies to explore the many other revolutions roiling the turbulent American continent. In that fateful year, the Spanish landed in San Francisco, the Russians pushed into Alaska to hunt valuable sea otters, and the Sioux discovered the Black Hills. Hailed by critics for challenging our conventional view of the birth of America, West of the Revolution

"[coaxes] our vision away from the Atlantic seaboard" and "exposes a continent seething with peoples and purposes beyond Minutemen and Redcoats" (Wall Street Journal).

Hearing the Crimean War

Wartime Sound and the Unmaking of Sense *Oxford University Press, USA*

What does sound, whether preserved or lost, tell us about nineteenth-century wartime? *Hearing the Crimean War: Wartime Sound and the Unmaking of Sense* pursues this question through the many territories affected by the Crimean War, including Britain, France, Turkey, Russia, Italy, Poland, Latvia,

Dagestan, Chechnya, and Crimea. Examining the experience of listeners and the politics of archiving sound, it reveals the close interplay between nineteenth-century geographies of empire and the media through which wartime sounds became audible--or failed to do so. The volume explores the dynamics of sound both in violent encounters on the battlefield and in the experience of listeners far-removed from theaters of war, each essay interrogating the Crimean War's sonic archive in order to address a broad set of issues in musicology, ethnomusicology, literary studies, the history of the senses and sound studies.

This Book Will Not

Be on the Test

The Study Skills Revolution *Rowman & Littlefield*

This Book Will Be on the Test helps students make the most of their college investment by solving their academic, motivational, and career concerns with study skills, teaches students how to earn better grades in less time and shows parents what they can expect from their kids' college experiences.

The Revolution that Failed

Nuclear Competition, Arms Control, and the Cold War *Cambridge University Press*

A theoretical analysis and historical investigation of the Cold War nuclear arms

race that challenges the nuclear revolution.

The Revolution Will Not be Televised

Black Studies and the Transformation of American Higher Education, 1967-1972

June Cleaver Was a Feminist!

Reconsidering the Female Characters of Early Television

McFarland

Long dismissed as ciphers, sycophants and “Stepford Wives,” women characters of primetime television during the 1950s through the 1980s are overdue for this careful reassessment. From smart, savvy wives and resilient mothers (including the much-maligned June Cleaver

and Donna Reed) to talented working women (long before the debut of “Mary Tyler Moore”) to crimebusters and even criminals, American women on television emerge as a diverse, empowered, individualistic, and capable lot, highly worthy of emulation and appreciation.

Black Awakening in Capitalist America

An Analytic History

Lushena Books

Black Awakening in Capitalist America is a classic study of the Black liberation movement of the 1960s. Examining Black Power and black capitalism, the student and radical movements, nationalists and integrationists, Allen

argues that Black America, hemmed in by racism, constitutes an underdeveloped, domestic colony within the United States. *Black Awakening in Capitalist America* is essential reading to understand the origins and development of the contemporary black struggle for freedom.

The Old Regime and the Revolution

After the Revolution

Youth, Democracy, and the Politics of Disappointment in Serbia

Stanford University Press

What happens to student activism once mass protests have disappeared from view, and youth no longer embody the political frustrations and hopes

of a nation? After the Revolution chronicles the lives of student activists as they confront the possibilities and disappointments of democracy in the shadow of the recent revolution in Serbia. Greenberg's narrative highlights the stories of young student activists as they seek to define their role and articulate a new form of legitimate political activity, post-socialism. When student activists in Serbia helped topple dictator Slobodan Milosevic on October 5, 2000, they unexpectedly found that the post-revolutionary period brought even greater problems. How do you actually live and practice democracy in the wake of war and the shadow of a recent

revolution? How do young Serbians attempt to translate the energy and excitement generated by wide scale mobilization into the slow work of building democratic

institutions? Greenberg navigates through the ranks of student organizations as they transition their activism from the streets back into the halls of the university. In exploring the everyday practices of student activists—their triumphs and frustrations—After the Revolution argues that disappointment is not a failure of democracy but a fundamental feature of how people live and practice it. This fascinating book develops a critical vocabulary for the social life of

disappointment with the aim of helping citizens, scholars, and policymakers worldwide escape the trap of framing new democracies as doomed to failure.

The Creative Destruction of Medicine

How the Digital Revolution Will Create Better Health Care

A professor of medicine reveals how technology like wireless internet, individual data, and personal genomics can be used to save lives.

Homage to Catalonia *Oxford University Press, USA*

Homage to Catalonia is George Orwell's account of the Spanish Civil War. It was the

last and most mature of Orwell's documentary books.

Lightfoot *Penguin*

Shortlisted for the 2017 Legislative Assembly of Ontario Speaker's Book Award
Nominated for the 2018 Heritage Toronto Award - Historical Writing: Book
The definitive, full-access story of the life and songs of Canada's legendary troubadour Gordon Lightfoot's name is synonymous with timeless songs about trains and shipwrecks, rivers and highways, lovers and loneliness. His music defined the folk-pop sound of the 1960s and '70s, topped charts and sold millions. He is unquestionably Canada's greatest songwriter, and an international star who

has performed on the world's biggest stages. While Lightfoot's songs are well known, the man behind them is elusive. He's never allowed his life to be chronicled in a book—until now. Biographer Nick Jennings has had unprecedented access to the notoriously reticent musician. Lightfoot takes us deep inside the artist's world, from his idyllic childhood in Orillia, the wild sixties, and his canoe trips into Canada's North to his heady times atop the music world. Jennings explores the toll that success took on his personal life—including his troubled relationships, his battle with alcohol and his near-death experiences—and the extraordinary drive and

tenacity that pulled him through it all. Rich in voices from fellow musicians, close friends, Lightfoot's family and the singer's own reminiscences, the biography tells the stories behind some of his best-known love songs, including "Beautiful" and "Song for a Winter's Night," as well as the infidelity and divorce that resulted in classics like "Sundown" and "If You Could Read My Mind." Kris Kristofferson has

called Lightfoot's songs "some of the most beautiful and lasting music of our time." Lightfoot is an unforgettable portrait of a treasured singer-songwriter, an artist whose work has been covered by everyone from Joni Mitchell, Barbra Streisand and Nico to Bob Dylan, Elvis Presley and Gord Downie. Revealing and insightful, Lightfoot is both an inspiring story of redemption and an exhilarating read.
