The philosophy of technology is a sub-field of philosophy that studies the nature of technology and its social effects. Philosophical discussion of questions relating to technology

dates back to the very dawn of Western philosophy. The phrase "philosophy of technology" was first used in the late 19th century by German-born philosopher and geographer Ernst Kapp, who published a book titled "Grundlinien einer Philosophie der Technik".

Wikipedia**

The new edition of this authoritative introduction to the philosophy of technology includes recent developments in the subject, while retaining the range and depth of its selection of seminal contributions and its much-admired editorial commentary.

The Philosophy of

Technology: The Technological Condition ...

The form of philosophy of technology constituted by the writings of these and others has been called by Carl Mitcham (1994) “humanities philosophy of technology”, because it takes its point of departure from the social sciences and the humanities rather than from the practice of technology, and it approaches technology accepting “the primacy of the humanities over technologies” (1994: 39), since technology originates from the goals and values of humans.

Philosophy of Technology (Stanford Encyclopedia of Philosophy)

Philosopher of

technology Don Ihde defines philosophy of technology as philosophy that examines the phenomenon of technology per se, rather than merely considering technology in the context of reflections aimed at philosophical issues other than technology. (Note the opposition to Nordmann’s view, mentioned above.)

The new edition of this authoritative introduction to the philosophy of technology includes recent developments in the subject, while retaining the range and depth of its selection of seminal contributions

and its much-admired editorial commentary. Remains the most comprehensive anthology on the philosophy of technology available. Includes editors' insightful section introductions and ...

Philosophy of Technology: The Technological Condition: An ...

Philosophy of technology studies the character of technology and its relations to society. It has various branches, focusing for instance on the ethics of technology, on the relations between science and technology, on human-technology relations, or the political dimensions of technology.

Context: What is philosophy of technology?

This is the instrumentalist philosophy of technology that is a kind of spontaneous product of our civilization, assumed unreflectively by most people. Technology in this scheme of things encounters nature as raw materials, not as a world that emerges out of itself, a physis, but rather as stuff awaiting transformation into whatever we desire.

What is Philosophy of Technology - SFU.ca

In his book, The Question Concerning Technology, he gives, in fact, three main answers to that question. He says, first of all technology is not an instrument. We

think technology is a means for an end. It is not. It's much bigger than that. Second, technology is not a product of human activity.

Addresses the expanding scope and unprecedented impact of technologies, in order to improve the critical understanding of the conceptual nature and practical consequences, and

hence provide the conceptual foundations for their fruitful and sustainable developments.

Philosophy & Technology | Home

Technology and the Character of Contemporary Life by Albert Borgmann, a philosopher who studied briefly under Heidegger. It was published 1984 and is definitely one of the foundational texts in philosophy of technology. Its chief contribution was to bring the focus on quality of life into the analysis.

The Best Books on Philosophy of Technology | Five Books ...

Philosophy of science is a branch of philosophy concerned with the

foundations, methods and implications of science. The central questions of this study concern what qualifies as science, the reliability of scientific theories and the ultimate purpose of science.

Philosophy and Technology? - Techopedia.com

The western term 'technology' comes from the Greek term *techne*(τέχνη) (art, or craft knowledge) and philosophical views on technology can be traced to the very roots of Western philosophy. A common theme in the Greek view of *techne* is that it arises as an imitation of nature (for example, weaving developed out of watching spiders).

Philosophy of

technology | Project Gutenberg Self ...

History of technology, the development over time of systematic techniques for making and doing things. The term technology, a combination of the Greek *technē*, "art, craft," with *logos*, "word, speech," meant in Greece a discourse on the arts, both fine and applied.

history of technology | Summary & Facts | Britannica

The purpose of using educational technology is to enhance pedagogy and enable students to learn. We have many tools we use as educators, and different types of technology are included in this toolset. The major benefit of using technology is

that it can greatly expand the variety of types of lessons students can participate in.
