I'm trying to gain some knowledge, I have a lead on a 1985 Honda ATC 250SX I know they were made from 85-87 and share the same engine and driveline as the Big Red did. (except for the gears between the driveshaft and rear axle, and the tire height) I understand the 250sx has more suspension travel than the Big Red. The 85 has four forward speeds, were more avialable in later years?
