Diy Tv Repair Guide

You should remove all of the items from the top of the TV, remove items that are placed close to the ventilation stacks, and clean the ventilation stacks with a small vacuum cleaner attachment. Once the stacks are clean, the TV should start working properly again. Remove the Back of the TV with Caution

TV Repair Tips | DoltYourself.com

If your television is still not receiving a signal, reset the cable box by unplugging it and plugging it back in. There may be an issue with your signal or the box itself, so try switching the connections to another device. If the picture works with another device, contact your provider for service for the box itself.
