Long-term risks of augmenting the bladder in spina bifida ...
Stella's miracle journey began when she was born in 2017. Her

mom, Sophie, had a normal pregnancy, but immediately after Stella was born at a hospital in Reading, a nurse spotted a defect on Stella’s back – a symptom of Spina bifida, which occurs when a baby’s spinal cord does not develop or close properly in the womb.

Stella | Pediatric Spina Bifida | Penn State Health

We will develop this network in collaboration with Ontario’s four major pediatric tertiary centres, the Spina Bifida and Hydrocephalus Association of Ontario, and adult urologists. Pediatric providers will identify patients for the network and care will be coordinated by adult nurse practitioners (NPs) with expertise in the care of congenital diseases.

A proposed solution to a urological tightrope walk: The ...

Patients with spina bifida face many challenges, and the role of the urologist in providing lifelong surveillance and care is paramount (10). Urinary and bowel symptoms affect almost all children with spina bifida (7) with rates of incontinence ranging from 48% to 76% (11,12).

association between urinary continence and quality of life ...

CDC programs and research improve the quality of life and encourage full participation at every age for those with spina bifida. In 2006, a survey of spina bifida clinics across the United States conducted by the Spina Bifida Association (SBA) identified differences in staffing, delivery of services, and patient care.
