Queensland's first Cat MD6250 drill delivered to Bluff coal mine. In what Hastings Deering says is a first for Queensland, a Caterpillar MD6250 rotary blasthole drill has been delivered to contractor Mining and Civil Australia (MACA). The delivery to Bluff coal mine, east of Blackwater, is the first drill of its kind to enter the territory for works in the open-pit coking coal operation and was done with precise logistical planning, according to the Cat dealer.

One of the crucial components of moving from batch to continuous hard rock mining is the mechanisation of the transport of the hard rock cuttings from the back end of the RMDS to the mine's fixed conveyor system. Here are some mining technologies currently in development at our mines: 1. Continuous haulage systems
