Anthropology | Social Sciences | Store | Learner US Site

Biological anthropology, also known as physical anthropology, is a scientific discipline concerned with the biological and behavioral aspects of human beings, their extinct hominin ancestors, and related non-human primates, particularly from an evolutionary perspective. This subfield of anthropology systematically studies human beings from a biological perspective.

Biological anthropology - Wikipedia

Biological anthropology (also called physical anthropology), then, is an interesting mixture of social studies and biological studies; several other ingredients make it even more fascinating. The two primary concept areas that tend to hold biological anthropology together are human evolution and human biosocial variation; there are many topics that can be studied within these two concept areas.
