### Mass Casualty Incidents

A mass casualty incident describes an incident within the United States in which emergency medical services resources, such as personnel and equipment, are overwhelmed by the number and severity of casualties. For example, an incident where a two-person crew is responding to a motor vehicle collision with three severely injured people could be considered a mass casualty incident. The general public more commonly recognizes events such as building collapses, train and bus collisions, plane crashe

### Mass-casualty incident - Wikipedia

Clinical guidelines for major incidents and mass casualty events. This guidance has been developed with the occasional trauma team in mind, for example, surgeons in a trauma unit who need to treat a deteriorating P2 patient, or a P1 patient who has been conveyed to the trauma unit, during a major incident response.

### Clinical guidelines for major incidents and mass casualty

...  
A mass fatality incident is an emergency management term used to identify an incident involving more dead bodies and/or body parts than can be located, identified, and processed for final disposition by available response resources.

### Mass fatality incident - Wikipedia
