Henry Petroski is fascinated by the design of everyday objects, and how the seemingly-simple technology of items like pencils, forks, and paperclips have evolved and improved over time. In this volume, he examines the history of - not books per se - but books on bookshelves, which is a very different topic. If you are seeking a deeper understanding of printing and binding methods, or the impact of literature and literacy on human culture, you won't find much here.

Indeed, this is so much the norm that in these days of high-tech printing presses and chain bookstores, it's easy to believe that the book, like the cockroach, remains much the same as it ever was. But as Henry Petroski makes abundantly clear in *Book on the Bookshelf*, books as we know them have had a long and complex evolution. Indeed, he takes us from the scroll to the codex to the hand-lettered illuminated texts that were so rare and valuable they were chained to lecterns to prevent theft.

This bookshelf is basically two face frames (the front and back) with shelves in the middle. I highly recommend using a Kreg Jig for construction, just because it will hide all the screw holes, be much stronger (which is very important on this bookshelf with open sides), and be much easier to construct - trust me, countersinking through 2x4s on edge is no fun at all.
