History does repeat itself. Yes, history does absolutely repeat itself. It repeats itself in new cultures and on new modalities of life, but it does repeat itself. This is because we are human and are,

unfortunately, almost destined to behave in certain ways.

Do you believe that history repeats itself? | Debate.org

When you talk about mass extinctions, you're not talking recent history. You're talking geological history. But this is, without a doubt, the worst way history has repeated itself. Why? Mass extinctions occur when more than 75 percent of all species on Earth die off in a relatively short period [source: Cosmos]. It's happened five times over the past 500 million years, and some scientists think we're in the early throes of the sixth.

10 Worst Ways History Has Repeated Itself

Historic recurrence is the repetition of similar events in history. The concept of historic recurrence has variously been applied to the overall history of the world, to repetitive patterns in the history of a given polity, and to any two specific events which bear a striking similarity. Hypothetically, in the extreme, the concept of historic recurrence assumes the form of the Doctrine of Eternal Recurrence, which has been written about in various forms since antiquity and was described in the 1
