Needs analysis and readiness for change analysis are two distinct facets of the needs assessment life cycle stage described in Chapter 3. Needs analysis involves the following: Identifying the most pressing business and organizational goals (using methods described in Chapter 2)

SAGE Books - Managing Technological Change: A Strategic ...

As an organization-level construct, readiness for change refers to organizational members' shared resolve to implement a change (change commitment) and shared belief in their collective capability to do so (change efficacy). Organizational readiness for change varies as a function of how much organizational members value the change and how favorably they appraise three key determinants of implementation capability: task demands, resource availability, and situational factors.

A theory of organizational readiness for change ...

Who and what: In current research on change readiness, as well as in consulting advice, there tend to be two primary points of view: 1) readiness is measured by the organization's financial, material, human and informational resources that can be applied to the change, and 2) readiness is determined by the psychological willingness of affected people to cooperate in bringing the change to fruition. These points of view are not commonly brought together.
