How to Travel Through Time in Nine Easy Steps

Although humans can't hop into a time machine and go back in time, we do know that clocks on airplanes and satellites travel at a different speed than those on Earth. We all travel in time! We travel one year in time between birthdays, for example. And we are all traveling in time at approximately the same speed: 1 second per second.

Is Time Travel Possible? | NASA Space Place - NASA Science ...

According to Einstein's theory of special relativity, the passage of time is relative to an object's speed. The more quickly an object moves through space, the more slowly time passes for it compared to an observer traveling at a slower pace. The classic example of traveling into the future is the twin paradox.
