Preparation and planning are a critical component of effective teaching. Lack thereof will lead to failure. If anything, every teacher should be over

prepared. Good teachers are almost in a continuous state of preparation and planning. They are always thinking about the next lesson.

Strategies for Teachers: Preparation and Planning

Pre-learning can introduce vocabulary, ideas and so on to help students hit the ground running. Pre-learning can set up the condition where the main lesson actually becomes a period of over-learning. The same cognitive and neural mechanisms that support over-learning during a lesson therefore also support the efficacy of pre-learning.

Teaching interventions: Pre and over learning

The benefits of lesson plans are two fold. First, it allows you to map out what you're planning on teaching that day, and organize everything in your mind prior to presenting it to the students. Some teachers even like to show their kids the lesson plans, as it provides them with a map of what topics they're going to be encountering.
