Q: What is a heat balance? A heat balance is another name for an energy balance. When you are looking at a system (some defined area in which material is entering, interacting, reacting, and perhaps leaving) you are interested in more than just the mass of material. You are also interested in its energy. This is because sometimes what you're doing to it is heating it until some or all of it vaporizes, or driving a reaction, or to reduce unwanted loss of heat, or for other reasons.
