Grisham then explores an alternate future, where Paul is diagnosed with the same brain tumor at the same age, but in the year 2025, when a treatment called focused ultrasound is able to extend his life expectancy. Focused ultrasound has the potential to treat not just brain tumors, but many other disorders, including Parkinson's, Alzheimer's, hypertension, and prostate, breast and pancreatic cancer. For more information or to order a free hardcopy of the book, please visit The Focused Ultrasound Foundation's website www.fusfoundation.org.
