Bi-Color: Bi-colored cats may include tuxedos, as well as other configurations on one color plus white. A black and white cat might be better described as bi-color if the colors are present in large blocks on the cat's body rather than the "bib and boots" pattern. Other bi-colors might include gray and white, brown and white, or red and white.

Feline Breeds, Domestic Cats, and Color Patterns

The same study about human perception of a cat's personality due to their coat color also discusses white cats. They are seen as "less bold and active and more shy and calm than other colors of cat". This is corroborated by many cat guardians who see their white cats as being generally more reserved and often shy, yet loving and caring when they bond with their family.

What Does a Cat's Color Say about its Personality?

A cat's color can tell us something about her personality: It sounds fantastic, but as early as 1872, people tried to link certain kitty colors and patterns with different personality types. There were temperamental torties, placid tabbies, and great white mousers. But is there any truth to these feline stereotypes?

The Color Of Your Cat And Her Personality - CatTime

An odd-eyed cat is a cat with one blue eye and one eye either green, yellow, or brown. This is a feline form of complete heterochromia, a condition that occurs in some other animals, including humans. There is also partial heterochromia, where there can be one blue eye and one eye that is partially blue and

partially another color.
