Health and Culture by C. O. Airhihenbuwa, Associate Professor at Pennsylvania State University, provides a critique of Eurocentric approaches to culture, health and health promotion. The author argues that European and North American paradigms underestimate the role of culture in health, emphasize an authoritarian style of education which dichotomizes teaching and learning, define development in narrow economic terms, and favor medical rather than public health solutions.

Health and Culture. Offering a trenchant analysis of the effect culture has in determining our perceptions and expectations of health care, this provocative volume challenges the traditional, westernized medical model. An insightful alternative, author Collins O. Airhihenbuwa presents the PEN-3 model based on elements of PRECEDE, health belief, and reasoned action models of health behavior.

When public health physician Melanie Tervalon and health educator and clinic administrator Jane Murray-Garcia introduced the concept of cultural humility to the fields of medicine and public health over 30 years ago, they catalyzed fascinating and continuing discourse on whether cultural humility is, in fact, more important than working to become "competent" in the cultures of those with whom we work and interact (Tervalon & Murray-

Garcia, 1998). They defined cultural humility as “a ...
