9 Pin Dot Matrix Printers | Dot Matrix Printers | Products ...

The number 9 or 24 refers to the number of pins vertically in the print head. As the head moves left to right, at each position it can fire any combination of pins toward the ribbon and paper. A 24 pin printer might also have finer steps in the horizontal dimension. Compare result samples for 9 pin vs 24 pin printing.

The perceived quality of dot matrix printers depends on the vertical and horizontal resolution and the ability of the printer to overlap adjacent dots. 9-pin and 24-pin are common; this specifies the number of pins in a specific vertically

aligned space.

Dot matrix printers are available in in nine- and 24-pin models. The latter have a higher resolution that's more comparable to other printer types. To decrease the price tag and level of complexity, a nine-pin printer may be preferable if you don't need the best resolution possible. Other Products We Considered
