In The Language of the Heart Trysh Travis explores the rich cultural history of Alcoholics Anonymous (AA) and its offshoots and the larger "recovery movement" that has grown out of them. Moving from AA's beginnings in the mid-1930s as a men's fellowship that met in church basements to the thoroughly commercialized addiction treatment centers of today, Travis chronicles the development of recovery and examines its relationship to the broad American tradition of self-help, highlighting the roles that gender, mysticism, and print culture have played in that development. Travis draws on hitherto unexamined materials from AA's archives as well as a variety of popular recovery literatures. Her analysis traces AA's embrace of the concept of alcoholism as disease, the rise of feminist sobriety discourse and the codependence theories of the 1970s and 80s, and Oprah Winfrey's turn-of-the-millennium popularization of metaphysical healing. What unites these varied cultures of recovery, Travis argues, is their desire to offer spiritual solutions to problems of gender and power. Treating self-help seekers as individuals whose intellectual and aesthetic traditions are worth excavating, The Language of the Heart is the first book to attend to the evolution and variation found within the recovery movement and to treat recovery with the attention to detail that its complexity requires.

Atlas of the Heart

Mapping Meaningful Connection and the Language of Human Experience *Random House*

#1 NEW YORK TIMES BESTSELLER • In her latest book, Brené Brown writes, "If we want to find the way back to ourselves and one another, we need language and the grounded confidence to both tell

our stories and be stewards of the stories that we hear. This is the framework for meaningful connection." In Atlas of the Heart, Brown takes us on a journey through eighty-seven of the emotions and experiences that define what it means to be human. As she maps the necessary skills and an actionable framework for meaningful connection, she gives us the language and tools to access a universe of new choices and second chances—a universe where we can share and steward the stories of our bravest and most heartbreaking moments with one another in a way that builds connection. Over the past two decades, Brown's extensive research into the experiences that make us who we are has shaped the cultural conversation and helped define what it means to be courageous with our lives. Atlas of the Heart draws on this research, as well as on Brown's singular skills as a storyteller, to show us how accurately naming an experience doesn't give the experience more power—it gives us the power of understanding, meaning, and choice. Brown shares, "I want this book to be an atlas for all of us, because I believe that, with an adventurous heart and the right maps, we can travel anywhere and never fear losing ourselves."

A Theology of God-Talk

The Language of the Heart *Routledge*

Use this common coping mechanism to help people respond to crises! This thoughtful book offers a fresh theological interpretation for the ways people talk about God in times of crisis. A Theology of God-Talk: The Language of the Heart probes the meaning behind phrases like “It must have been God’s will” and “The Lord took Uncle Harry.” Though many caring professionals dismiss such talk as insensitive or irrational, these phrases offer powerful clues to the speaker’s personal religious feelings. A Theology of God-Talk demonstrates the ways that God-talk moves the sufferer through the grief and doubt of the crisis. By recognizing the ways God-talk resembles myth, apocalyptic tale, tragedy, story, and even prayer--all literary categories--the caregiver can begin to help sufferers rewrite their personal narratives in the wake of tragedy. A Theology of God-Talk examines the crucial issues of God-talk, including: common false assumptions about it the theology of God-talk interpretations and misinterpretations how to glean counseling insights from God-talk differing stances for sufferers and survivors of tragedy Bringing together psychology, theology, and narrative theory, this insightful and sensitive book offers new ways of looking at this common reaction to crisis. A Theology of God-Talk is an instant classic and an essential resource for pastors, chaplains, therapists, grief counselors, and theologians.

A Language of the Heart

Therapy Stories that Heal

From the Introduction: The list of reasons why people come to therapy is really not very long. They are depressed and/or anxious and/or unhappy with their lives and/or are in unsatisfying relationships and they have a broken heart. They come in because their lives seem out of control and they feel hopeless that they will ever be able to direct it themselves. This is not to say that each person does not have a unique life and set of circumstances that led to their difficulty. It's just the symptoms that are the same. They often come in hoping the therapist will tell them what to do and will magically fix the problem. Some therapists actually take the bait, stepping in with all the answers with varying, though usually poor, results. However, there is another, somewhat more Socratic, approach that is based in the belief that people have a natural capacity to find their own answers and heal themselves. The therapy stories that follow are based in that belief. They have a foundation in several theoretical perspectives, such as object relations and attachment theory. This is because

much of the discomfort in the human predicament stems from our experiences between the ages of zero and eighteen, give or take. We learned patterns of thought and behavior that are less than useful or helpful in our current relationships. Some of the stories describe how we came to think and feel about ourselves and the world the way we do and how we came to behave the way we behave. This is not so we can dwell on the injustices of our past, but to provide us with some traction as we try and understand why we do what we do, here and now, in the present. To understand the pattern of our behavior, it is helpful to understand the source, because the patterns repeat themselves. A more traditional object-relations-oriented therapy would help us understand the source of our difficulties and hopefully provide us with a “corrective emotional experience” in our relationship with the therapist that would lead to better functioning. However, we do not have to wait until we have had a “corrective emotional experience” to get on with our lives. These stories suggest a solution to the human predicament that is proactive rather than passive — a solution that in concept is simple but in implementation takes some effort on the part of the client. (Alas, there ain't no free lunch.) And the solution is that people become self-validated and intentional and learn to live their life with integrity. We learned to be externally validated by the experiences we had in our family of origin, from zero to eighteen. We learned there was a price to pay for the attention (love) we needed; we had to react a certain way or say certain things. As human babies, this probably facilitated attachment and insured our survival. However, in the process of surviving, we forgot who we were inside, or learned that who we were wasn't good enough. We learned how to interpret behavior and how to react to it to get our needs met. The patterns were predictable, and we assembled a response set that was as satisfying as we could manage with what we had to work with. Yet, as adults, the way we learned to interpret behavior and the pattern of behaviors we learned in response to those interpretations has often left us less than capable of managing our lives in a kind and loving and satisfying way. This is because much of our behavior continues to be reaction to the fear of abandonment or being reminded that we aren't quite good enough. The solution is to recognize how that happened (awareness), to remember who we really are, and to overcome the fear. In other words, to take steps to become self-validated and intentional. Self-validation, intentionality and integrity are the keys to gaining control of our lives and managing the day-to-day stressors that, in the past, have left us depressed and anxious. And self-validation, intentionality and integrity are absolutely essential for creating a relationship with another that is based in love, respect, compassion and true companionship. Without them, relationships tend to be mere recreations of past relationships, which were not necessarily that satisfying. We recreate past relationships, not because they are satisfying and healthy, but because it is what we know. It is how we know how to behave. When we become self-validated and intentional, we are able to stand back, look at the pattern and choose to respond a different way instead of reacting the way we always have. In so doing, we become able to speak from the heart and with the heart. In so doing, we become able to love unconditionally. And, in so doing, we become able to do what we have always wanted to do, which is to heal our hearts and be connected with others.

The Book of the Heart *University of Chicago Press*

In today's increasingly electronic world, we say our personality traits are "hard-wired" and we "replay" our memories. But we use a different metaphor when we speak of someone "reading" another's mind or a desire to "turn over a new leaf"—these phrases refer to the "book of the self," an idea that dates from the beginnings of Western culture. Eric Jager traces the history and psychology of the self-as-text concept from antiquity to the modern day. He focuses especially on the Middle Ages, when the metaphor of a "book of the heart" modeled on the manuscript codex attained its most vivid expressions in literature and art. For instance, medieval saints' legends tell of martyrs whose hearts recorded divine inscriptions; lyrics and romances feature lovers whose hearts are inscribed with their passion; paintings depict hearts as books; and medieval scribes even produced manuscript codices shaped like hearts. "The Book of the Heart provides a fresh perspective on the influence of the book as artifact on our language and culture. Reading this book broadens our appreciation of the relationship between things and ideas."—Henry Petroski, author of *The Book on the Bookshelf*

Language of the Heart *Tuttle Pub*

"Anthony James takes us on a vivid journey through the very soul of his art. The poetry and paintings of James are the language of the heart; he lets us hear his art as well as see it, and allows us to become part of the metamorphosis into understanding and feeling." "A deeply compassionate and beautiful book, *Language of the Heart* shows us the true spirit that informs an artist's work. For Anthony James, art is a primal voice that chronically stutters when it means to speak, crawls when it aches to fly, and finally soars into eloquence and resurrects itself into beauty."--BOOK JACKET. The Soul of Sponsorship

The Friendship of Fr. Ed Dowling, S.J. and Bill Wilson in Letters *Simon and Schuster*

The Soul of Sponsorship explores the relationship of Bill Wilson, cofounder of Alcoholics Anonymous,

and his spiritual adviser and friend, Father Ed Dowling. The Soul of Sponsorship explores the relationship of Bill Wilson, cofounder of Alcoholics Anonymous, and his spiritual adviser and friend, Father Ed Dowling. Many might consider that such a remarkable individual as Bill Wilson, who was the primary author of AA literature, would be able to deal with many of life's problems on his own. Reading The Soul of Sponsorship will illuminate and answer the question of how Father Ed, an Irish Catholic Jesuit priest who was not an alcoholic, was able to be of such great help to Bill Wilson. Part of AA's Twelfth Step reminds us "to carry this message to alcoholics," and The Soul of Sponsorship illustrates how sober alcoholics still need the principles of the Twelve Steps brought to them by friends, sponsors, and spiritual advisers. Some of the problems faced by Bill Wilson were: depression in recovery, dependency issues, whether or not to experiment with LSD, the place of money and power in AA, knowing God's plan and will, learning from mistakes. Father Ed taught Bill the importance of "discernment." In Father Ed's Jesuit tradition, discernment was a gift, passed down to him from St. Ignatius, the founder of the Jesuits, who described his own struggle with discernment in Spiritual Exercises of St. Ignatius. The Twelve Steps of AA and the Spiritual Exercises of St. Ignatius presuppose that there is a caring God whose will can be known. The act of tuning in to God's action at one's center is discernment. The big question is, how do you know your Higher Power is speaking and revealing Himself through your feelings and desires? What Bill learned from Father Ed can be found in books and articles he wrote for AA. For the good of AA and himself, Bill learned to listen to his desires, be aware of his inner dynamics, and tune into the action of God within. Doing this meant learning to recognize and identify his personal movements -- those inner promptings and attractions often called emotions or affections -- which are part of ordinary human experiences. The person who helped Bill grow in discernment was Father Ed, the Jesuit priest with a cane who limped into the New York AA clubhouse one sleet-filled November night in 1940. The two "fellow travelers," Father Ed Dowling and Bill Wilson, gave each other perhaps the greatest gift friends can give: calling on each to know who he is -- before God.

Dare to Lead

Brave Work. Tough Conversations. Whole Hearts. *Random House*

#1 NEW YORK TIMES BESTSELLER • Brené Brown has taught us what it means to dare greatly, rise strong, and brave the wilderness. Now, based on new research conducted with leaders, change makers, and culture shifters, she's showing us how to put those ideas into practice so we can step up and lead. Look for Brené Brown's new podcast, Dare to Lead, as well as her ongoing podcast Unlocking Us! NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BLOOMBERG Leadership is not about titles, status, and wielding power. A leader is anyone who takes responsibility for recognizing the potential in people and ideas, and has the courage to develop that potential. When we dare to lead, we don't pretend to have the right answers; we stay curious and ask the right questions. We don't see power as finite and hoard it; we know that power becomes infinite when we share it with others. We don't avoid difficult conversations and situations; we lean into vulnerability when it's necessary to do good work. But daring leadership in a culture defined by scarcity, fear, and uncertainty requires skill-building around traits that are deeply and uniquely human. The irony is that we're choosing not to invest in developing the hearts and minds of leaders at the exact same time as we're scrambling to figure out what we have to offer that machines and AI can't do better and faster. What can we do better? Empathy, connection, and courage, to start. Four-time #1 New York Times bestselling author Brené Brown has spent the past two decades studying the emotions and experiences that give meaning to our lives, and the past seven years working with transformative leaders and teams spanning the globe. She found that leaders in organizations ranging from small entrepreneurial startups and family-owned businesses to nonprofits, civic organizations, and Fortune 50 companies all ask the same question: How do you cultivate braver, more daring leaders, and how do you embed the value of courage in your culture? In this new book, Brown uses research, stories, and examples to answer these questions in the no-BS style that millions of readers have come to expect and love. Brown writes, "One of the most important findings of my career is that daring leadership is a collection of four skill sets that are 100 percent teachable, observable, and measurable. It's learning and unlearning that requires brave work, tough conversations, and showing up with your whole heart. Easy? No. Because choosing courage over comfort is not always our default. Worth it? Always. We want to be brave with our lives and our work. It's why we're here." Whether you've read Daring Greatly and Rising Strong or you're new to Brené Brown's work, this book is for anyone who wants to step up and into brave leadership.

But their daughter--the first American-born daughter in the family--can't resist asking Hero about her damaged hands. An increasingly relevant story told with startling lucidity, humor, and an uncanny ear for the intimacies and shorthand of family ritual, America Is Not the Heart is a sprawling, soulful debut about three generations of women in one family struggling to balance the promise of the American dream and the unshakeable grip of history. Renovation of the Heart

Putting On the Character of Christ *Tyndale House*
As Christians, we know that we are new creations in Jesus. So we try to act differently, hoping this will make us more like Him. But changing our outward behavior doesn't change our hearts. Only by God's grace can we be transformed internally. Renovation of the Heart lays a biblical foundation for understanding what best-selling author Dallas Willard calls the transformation of the spirit--a divine process that brings every element in our being, working from inside out, into harmony with the will of God. This fresh approach to spiritual growth explains the biblical reasons why Christians need to undergo change in six aspects of life: thought, feeling, will, body, social context, and soul. Willard also outlines a general pattern of transformation in each area, not as a sterile formula but as a practical process that you can follow without the guilt or perfectionism so many Christians wrestle with. Don't settle for complacency. Accept the challenge Renovation of the Heart offers to become an intentional apprentice of Jesus Christ, changing daily as you walk with Him.

They had been trading home decorating inspiration boards in their last text conversation so Brené started scrolling to find her latest Pinterest pictures when the phone rang. But it was immediately clear to Brené that the conversation wasn't going to be about wallpaper. Tarana's hello was serious and she hesitated for a bit before saying, "Brené, you know your work affected me so deeply, but as a Black woman, I've sometimes had to feel like I have to contort myself to fit into some of your words. The core of it rings so true for me, but the application has been harder." Brené replied, "I'm so glad we're talking about this. It makes sense to me. Especially in terms of vulnerability. How do you take the armor off in a country where you're not physically or emotionally safe?" Long pause. "That's why I'm calling," said Tarana. "What do you think about working together on a book about the Black experience with vulnerability and shame resilience?" There was no hesitation. Burke and Brown are the perfect pair to usher in this stark, potent collection of essays on Black shame and healing. Along with the anthology contributors, they create a space to recognize and process the trauma of white supremacy, a space to be vulnerable and affirm the fullness of Black love and Black life.

Alice By Heart *Penguin*

A young girl takes refuge in a London Tube station during WWII and confronts grief, loss, and first love with the help of her favorite book, *Alice in Wonderland*, in the debut novel from Tony Award-winning playwright Steven Sater. London, 1940. Amidst the rubble of the Blitz of World War II, fifteen-year-old Alice Spencer and her best friend, Alfred, are forced to take shelter in an underground tube station. Sick with tuberculosis, Alfred is quarantined, with doctors saying he won't make it through the night. In her desperation to keep him holding on, Alice turns to their favorite pastime: recalling the book that bonded them, and telling the story that she knows by heart--the story of *Alice in Wonderland*. What follows is a stunning, fantastical journey that blends Alice's two worlds: her war-ravaged homeland being held together by nurses and soldiers and Winston Churchill, and her beloved *Wonderland*, a welcome distraction from the bombs and the death, but a place where one rule always applies: the pages must keep turning. But then the lines between these two worlds begin to blur. Is that a militant Red Cross Nurse demanding that Alice get BACK. TO. HER. BED!, or is it the infamous Queen of Hearts saying...something about her head? Soon, Alice must

decide whether to stay in *Wonderland* forever, or embrace the pain of reality if that's what it means to grow up. In this gorgeous YA adaption of his off-Broadway musical, the Tony Award-winning co-creator of *Spring Awakening* encourages us all to celebrate the transformational power of the imagination, even in the harshest of times.

The Language of the Heart

A Musical, Fantastical Journey Through a Land of Magic

Ziryab, the Blackbird of Baghdad, born in a hovel to Ethiopian slaves, grew to be the greatest musician of the Golden Age of Arabia. On his way to greatness, he does battle with an evil wizard who hates music, vanquishes demons, outsmarts pirates, and uses the magic of music to rescue princesses and whole villages. This book is based on the true story of Ziryab, born Ali Ibn Nafi in Baghdad in the year 789 AD. Few facts are known about his life, but much is known about the Golden Age in which he lived: the age of Aladdin and Scheherazade and Sindbad the sailor, a world of Djinni and magic. So it is not unlikely - indeed it is probable - that the magic retold in this tale did indeed swirl about Ziryab, and that the magic of his music proved more powerful than all the other. For this story, as much as it is about Ziryab, is a story about music - the power of music to move the human heart, the magic of music to bridge from the material world to the spiritual world, the call of music to reach across barriers of nationality, religion and language to unify people. Indeed, Music is the Language of the Heart.

Tending Lives

Nurses on the Medical Front *Ivy Books*

As the healthcare debate rages on with the growth of the HMO industry, nurses quietly continue to provide the day-to-day grit and deeply-felt passion that hold the healing profession together. Within these remarkable women and men are poignant, outrageous stories drawn from the edge of life. But fear of career backlash and reprisals have made them reluctant to talk to outsiders about their experience. Now Echo Heron, New York Times bestselling author of Intensive Care, draws truths far stranger than fiction out of her colleagues--and allows the nurses to speak to us in their own words. Ranging from inspiring to tragic to outrageously funny, these narratives are real life medical dramas as experienced by nurses across the country--each practicing in a variety of specialties, including cardiac care, labor and delivery, burns, the ER--even a nurse who works in dolphin care. Tending Lives portrays a penitentiary nurse responsible for orchestrating a murderer's execution; a stroke victim who rose out of his depression when his nurses began telling him jokes; and, perhaps the most riveting testimony, the moment-by-moment memories of several nurses who served in the aftermath of the Oklahoma City bombing--gripping accounts that give us new perspectives on the horror and heroism of that nightmare day. Pediatric nurses, psychiatric nurses, home-care nurses, intensive care nurses--all with distinct voices and unique stories to tell. Filled with both tears and laughter, and charged with the issues that afflict nursing care today, Tending Lives is a gripping, moving, inspiring book, a fitting tribute to a noble profession.

The Gift in the Heart of Language

Radical Transitivity *Mimesis Edizioni*

The author offers a paradigm-shifting view of the structure of material and verbal communication, based on the mother-child experience and confirmed by recent research in infant psychology. This view justifies a relational epistemology that informs the material gift economy, as well as the structure of language itself. Provisioning economies give value to the receivers, and the circulation of gifts consolidates community. Understanding language as verbal gifting unites other orientations with reason, to liberate us from biopathic, patriarchal conceptions of humanity. Sketched against this background, Vaughan introduces a conception of monetized exchange as a gift-denying and expropriating psychological mechanism, which is an unintended collective by product of verbal communication.

Heart Radical

A Search for Language, Love, and Belonging *She Writes Press*

Wanting to understand how her path is tied to her mother tongue, Anne, a young, multiracial American woman, travels through China, the country of her mother's birth. Along the way, she tries on different roles—seeker, teacher, student, girlfriend, artist, and daughter—and continually asks herself: Why do I feel called to make this journey? Whether witnessing a Tibetan sky burial, teaching English at a university in Chengdu, visiting her grandmother in LA, or falling in love with a Chinese painter, Anne is always in pursuit of intimacy with others, even as she is all too aware of her silences and separation. For two years, she settles into a comfortable routine in her boyfriend's apartment and regains fluency in Chinese, a language she spoke as a young child but has used less and less as an adult. Eventually, however, her desire to know herself in other ways surfaces again. She misses speaking English, she feels suffocated by urban, polluted China, and she starts to fall for another man. Ultimately, Anne realizes that to live her truth as a mixed-race, bilingual woman she must embrace all of her influences and layers. In a world that often wants us to choose a side or fit an ideal, she learns that she can both belong and not belong wherever she is, and that home is ultimately found within.
