Metacognition - Wikipedia

The ability to recognize one's own successful cognitive processing, in e.g., perceptual or memory tasks, is often referred to as metacognition. How should we quantitatively measure such ability? Here we focus on a class of measures that assess the correspondence between trial-by-trial accuracy and one's own confidence. In general, for healthy subjects endowed with metacognitive sensitivity ...

Applied Metacognition by Timothy J. Perfect

Teaching metacognitive strategies can improve learners' performance at school. This makes it a good, evidence-based target for intervention. A simplified definition of metacognition is "thinking about thinking", but metacognition also encompasses the regulation of these thoughts – the ability to change them. It

is a step further than simple awareness of thought processes, incorporating the ability to alter thoughts and behaviours.

Thinking about thinking - Teaching metacognitive strategies

The concept of metacognition has also been applied to collective teams and organizations in general, termed organizational metacognition.
