Genderfluid is a gender identity which refers to a gender which varies over time. A genderfluid person's identity may change constantly, so it's always best to ask what they are in that moment. For instance: You wake up a girl, then you suddenly feel like a boy. Except, it changes between ALL the gender identities.

Fluid can collect in the lungs, around the heart and within the abdomen. The only indication that this is happening may be difficulty breathing. It may be harder for the person to walk, lie down flat or talk due to shortness of breath. Another common indicator of dying from renal failure is fluid buildup in the body.
