How Soccer Explains the World

An Unlikely Theory of Globalization *Harper Perennial*

Soccer is much more than a game, or even a way of life. It's a perfect window into the crosscurrents of today's world, with all its joys and sorrows. In this remarkably insightful, wide-ranging work of reportage, Franklin Foer takes us on a surprising tour through the world of soccer, shining a spotlight on the clash of civilizations, the international economy, and just about everything in between. How Soccer Explains the World is an utterly original book that makes sense of our troubled times.

How Soccer Explains the World

An Unlikely Theory of Globalization *Harper Collins*

"An eccentric, fascinating exposé of a world most of us know nothing about." —The New York Times Book Review "An insightful, entertaining, brainiac sports road trip." —The Wall Street Journal "Foer's skills as a narrator are enviable. His characterizations... are comparable to those in Norman Mailer's journalism." —The Boston Globe A groundbreaking work—named one of the five most influential sports books of the decade by Sports Illustrated—How Soccer Explains the World is a unique and brilliantly illuminating look at soccer, the world's most popular sport, as a lens through which to view the pressing issues of our age, from the clash of civilizations to the global economy.

How Soccer Explains the World

An Unlikely Theory of Globalization *Harper Collins*

Provides an analysis of the sport's reflection of history as well as its modern influence and identifies commonalities between tribalism and globalization, explaining how such factors as terrorism, poverty, racism, and religion contribute to how the game is played today.

How Soccer Explains the World

An Unlikely Theory of Globalization *Harper Collins*

Casting soccer as a metaphor representative of today's world

issues, an analysis of the sport's reflection of history as well as its modern influence identifies commonalities between tribalism and globalization, explaining how such factors as terrorism, poverty, racism, and religion contribute to how the game is played today.

Globalization in Foer's How Soccer Explains the World *GRIN Verlag*

Seminar paper from the year 2010 in the subject English - Literature, Works, grade: 1,3, University of Maryland University College in Heidelberg, course: Non-Fiction, language: English, abstract: Most Americans would agree that watching football on the weekends and rooting for their favorite team is an integral part of Americanism. Therefore, it is not surprising that popular sports writing in the United States usually covers American football or baseball as stated in Don DeLillo's famous prologue "The Triumph of Death" to his novel Underworld. Franklin Foer breaks this tradition by introducing soccer to an American audience. Foer's book has been quite successful, as ESPN ranks it among the top four books written on the culture of soccer (Caple 1). Foer does not only discuss sports, but he also journeys from stadium to stadium around the globe to provide new insight on today's world events. He uses the globalized medium of soccer to explain political, economic and social occurrences. In this essay, I will look at chapters seven and nine in which Foer's argumentation is political. Therefore, this can be considered both sports, as well as political writing. How Soccer Explains the World is organized into ten chapters, which can be read as three different parts with regard to content. "The first third of the book explores globalization's failure to erode the game's great rivalries and the hatreds they can produce" (Young 1). Foer then elaborates on the role of soccer in politics and economics when he explains the rise of the oligarchs and the corruption that was included in this process. In the last part of the book, the role soccer plays in preserving nationalism and for returning to the idea of tribalism is looked at in-depth.

Gaming the World

How Sports Are Reshaping Global Politics and Culture *Princeton University Press*

The globalizing influence of professional sports Professional sports today have truly become a global force, a common language that anyone, regardless of their nationality, can understand. Yet sports also remain distinctly local, with regional teams and the fiercely loyal local fans that follow them. This book examines the twenty-first-century phenomenon of global sports, in which professional teams and their players have become agents of globalization while at the same time fostering deep-seated and antagonistic local allegiances and spawning new forms of cultural conflict and prejudice. Andrei Markovits and Lars Rensmann take readers into the exciting global sports scene, showing how soccer, football, baseball, basketball, and hockey have given rise to a collective identity among millions of predominantly male fans in the United States, Europe, and around the rest of the world. They trace how these global—and globalizing—sports emerged from local pastimes in America, Britain, and Canada over the course of the twentieth century, and how regionalism continues to exert its divisive influence in new and potentially explosive ways. Markovits and Rensmann explore the complex interplay between the global and the local in sports today, demonstrating how sports have opened new avenues for dialogue and shared interest internationally even as they reinforce old antagonisms and create new ones. Gaming the World reveals the pervasive influence of sports on our daily lives, making all of us citizens of an increasingly cosmopolitan world

while affirming our local, regional, and national identities.

Soccer in a Football World *WSC Books Limited*
Deals with the history of soccer in the USA.

Football School

Where Football Explains the World
Synopsis coming soon.....

How Football Explains America *Triumph Books*
ESPN's Sal Paolantonio explores just how crucial football is to understanding the American psyche Using some of the most prominent voices in pro sports and cultural and media criticism, "How Football Explains America" is a fascinating, first-of-its-kind journey through the making of America's most complex, intriguing, and popular game. It tackles varying American themes--from Manifest Destiny to "fourth and one"--as it answers the age-old question Why does America love football so much? An unabashedly celebratory explanation of America's love affair with the game and the men who make it possible, this work sheds light on how the pioneers and cowboys helped create a game that resembled their march across the continent. It explores why rugby and soccer don't excite the American male like football does and how the game's rules are continually changing to enhance the dramatic action and create a better narrative. It also investigates the eternal appeal of the heroic quarterback position, the sport's rich military lineage, and how the burgeoning medium of television identified and exploited the NFL's great characters. It is a must read for anyone interested in more fully understanding not only the game but also the nation in which it thrives. Updated throughout and with a new introduction, this edition brings "How Football Explains America" to paperback for the first time.

Where Football Saves the World

This book is packed with awesome true stories, real science and fascinating facts and will make you laugh loads - and it's all about football. What is a vomitory? When do footballers wee? Where do goalkeepers let in chickens? When did women start playing football? You'll find the answers to these questions and more in chapters on subjects such as biology, maths and history. Illustrated throughout with hilarious cartoons and filled with laugh-out-loud gags this is the perfect book for any boy or girl who loves football.

Contested Fields

A Global History of Modern Football *University of Toronto Press*

Interrogating the costs and benefits of the game's controversial path to global pre-eminence, Contested Fields shows how and why football matters in the modern world - as part of the social fabric and as a site of political power and resistance.

Soccer Against the Enemy

How the World's Most Popular Sport Starts and Fuels Revolutions and Keeps Dictators in Power *Nation Books*

Soccer is much more than just the most popular game in the world. It is a matter of life and death for millions around the world, an international lingua franca. Simon Kuper traveled to twenty-two countries to discover the sometimes bizarre effect soccer can have on politics and culture. At the same time he tried to discover what makes different countries play a simple game so

differently. Kuper meets a remarkable variety of fans along the way, from the East Berliner persecuted by the Stasi for supporting his local team, to the Argentine general with his own views on tactics. He also illuminates the frightening intersection between soccer and politics, particularly in the wake of the attacks of 9-11, where soccer is obsessed over by the likes of Osama bin Laden. The result is one of the world's most acclaimed books on the game, and an astonishing study of soccer and its place in the world.

Insurrections of the Mind

100 Years of Politics and Culture in America *Harper Perennial*

To commemorate the 100th anniversary of The New Republic, an extraordinary anthology of essays culled from the archives of the acclaimed and influential magazine. Founded by Herbert Croly and Walter Lippmann in 1914 to give voice to the growing progressive movement, The New Republic has charted and shaped the state of American liberalism, publishing many of the twentieth century's most important thinkers. Insurrections of the Mind is an intellectual biography of this great American political tradition. In seventy essays, organized chronologically by decade, a stunning collection of writers explore the pivotal issues of modern America. Weighing in on the New Deal; America's role in war; the rise and fall of communism; religion, race, and civil rights; the economy, terrorism, technology; and the women's movement and gay rights, the essays in this outstanding volume speak to The New Republic's breathtaking ambition and reach. Introducing each article, editor Franklin Foer provides colorful biographical sketches and amusing anecdotes from the magazine's history. Bold and brilliant, Insurrections of the Mind is a celebration of a cultural, political, and intellectual institution that has stood the test of time. Contributors include: Virginia Woolf, Vladimir Nabokov, George Orwell, Graham Greene, Philip Roth, Pauline Kael, Michael Lewis, Zadie Smith, William Faulkner, Ralph Ellison, James Wolcott, D. H. Lawrence, John Maynard Keynes, Langston Hughes, John Updike, and Margaret Talbot.

The Miracle of Castel Di Sangro *Crown Publishing Group (NY)*

A journey to Castel Di Sangro, an Italian village that stunned the soccer world with its team's unexpected success, offers a portrayal of the emotion that swept the town.

Soccer in Mind

A Thinking Fan's Guide to the Global Game *Rutgers University Press*

From the FIFA World Cup to pick-up games at your local park, soccer is the closest thing in our world to a universal entertainment. Many writers use this global popularity to describe the game's winners and losers, but what happens when we use social science to explore how soccer intersects with culture, society, and the self? This book provides a thinking fan's guide to the world's most popular game, proposing a way of engaging soccer that sparks intellectual curiosity and employs critical consciousness. Using stories and data, along with ideas from sociology, psychology, and across the social sciences, it provides readers with new ways of understanding fanaticism, peak performance, talent development, and more. Drawing on concepts ranging from cognitive bias to globalization, it illuminates meanings of the game for players and fans while investigating impacts on our lives and communities. While it considers soccer cultures across the globe, the book also analyzes what makes U.S. soccer culture special, including its

embrace of the women's game. As a scholar, former minor league player and coach, and fan, Andrew Guest offers a distinctive perspective on soccer in society. Whatever name you call it, and whatever your interest in it, Soccer in Mind will enrich your own view of the one truly global game.

Soccer Vs. the State

Tackling Football and Radical Politics

Soccer has turned into a multi-billion-dollar industry. Professionalism and commercialization dominate its global image. Yet the game retains a rebellious side, maybe more so than any other sport co-opted by money makers and corrupt politicians. From its roots in working-class England to political protests by players and fans, and a current radical soccer underground, the notion of football as the "people's game" has been kept alive by numerous individuals, teams, and communities. This book not only traces this history, but also reflects on common criticisms: soccer ferments nationalism, serves right-wing powers, and fosters competitiveness. Acknowledging these concerns, alternative perspectives on the game are explored, down to practical examples of egalitarian DIY soccer! Soccer vs. the State serves both as an orientation for the politically conscious football supporter and as an inspiration for those who try to pursue the love of the game away from televisions and big stadiums, bringing it to back alleys and muddy pastures. This second edition has been expanded to cover events of recent years, including the involvement of soccer fans in the Middle Eastern uprisings of 2011-2013, the FIFA scandal of 2015, and the 2017 strike by the Danish women's team.

Soccer Empire

The World Cup and the Future of France *Univ of California Press*

"Laurent Dubois mines the history of French soccer for fascinating theories and riveting stories. His understanding of the relationship between the game and politics is subtle, leading readers deep into important discussions about race and national identity. For those of us who admired the poetics of Les Bleus this is essential reading."—Franklin Foer, author of *How Soccer Explains the World* "Laurent Dubois is historian, fan and graceful writer all in one. In soccer, he has found an innovative way to explore France and its empire. A serious book and an excellent read."—Simon Kuper, author of *Soccernomics* "Beautifully lyrical and authoritative. We meet a host of players, colonized and colonizer, following them from their original playing fields—a vast lawn, a concrete lot—to their triumphs in national and international play." —Alice Kaplan, author of *The Interpreter* "This book is a brilliant, beautifully written, and unique history of French colonialism and post-coloniality through the lens of football/soccer. Dubois weaves an eminently readable and engaging narrative that tracks tensions around race and national identity through the biographies of key football players and officials who became iconic of the aspirations of peripheral subjects of the French empire. More than a simple history of French football, the book amounts to a description of France's imperial project and an incisive reflection on the race question in contemporary France. It will please both fans of the 'beautiful game' and those inclined to dismiss sports as but the opium of the masses."—Paul Silverstein, author of *Algeria in France: Transpolitics, Race and Nation*

Beautiful Game Theory

How Soccer Can Help Economics *Princeton University Press*

A wealth of research in recent decades has seen the economic approach to human behavior extended over many areas previously considered to belong to sociology, political science, law, and other fields. Research has also shown that economics can provide insight into many aspects of sports, including soccer. Beautiful Game Theory is the first book that uses soccer to test economic theories and document novel human behavior. In this brilliant and entertaining book, Ignacio Palacios-Huerta illuminates economics through the world's most popular sport. He offers unique and often startling insights into game theory and microeconomics, covering topics such as mixed strategies, discrimination, incentives, and human preferences. He also looks at finance, experimental economics, behavioral economics, and neuroeconomics. Soccer provides rich data sets and environments that shed light on universal economic principles in interesting and useful ways. Essential reading for students, researchers, and sports enthusiasts, Beautiful Game Theory is the first book to show what soccer can do for economics.

Jewish Jocks

An Unorthodox Hall of Fame *Twelve*

2012 National Jewish Book Award Winner JEWISH JOCKS: AN UNORTHODOX HALL OF FAME is a timeless collection of biographical musings, sociological riffs about assimilation, first-person reflections, and, above all, great writing on some of the most influential and unexpected pioneers in the world of sports. Featuring work by today's preeminent writers, these essays explore significant Jewish athletes, coaches, broadcasters, trainers, and even team owners (in the finite universe of Jewish Jocks, they count!). Contributors include some of today's most celebrated writers covering a vast assortment of topics, including David Remnick on the biggest mouth in sports, Howard Cosell; Jonathan Safran Foer on the prodigious and pugnacious Bobby Fischer; Man Booker Prize-winner Howard Jacobson writing elegantly on Marty Reisman, America's greatest ping-pong player and the sport's ultimate showman. Deborah Lipstadt examines the continuing legacy of the Munich Massacre, the fortieth anniversary of which coincided with the 2012 London Olympics. Jane Leavy reveals why Sandy Koufax agreed to attend her daughter's bat mitzvah. And we learn how Don Lerman single-handedly thrust competitive eating into the public eye with three pounds of butter and 120 jalapeño peppers. These essays are supplemented by a cover design and illustrations throughout by Mark Ulriksen. From settlement houses to stadiums and everywhere in between, JEWISH JOCKS features men and women who do not always fit the standard athletic mold. Rather, they utilized talents long prized by a people of the book (and a people of commerce) to game these games to their advantage, in turn forcing the rest of the world to either copy their methods-or be left in their dust.

The Ball is Round

A Global History of Soccer *Penguin*

The definitive book about soccer, from the author of *The Games: A Global History of the Olympics*. There may be no cultural practice more global than soccer. Rites of birth and marriage are infinitely diverse, but the rules of soccer are universal. No world religion can match its geographical scope. The single greatest simultaneous human collective experience is the World Cup final. In this extraordinary tour de force, David Goldblatt tells the full story of soccer's rise from chaotic folk ritual to the world's most popular sport-now poised to fully establish itself in the USA.

Already celebrated internationally, *The Ball Is Round* illuminates soccer's role in the political and social histories of modern societies, but never loses sight of the beauty, joy, and excitement of the game itself.

Bloody Confused!

A Clueless American Sportswriter Seeks Solace in English Soccer *Random House Digital, Inc.*

A jaded American sportswriter describes his move to Britain and his immersion in the confusing world of English soccer, focusing on the Portsmouth team throughout their 2006-2007 season and their enthusiastic, fanatical followers. Original. 17,500 first printing.

Africa United

Soccer, Passion, Politics, and the First World Cup in Africa *Harper Collins*

Africa United is the story of modern day Africa told through its soccer. Travelling across thirteen countries, from Cairo to the Cape, Steve Bloomfield, the former Africa Correspondent for *The Independent*, meets players and fans, politicians and rebel leaders, discovering the role that soccer has played in shaping the continent. This wide-ranging and incisive book investigates Africa's love of soccer, its increasing global influence, the build-up to the 2010 World Cup itself and the social and political backdrop to the greatest show on earth.

World Without Mind

The Existential Threat of Big Tech *Penguin*

A New York Times Book Review Notable Book of 2017 • One of the best books of the year by *The New York Times*, *LA Times*, and NPR Franklin Foer reveals the existential threat posed by big tech, and in his brilliant polemic gives us the toolkit to fight their pervasive influence. Over the past few decades there has been a revolution in terms of who controls knowledge and information. This rapid change has imperiled the way we think. Without pausing to consider the cost, the world has rushed to embrace the products and services of four titanic corporations. We shop with Amazon; socialize on Facebook; turn to Apple for entertainment; and rely on Google for information. These firms sell their efficiency and purport to make the world a better place, but what they have done instead is to enable an intoxicating level of daily convenience. As these companies have expanded, marketing themselves as champions of individuality and pluralism, their algorithms have pressed us into conformity and laid waste to privacy. They have produced an unstable and narrow culture of misinformation, and put us on a path to a world without private contemplation, autonomous thought, or solitary introspection—a world without mind. In order to restore our inner lives, we must avoid being coopted by these gigantic companies, and understand the ideas that underpin their success. Elegantly tracing the intellectual history of computer science—from Descartes and the enlightenment to Alan Turing to Stewart Brand and the hippie origins of today's Silicon Valley—Foer exposes the dark underpinnings of our most idealistic dreams for technology. The corporate ambitions of Google, Facebook, Apple, and Amazon, he argues, are trampling longstanding liberal values, especially intellectual property and privacy. This is a nascent stage in the total automation and homogenization of social, political, and intellectual life. By reclaiming our private authority over how we intellectually engage with the world, we have the power to stem the tide. At stake is nothing less than who we are,

and what we will become. There have been monopolists in the past but today's corporate giants have far more nefarious aims. They're monopolists who want access to every facet of our identities and influence over every corner of our decision-making. Until now few have grasped the sheer scale of the threat. Foer explains not just the looming existential crisis but the imperative of resistance.

National Pastime

How Americans Play Baseball and the Rest of the World Plays Soccer *Brookings Institution Press*

Szymanski and Zimbalist pay special attention to the rich and complex evolution of baseball from its beginnings in America, and they trace modern soccer from its foundation in England through its subsequent expansion across the world.

However Tall the Mountain

A Dream, Eight Girls, and a Journey Home *Hachette Books*

A ball can start a revolution. Born in Kabul, Awista Ayub escaped with her family to Connecticut in 1981, when she was two years old, but her connection to her heritage remained strong. An athlete her whole life, she was inspired to start the Afghan Youth Sports Exchange after September 11, 2001, as a way of uniting girls of Afghanistan and giving them hope for their future. She chose soccer because little more than a ball and a field is needed to play; however, the courage it would take for girls in Afghanistan to do this would have to be tremendous--and the social change it could bring about by making a loud and clear statement for Afghan women was enough to convince Awista that it was possible, and even necessary. Under Taliban rule, girls in Afghanistan couldn't play outside of their homes, let alone participate in a sport on a team. So, Awista brought eight girls from Afghanistan to the United States for a soccer clinic, in the hope of not only teaching them the sport, but also instilling confidence and a belief in their self-worth. They returned to Afghanistan and spread their interest in playing soccer; when Awista traveled there to host another clinic, hundreds of girls turned out to participate--and the numbers of players and teams keep growing. What began with eight young women has now exploded into something of a phenomenon. Fifteen teams now compete in the Afghanistan Football Federation, with hundreds of girls participating. Against all odds and fear, these girls decided to come together and play a sport that has reintroduced the very traits that decades of war had cruelly stripped away from them--confidence and self-worth. In *However Tall the Mountain*, Awista tells both her own story and the deeply moving stories of the eight original girls, describing their daily lives back in Afghanistan, and how they found strength in each other, in teamwork, and in themselves--taking impossible risks to obtain freedoms we take for granted. This is a story about hope, about what home is, and in the end, about determination. As the Afghan proverb says, *However tall the mountain, there's always a road.*

Fútbol!

Why Soccer Matters in Latin America

This book traces the history of soccer in Latin America, from the introduction of the game in the 1890s to the qualifying stages for the 2014 World Cup. Unlike other books focused on matches and players, *Futbol!* provides the necessary historical context to explain why soccer is the most important sport across Latin America.

How Fantasy Sports Explains the World

What Pujols and Peyton Can Teach Us About Wookiees and Wall Street *Simon and Schuster*

The world of fantasy sports is no longer the purview of nerds and stat geeks. In fact, versions of the game are currently played by tens of millions of people worldwide. But while fantasy sports may have begun as a light-hearted diversion, to many of its participants winning or losing is no laughing matter. The book takes readers on a journey from the casinos of Atlantic City to charred Connecticut campgrounds, from the Last Supper to the Constitutional Convention that started our country down the road to democracy, from the back rooms of Wall Street to the jury rooms of our judicial system. In doing so, Mass demonstrates that winning fantasy advice can come from anyone and be found almost anywhere—the wit and wisdom of William Shakespeare, the scientific genius of Stephen Hawking, or the futuristic whimsy of a galaxy far, far away. Ultimately, *How Fantasy Sports Explains the World* is not a book about how to win your fantasy sports league. Instead, it is a collection of conversation starters and hypothetical scenarios that get right to the core of what makes fantasy games so compelling in the high-speed information age: how to process and make use of the bottomless pile of data presented to us on a daily basis.

Soccer School Season 3: Where Soccer Explains (Tackles) the World *Candlewick Press*

This winning nonfiction series explains the world via soccer trivia, facts, and fun. This third book in the Soccer School series poses many intriguing questions for soccer fans: What color are Cristiano Ronaldo's pajamas? How many bones are there in the human foot? And why is that dodo alive and kicking? With funny cartoons and multiple-choice quizzes, this is the perfect way for young fans to learn how to score with their head. Coaches Alex Bellos and Ben Lyttleton kick off another season of Soccer School in this book packed with awesome true stories, real science, and fascinating facts. At this school, everything is about soccer!

The Language of the Game

How to Understand Soccer

Just in time for the 2018 World Cup, a lively and lyrical guide to appreciating the drama of soccer. Soccer is not only the world's most popular sport; it's also one of the most widely shared forms of global culture. *The Language of the Game* is a passionate and engaging introduction to soccer's history, tactics, and human drama. Profiling soccer's full cast of characters—goalies and position players, referees and managers, commentators and fans—historian and soccer scholar Laurent Dubois describes how the game's low scores, relentless motion, and spectacular individual performances combine to turn each match into a unique and unpredictable story. He also shows how soccer's global reach makes it an unparalleled theater for nationalism, international conflict, and human interconnectedness. Filled with perceptive insights and stories both legendary and little known, *The Language of the Game* is a rewarding read for anyone seeking to understand soccer better.

From Football to Soccer

The Early History of the Beautiful Game in the United States *University of Illinois Press*

Rediscovering soccer's long history in the U.S. Across North America, native peoples and colonists alike played a variety of kicking games long before soccer's emergence in the late 1800s.

Brian D. Bunk examines the development and social impact of these sports through the rise of professional soccer after World War I. As he shows, the various games called football gave women an outlet as athletes and encouraged men to form social bonds based on educational experience, occupation, ethnic identity, or military service. Football also followed young people to college as higher education expanded in the nineteenth century. University play, along with the arrival of immigrants from the British Isles, helped spark the creation of organized soccer in the United States—and the beautiful game's transformation into a truly international sport. A multilayered look at one game's place in American life, *From Football to Soccer* refutes the notion of the U.S. as a land outside of football history.

Among the Thugs *Vintage*

They have names like Barmy Bernie, Daft Donald, and Steamin' Sammy. They like lager (in huge quantities), the Queen, football clubs (especially Manchester United), and themselves. Their dislike encompasses the rest of the known universe, and England's soccer thugs express it in ways that range from mere vandalism to riots that terrorize entire cities. Now Bill Buford, editor of the prestigious journal *Granta*, enters this alternate society and records both its savageries and its sinister allure with the social imagination of a George Orwell and the raw personal engagement of a Hunter Thompson.

What We Think About When We Think About Football *Profile Books*

What do we think about when we think about football? Football is about so many things: memory, history, place, social class, gender (especially masculinity, but increasingly femininity too), family identity, tribal identity, national identity, the nature of groups. It is essentially collaborative, even socialist, yet it exists in a sump of greed, corruption, capitalism and autocracy. Philosopher Simon Critchley attempts to make sense of it all, and to establish a system of aesthetics - even poetics - to show what is beautiful in the beautiful game. He explores, too, how the experience of watching football opens a particular dimension in time; how its magic wards off oblivion; how its dramas play out national identity and non-identity; how we spectators, watching football with tragic pensiveness, participate in the play. And of course, as a football fan, he writes about his heroes and villains: about Zidane and Cruyff, Clough and Revie, Shankly and Klopp.

Red Card

How the U.S. Blew the Whistle on the World's Biggest Sports Scandal *Simon & Schuster*

The definitive, shocking account of the FIFA scandal—the biggest corruption case of recent years—involving dozens of countries and implicating nearly every aspect of the world's most popular sport, soccer, including the World Cup is “an engrossing and jaw-dropping tale of international intrigue...A riveting book” (*The New York Times*). The FIFA case began small, boosted by an IRS agent's review of an American soccer official's tax returns. But that humble investigation eventually led to a huge worldwide corruption scandal that crossed continents and reached the highest levels of the soccer's world governing body in Switzerland. “The meeting of American investigative reporting and real-life cop show” (*The Financial Times*), Ken Bensinger's *Red Card* explores the case, and the personalities behind it, in vivid detail. There's Chuck Blazer, a high-living soccer dad who ascended to the highest ranks of the sport while creaming millions from its coffers; Jack Warner, a Trinidadian soccer official whose lust for power was matched only by his boundless greed;

and the sport's most powerful man, FIFA president Sepp Blatter, who held on to his position at any cost even as soccer rotted from the inside out. Remarkably, this corruption existed for decades before American law enforcement officials began to secretly dig, finally revealing that nearly every aspect of the planet's favorite sport was corrupted by bribes, kickbacks, fraud, and money laundering. Not even the World Cup, the most-watched sporting event in history, was safe from the thick web of corruption, as powerful FIFA officials extracted their bribes at every turn. "A gripping white-collar crime thriller that, in its scope and human drama, ranks with some of the best investigative business books of the past thirty years" (The Wall Street Journal), *Red Card* goes beyond the headlines to bring the real story to light.

When Nobody Was Watching

My Hard-Fought Journey to the Top of the Soccer World *HarperCollins*

A New York Times Bestseller "If you are a real soccer player—then this is the book for you to read . . . Inspiring and uplifting." —GoalNation In 2015, the U.S. Women's National Soccer Team won its first FIFA championship in sixteen years, culminating in an epic final game that electrified soccer fans around the world. It featured a gutsy, brilliant performance by team captain and midfielder Carli Lloyd, who made history that day, scoring a hat trick during the first sixteen minutes. But there was a time when Carli almost quit the sport. In 2003 she was struggling, her soccer career at a crossroads. Then she found a trusted trainer, James Galanis, who saw in Carli a player with raw talent, skill, and a great dedication to the game. Together they set to work, training day and night, fighting, grinding it out. Despite all the naysayers, the times she was benched, the moments when her self-confidence took a nosedive, she succeeded in becoming one of the best players in the world.

The Barcelona Complex

Lionel Messi and the Making--and Unmaking--of the World's Greatest Soccer Club *Penguin*

With rare and unrivaled access, bestselling coauthor of *Soccernomics* and longtime Financial Times journalist Simon Kuper tells the story of how FC Barcelona became the most successful club in the world—and how that era is now ending FC Barcelona is not just the world's highest grossing sports club, it is simply one of the most influential organizations on the planet. At last count, it had approximately 214 million social media followers, more than any other sports club except Real Madrid CF—and by one earlier measure, more than all thirty-two NFL teams combined. It has more in common with multinational megacompanies like Netflix or small nation-states than it does with most soccer teams. No wonder its motto is "More than a club." But it was not always so. In the past three decades, Barcelona went from a regional team to a global powerhouse, becoming a model of sustained excellence and beautiful soccer, and a consistent winner of championships. Simon Kuper unravels exactly how this transformation took place, paying special attention to the club's two biggest stars, Johan Cruyff and Lionel Messi, who is arguably the greatest soccer player of all time. Messi joined Barça at age thirteen and, more than anyone, has been the engine and standard-bearer of Barcelona's glory. But his era is coming to an end—and with it, a once-in-a-lifetime golden run. This book charts Barça's rise and fall. Like many world-beating organizations, FC Barcelona closely guards its secrets, granting few outsiders access to the Camp Nou, its legendary home stadium. But after decades of writing about the sport and

the club, Kuper was given access to the inner sanctum and the people behind the scenes who strive daily to keep Barcelona at the top. Erudite, personal, and capturing all the latest upheavals, his portrait of this incredible institution goes beyond soccer to understand FC Barcelona as a unique social, cultural, and political phenomenon.

Moonwalking with Einstein

The Art and Science of Remembering Everything *Penguin*

"Highly entertaining." —Adam Gopnik, The New Yorker "Funny, curious, erudite, and full of useful details about ancient techniques of training memory." —The Boston Globe The blockbuster phenomenon that charts an amazing journey of the mind while revolutionizing our concept of memory An instant bestseller that is poised to become a classic, *Moonwalking with Einstein* recounts Joshua Foer's yearlong quest to improve his memory under the tutelage of top "mental athletes." He draws on cutting-edge research, a surprising cultural history of remembering, and venerable tricks of the mentalist's trade to transform our understanding of human memory. From the United States Memory Championship to deep within the author's own mind, this is an electrifying work of journalism that reminds us that, in every way that matters, we are the sum of our memories.

The Empire Strikes Out

How Baseball Sold U.S. Foreign Policy and Promoted the American Way Abroad *New Press, The*

Is the face of American baseball throughout the world that of goodwill ambassador or ugly American? Has baseball crafted its own image or instead been at the mercy of broader forces shaping our society and the globe? *The Empire Strikes Out* gives us the sweeping story of how baseball and America are intertwined in the export of "the American way." From the Civil War to George W. Bush and the Iraq War, we see baseball's role in developing the American empire, first at home and then beyond our shores. And from Albert Spalding and baseball's first World Tour to Bud Selig and the World Baseball Classic, we witness the globalization of America's national pastime and baseball's role in spreading the American dream. Besides describing baseball's frequent and often surprising connections to America's presence around the world, Elias assesses the effects of this relationship both on our foreign policies and on the sport itself and asks whether baseball can play a positive role or rather only reinforce America's dominance around the globe. Like Franklin Foer in *How Soccer Explains the World*, Elias is driven by compelling stories, unusual events, and unique individuals. His seamless integration of original research and compelling analysis makes this a baseball book that's about more than just sports.

Spartak Moscow

A History of the People's Team in the Workers' State *Cornell University Press*

In the informative, entertaining, and generously illustrated *Spartak Moscow*, a book that will be cheered by soccer fans worldwide, Robert Edelman finds in the stands and on the pitch keys to understanding everyday life under Stalin, Khrushchev, and their successors. Millions attended matches and obsessed about their favorite club, and their rowdiness on game day stood out as a moment of relative freedom in a society that championed conformity. This was particularly the case for the supporters of Spartak, which emerged from the rough proletarian Presnia district of Moscow and spent much of its history in fierce

rivalry with Dinamo, the team of the secret police. To cheer for Spartak, Edelman shows, was a small and safe way of saying "no" to the fears and absurdities of high Stalinism; to understand Spartak is to understand how soccer explains Soviet life. Champions of the Soviet Elite League twelve times and eleven-time winner of the USSR Cup, Spartak was founded and led for seven decades by the four Starostin brothers, the most visible of whom were Nikolai and Andrei. Brilliant players turned skilled entrepreneurs, they were flexible enough to constantly change their business model to accommodate the dramatic shifts in Soviet policy. Whether because of their own financial wheeling and dealing or Spartak's too frequent success against state-sponsored teams, they were arrested in 1942 and spent twelve years in the gulag. Instead of facing hard labor and likely death, they were spared the harshness of their places of exile when they were asked by local camp commandants to coach the prisoners' football teams. Returning from the camps after Stalin's death, they took back the reins of a club whose mystique as the "people's team" was only enhanced by its status as a victim of Stalinist tyranny. Edelman covers the team from its days on the wild fields of prerevolutionary Russia through the post-Soviet period. Given its history, it was hardly surprising that Spartak adjusted quickly to the new, capitalist world of postsocialist Russia, going on to win the championship of the Russian Premier League nine times, the Russian Cup three times, and the CIS Commonwealth of Independent States Cup six times. In addition to providing a fresh and authoritative history of Soviet society as seen through its obsession with the world's most popular sport, Edelman, a well-known sports commentator, also provides biographies of Spartak's leading players over the course of a century and riveting play-by-play accounts of Spartak's most important matches-including such highlights as the day in 1989 when Spartak last won the Soviet Elite League on a Valery Shmarov free kick at the ninety-second minute. Throughout, he palpably evokes what it was like to cheer for the "Red and White." For historic film of Spartak Moscow playing against the Wolverhampton Wanderers (the "Wolves") in 1954 and 1955, click here: <https://www.britishpathe.com/record.php?id=38828> and here: <https://www.britishpathe.com/record.php?id=39604>

Do You Speak Football?

A Glossary of Football Words and Phrases from Around the World *Bloomsbury Publishing*

'At last, the definitive guide to football phraseology across the world... Sparky and very funny.' Paul Hayward, *Daily Telegraph*
 "Amusing and informative in equal measure." Oliver Kay, *The Times*
 An expertly compiled and utterly fascinating compendium of the weird and wonderful words and phrases used to describe football around the world. To speak football is to speak a language of a thousand tongues... In this ground-breaking global glossary of football words and phrases, you'll discover the rich, quirky and joyously creative language used by fans, commentators and players across the world. From placing a shot 'where the owl sleeps' in Brazil, to what it means to use your 'chocolate leg' in the Netherlands, via Wembley-Tor - a phrase adopted by Germans to describe a dubious goal - this comprehensively researched book will entertain and inform in equal measure. Discover the unfortunate Finnish term for a holding midfielder, what it means when South Korean fans get nostalgic about a 'Leeds season' and why Dundee United supporters should keep their heads down in Nigeria. With over 700 terms from 89 countries (including 29 ways to describe a nutmeg), this is the definitive guide to the global language of football.

The Rise and Fall of Communism *Doubleday Canada*

Published to coincide with the twentieth anniversary of the fall of the Berlin Wall — a definitive and ground-breaking account of the revolutionary ideology that changed the modern world. The inexorable rise of Communism was the most momentous political phenomenon of the first half of the twentieth century. Its demise in Europe and its decline elsewhere have produced the most profound political changes of the last few decades. In this illuminating book, based on forty years of study and a wealth of new sources, Archie Brown provides a comprehensive history as well as an original and highly readable analysis of an ideology that has shaped the world and still rules over a fifth of humanity. A compelling new work from an internationally renowned specialist, *The Rise and Fall of Communism* promises to be the definitive study of the most remarkable political and human story of our times.
