Managing Information In The Public Managing Public Information in a Mediation Process is designed to help mediators identify areas where they may need more research or preparation, as well as options and strategies relevant to the particular case on which they are working.

Managing Information In The Public Sector

Abstract. Management information systems (MIS) are fundamental for public sector organizations seeking to support the work of managers. Yet they are often ignored in the rush to focus on 'sexier' applications. This chapter aims to redress the balance by providing a detailed analysis of public sector MIS. It first locates MIS within the broader management monitoring and control systems that they support.
