A British Miniature Horse should be a perfectly scaled down version of a quality riding horse. At maturity it should measure not more than 87cm (34 inches) at the withers. We do not seek to miniaturise any particular breed, but would give as a guide to type, somewhere between a Hack and a Hunter as being the correct height to weight ratio.

Miniature horse

Miniature horses are horses defined by their small height. They can be found in many nations, particularly in Europe and the Americas, and are the result of centuries of selective breeding. Depending on the particular breed registry involved, the height of these

horses is usually less than 34-38 inches as measured at the last hairs of the mane, which are found at the withers. While miniature horses fit a height-based definition to be considered a very small pony, many retain horse ...
