Michael also pulls from Tom his perspective on: How to get started in trading; What trend following is, and how and why it works so well; Constructing your trading system; Position sizing and account management; The work-life balance of a trader; The transition from independent trader to professional money manager; and so much more. Trend Following Mindset will teach you the mindset of one of the great trend followers. Most important of all, it will show you how to do as Tom does ... and enjoy the ride.

The Trading Book: A Complete Solution to Mastering Technical Systems and Trading Psychology *McGraw Hill Professional*

THE SMARTEST TRADES. THE HOTTEST MARKETS. THE ONLY BOOK YOU NEED. You don't have to be a professional trader to win big in the stock market. That's what Anne-Marie Baiynd learned when she changed her career from neuroscience researcher to full-time momentum trader. Now, with her popular website and this brilliant new book, she teaches other traders how to master the market using her proven combination of analytics and psychology. The Trading Book shows you how to: Master the power of technical trading Increase profits using probabilities and pattern recognition Focus on precision trading for consistent results Discover the benefits of waves and fibs Embrace the habits of highly effective traders This one-of-a-kind guide goes beyond the numbers and statistics to show you the complex psychology behind the trades—from the greatest gains to the hardest losses. You'll discover how other traders deal with making counterintuitive decisions; how to use technical indicators to identify the momentum and direction of the markets; and how to achieve your long-term financial goals through discipline, dedication, and endurance. Filled with insightful case studies, interviews, exercises, and guidelines for keeping a personal trading journal, this is more than a crash course for beginners or an industry guide for experts. This is the book on trading. Praise for The Trading Book: "Anne-Marie is an amazing trader who loves to share ideas. She knows it makes her smarter and so sharing is not really giving away anything. Anne Marie can explain complex trading ideas in a digestible manner, and any level of trader or investor will benefit from this book." —Howard Lindzon, cofounder and CEO of StockTwits and author of The StockTwits Edge "The Trading Book does an outstanding job of offering step-by-step explanations of trading strategies and methods. Anyone looking for a clear path to profits in the markets will find the pre-trade checklist especially helpful for staying disciplined during the trading day. The lessons on reading stock charts are some of the best I've seen and worth reading multiple times." —Tim Bourquin, Traderinterviews.com "This excellent book balances trading wisdom, psychology, common sense, and valuable strategies that you can put to work immediately. I think that the 'woman's perspective' really adds something that most trading books are missing. Read this book; trust me!" —Brian Shannon, author of Technical Analysis Using Multiple Timeframes and President of Alphatrends.net

Trade Like an O'Neil Disciple

How We Made Over 18,000% in the Stock Market *John Wiley & Sons*

How two former traders of William J. O'Neil + Company made mad money using O'Neil's trading strategies, and how you can, too From the successes and failures of two William O'Neil insiders, Trade Like an O'Neil Disciple: How We Made Over 18,000% in the Stock Market in 7 Years is a detailed look at how to trade using William O'Neil's proven strategies and what it was like working side-by-side with Bill O'Neil. Under various market conditions, the authors document their trades, including the set ups, buy, add, and sell points for their winners. Then, they turn the magnifying glass on themselves to analyze their mistakes, including how much they cost them, how they reacted, and what they learned. Presents sub-strategies for buying pocket pivots and gap-ups Includes a market direction timing model, as well as updated tools for selling stocks short Provides

an "inside view" of the authors' experiences as proprietary, internal portfolio managers at William O'Neil + Company, Inc. from 1997-2005 Detailing technical information and the trading psychology that has worked so well for them, Trade Like an O'Neil Disciple breaks down what every savvy money manager, trader and investor needs to know to profit enormously in today's stock market.

Reminiscences of a Stock Operator *Strelbytskyy Multimedia Publishing*

"Reminiscences of a Stock Operator" is the most widely read, highly recommended investment book ever. Generations of readers have found that it has more to teach them about markets and people than years of experience. This is a timeless tale that will enrich your life - and your portfolio. Well known investor: Benjamin Graham, Warren Buffett, Philip Arthur Fisher, John Burr Williams, Charlie Munger, George Soros

Diary of a Professional Commodity Trader

Lessons from 21 Weeks of Real Trading *John Wiley & Sons*

Trading is generally far more difficult in practice than in theory. The reality is that no trade set up or individual trader or system can identify profitable trades in advance with complete certainty. In A Year of Trading, long-time trader Peter Brandt reveals the anxieties and uncertainties of trading in a diary of his 2009 trades. He explains his thought process as he searches for trading opportunities and executes them. Each trade includes charts, an analysis of the trade, and a play-by-play account of how the trade unfolds.

Martin Zweig's Winning on Wall Street *Grand Central Publishing*

Renowned financier Martin Zweig guides readers to smart investing in the 1990s stock market with proven strategies on how to make informed buy and sell decisions, pick winners, spot major bull and bear trends early, and more. This constant bestseller was first published in 1986 and first revised in 1990, with 77,000 trade paperback copies sold.

Superperformance Stocks

An Investment Strategy for the Individual Investor Based on the 4-year Political Cycle *Hall*

The Author suggests using the 4-year political cycle as an investment strategy. And subsequently, he writes about the superperformance stocks of the time, and the common denominators of those stocks. What traits do they have in common, how to find them? Definition of a superperformance stock: "One that at least tripled in price and increased at a minimum rate of three times during a two-year period. A move was considered ended if the price failed to reach a new high in less than six months, or if there was a price reaction of 25 percent or more." Stocks that have a chance to become superperformance stocks share some of these characteristics: Large increases of earnings, especially if the large increase comes as a surprise. Mergers and acquisitions. New management. New products. Large increases of earnings and sales are the main reason for a stock to rise substantially. Other reasons come into play as well, as mergers and acquisitions, new management

and new products are all in service of providing higher earning power for a company. The market discounts the future, and that might be enough to push the price higher significantly, even though the increase in earnings is not still visible. However, if those expectations are not realized in the future, the price of the stock may drop severely, as the move would inflate the valuation. The best results come after the market has experienced a severe correction or a bear market, because that is the time when there would be many bargain opportunities in that environment. The environment is dependent on the fiscal and monetary situation, as the lowering of interest rates and fiscal stimulation lead to higher stock prices. And that is the environment where superperformance stocks are abundant and have the most potential. Rising interest rates and fiscal tightening are negative for stocks in general, and in that kind of environment it is much harder to find a stock with potential to have a large increase in price. History often repeats itself in the stock market. The names of the stocks change, but the overall situation is always similar. Acceleration of earning power is the most important thing to look for when examining the potential of a stock to become a superperformance stock. And the superperformance move will most often coincide with the bull market cycle of the general market.

Full of Bull (Updated Version)

Unscramble Wall Street Doubletalk to Protect and Build Your Portfolio *FT Press*

Discover the truth about stock analysts' research. The Truth About Wall Street Stock Research-Now 100% Updated for Today's Markets! They mislead. They confuse. You can't afford to listen to one word stock analysts say-especially not right now. Wall Street won't tell you how to protect your capital or steer you toward gains. The Street is good at selling, not analyzing; it wants you to trade, not invest. In Full of Bull, one of the Street's leading insiders reveals the hidden code behind Wall Street's Byzantine practices. For decades, Stephen McClellan was one of the Street's top analysts-he knows exactly how the game is played. Now, in this revised guide for the individual investor, he describes how Wall Street came to cost investors billions by denying the realities of a market collapse in progress. He explains how a congenitally favorable bias led brokerages to keep recommending stocks, such as AIG and Fannie Mae, up until the moment of their ultimate demise. In Full of Bull, you'll learn how to look for analysts' favoritism and blind spots; how to react appropriately to upgrades, downgrades, and price targets; and how to recognize what company announcements really mean. Drawing on his immense body of experience analyzing top companies, McClellan shows you how to systematically evaluate a company's prospects and choose investments based on principles that work. This is exactly the kind of objective, focused guidance you won't be getting from your broker!

How I Made \$2,000,000 in the Stock Market

Now Revised & Updated for the 21st Century *www.bnpublishing.com*

"How did a world-famous dancer with no knowledge of the Stock Market, or of finance in general, make 2 million dollars in the stock market in 18 months starting with only \$10,000? ... In this new

edition ... Steve Burns uses his experience to offer explanations as to why the methods are still reliable"--Page 4 of cover.

The Rule: How I Beat the Odds in the Markets and in Life—and How You Can Too

How I Beat the Odds in the Markets and in Life—and How You Can Too *McGraw Hill Professional*

The empowering story of Larry Hite's unlikely rise to the top of the hedge fund world—with critical insights and lessons you can take to the bank In *The Rule*, legendary trader and hedge fund pioneer Larry Hite recounts his working-class upbringing in Brooklyn as a dyslexic, partially blind kid who was anything but a model student—and how he went on to found and run Mint Investment Management Company, one of the most profitable and largest quantitative hedge funds in the world. Hite's wild success is based on his deep understanding that markets are flawed—just like people. Through his early-life struggles and failures, Hite came to know himself well—his fears, his frustrations, his self-doubt, and his tolerance for all of the above. This motivational book reveals that by accepting the facts of his life and of himself, he was able to accept markets as they are. And that was the key to his success. In these pages, you'll walk of the footsteps of an investing legend, who imparts smart, practical trading lessons throughout the journey. Making a successful living in trading isn't about beating the markets. It's about meeting markets where they are, embracing the fact of risk, knowing yourself, and playing it strictly by the numbers. *The Rule* shows that investing decisions are not only bets or gambles, but investments in time, energy, and attention. By focusing on realistic returns on your investments—versus what you expect or hope to get—you immediately improve your probability for success.

How I Made Two Million Dollars in the Stock Market *Lyle Stuart*

How I Made 2,000,000 In The Stock Market Nicholas Darvas, author of *How I Made 2,000,000 in the Stock Market*, concluded that Wall Street was nothing more than a huge gambling casino. It bristled with dealers, croupiers and touts--and he explained all of this in a later highly successful book, *Wall Street: The Other Las Vegas*. *How I Made 2,000,000 in the Stock Market* is an extraordinary book. It tells one of the most unusual success stories in the history of the stock market. Darvas was not a stock market professional trading on inside information. He was one half of the highest paid dance team in show business. Yet he was able to make himself a millionaire several times over by his unique investment approach. Unlike other so-called systems, it worked regardless of whether the market rose or fell. When news of Darvas' fantastic profits and methods leaked out, he was featured in *Time Magazine*. He then was persuaded to write a book which became an instant hit, selling nearly 200,000 copies in eight weeks. Many of the companies talked about in this book no longer exist. Many of the stocks are no longer traded. Nevertheless, the basic principles are as sound as ever.

The Most Important Thing

Uncommon Sense for the Thoughtful Investor *Columbia University Press*

"This is that rarity, a useful book."--Warren Buffett Howard Marks, the chairman and cofounder of Oaktree Capital Management, is renowned for his insightful assessments of market opportunity and risk. After four decades spent ascending to the top of the investment management profession, he is today sought out by the world's leading value investors, and his client memos brim with insightful commentary and a time-tested, fundamental philosophy. Now for the first time, all readers can benefit from Marks's wisdom, concentrated into a single volume that speaks to both the amateur and seasoned investor. Informed by a lifetime of experience and study, *The Most Important Thing* explains the keys to successful investment and the pitfalls that can destroy capital or ruin a career. Utilizing passages from his memos to illustrate his ideas, Marks teaches by example, detailing the development of an investment philosophy that fully acknowledges the complexities of investing and the perils of the financial world. Brilliantly applying insight to today's volatile markets, Marks offers a volume that is part memoir, part creed, with a number of broad takeaways. Marks expounds on such concepts as "second-level thinking," the price/value relationship, patient opportunism, and defensive investing. Frankly and honestly assessing his own decisions--and occasional missteps--he provides valuable lessons for critical thinking, risk assessment, and investment strategy. Encouraging investors to be "contrarian," Marks wisely judges market cycles and achieves returns through aggressive yet measured action. Which element is the most essential? Successful investing requires thoughtful attention to many separate aspects, and each of Marks's subjects proves to be the most important thing.

Muscular Portfolios

The Investing Revolution for Superior Returns with Lower Risk *BenBella Books*

Muscular Portfolios is here to change the investing game — and help you leave stress behind with a stronger, smarter approach to investing. For decades, the financial services industry has sold risky investments, claiming that this was the only path to large gains. But this strategy is highly vulnerable to big losses that can devastate your portfolio. Today, there's a better approach. It combines the latest academic research in finance with the new ultra-low-cost index funds (exchange-traded funds). The result is an approach that provides market-like returns with dramatically smaller losses and requires only 15 minutes a month or less. *Muscular Portfolios* lays out the basic principles of this kind of investing so you can manage your own money successfully — without turning it into your second job. Investigative journalist Brian Livingston takes you behind the curtain of Wall Street and lays out a game-changing approach to investing: *Muscular Portfolios*, which are easy-to-use financial strategies you can set up yourself, even if you have no investment experience at all. Filled with helpful illustrations, compelling evidence, and simple, no-nonsense instructions, *Muscular Portfolios* is a resource, not a sales pitch. There are no financial products to buy, no secret formula to pay for. Everything is fully disclosed in bite-sized steps — and on a totally free website — that you can start using today to grow your wealth. Driven by cutting-edge investment research and backed by extensive market testing, *Muscular Portfolios* will revolutionize investing for families and individual investors.

The Indian in the Cupboard *Doubleday Books for Young Readers*

Adventure abounds when a toy comes to life in this classic novel! It's Omri's birthday, but all he gets from his best friend, Patrick, is a little plastic warrior figure. Trying to hide his disappointment, Omri puts his present in a metal cupboard and locks the door with a mysterious skeleton key that once belonged to his great-grandmother. Little does Omri know that by turning the key, he will transform his ordinary plastic toy into a real live man from an altogether different time and place! Omri and the tiny warrior called Little Bear could hardly be more different, yet soon the two forge a very special friendship. Will Omri be able to keep Little Bear without anyone finding out and taking his new friend away?

Supertiming: The Unique Elliott Wave System**Keys to anticipating impending stock market action** *Harriman House Limited*

The classic work on Elliott Wave and market cycles returned to print During the 1930s, R. N. Elliott undertook the painstaking procedure of attempting to classify share price movements for the preceding 80 years on Wall Street. It was during the course of this seminal work that Elliott discovered a definable basic rhythm in share price movements which he felt had forecasting value when correctly applied. In 1938 Elliott published his findings in a series of articles with the overall title "The Wave Principle". After publication, Elliott's work drifted into obscurity, until Robert Beckman's 'Supertiming' introduced it to a new audience. In this renowned work, Beckman sets out with three main objectives: 1. To clarify obscurities and grey areas of The Wave Principle that were present in Elliott's original writing. 2. To incorporate the work of other analysts in order to allow the Wave Principle to have a broader application. 3. To show the correct conceptual approach that should be used with the Wave Principle so that one can apply it with confidence and consistency. If you are willing to approach the subject of stock market behaviour with an open mind, who have faith in the fundamental laws of economics and the consistency of human nature, and who would like to avoid the pitfalls that have deluded the investment community for decades, this is the book for you.

The Secret River *ReadHowYouWant.com*

'Winner of the Commonwealth Writers Prize and Australian Book Industry Awards, Book of the Year. After a childhood of poverty and petty crime in the slums of London, William Thornhill is transported to New South Wales for the term of his natural life. With his wife Sal and children in tow, he arrives in a harsh land that feels at first like a de...

Wolf Island**Discovering the Secrets of a Mythic Animal** *U of Minnesota Press*

The world's leading wolf expert describes the first years of a major study that transformed our understanding of one of nature's most iconic creatures In the late 1940s, a small pack of wolves crossed the ice of Lake Superior to the island wilderness of Isle Royale, creating a perfect "laboratory" for a long-term study of predators and prey. As the wolves hunted and killed the

island's moose, a young graduate student named Dave Mech began research that would unlock the mystery of one of nature's most revered (and reviled) animals—and eventually became an internationally renowned and respected wolf expert. This is the story of those early years. Wolf Island recounts three extraordinary summers and winters Mech spent on the isolated outpost of Isle Royale National Park, tracking and observing wolves and moose on foot and by airplane—and upending the common misperception of wolves as destructive killers of insatiable appetite. Mech sets the scene with one of his most thrilling encounters: witnessing an aerial view of a spectacular hunt, then venturing by snowshoe (against the pilot's warning) to photograph the pack of hungry wolves at their kill. Wolf Island owes as much to the spirit of adventure as to the impetus of scientific curiosity. Written with science and outdoor writer Greg Breining, who recorded hours of interviews with Mech and had access to his journals and field notes from those years, the book captures the immediacy of scientific fieldwork in all its triumphs and frustrations. It takes us back to the beginning of a classic environmental study that continues today, spanning nearly sixty years—research and experiences that would transform one of the most despised creatures on Earth into an icon of wilderness and ecological health.

The Basic Laws of Human Stupidity *Doubleday*

"A masterly book" —Nassim Nicholas Taleb, author of *The Black Swan* "A classic" —Simon Kuper, *Financial Times* An economist explains five laws that confirm our worst fears: stupid people can and do rule the world Throughout history, a powerful force has hindered the growth of human welfare and happiness. It is more powerful than the Mafia or the military. It has global catastrophic effects and can be found anywhere from the world's most powerful boardrooms to your local bar. It is human stupidity. Carlo M. Cipolla, noted professor of economic history at the UC Berkeley, created this vitally important book in order to detect and neutralize its threat. Both hilarious and dead serious, it will leave you better equipped to confront political realities, unreasonable colleagues, or your next dinner with your in-laws. The Laws: 1. Everyone underestimates the number of stupid individuals among us. 2. The probability that a certain person is stupid is independent of any other characteristic of that person. 3. A stupid person is a person who causes losses to another person while deriving no gain and even possibly incurring losses themselves. 4. Non-stupid people always underestimate the damaging power of stupid individuals. 5. A stupid person is the most dangerous type of person.

How to Make Money in Stocks Getting Started: A Guide to Putting CAN SLIM Concepts Into Action *McGraw-Hill Professional*

Building on the success of William O'Neils classic *How to Make Money in Stocks*, this primer helps stock market novices quickly put O'Neils winning CAN SLIM method to use right away

Healthy Land, Happy Families and Profitable Businesses**Essays to Improve Your Land, Your Life and Your Bottom Line**

Through The Ranching For Profit School, Dave Pratt has helped thousands of families on millions of

acres improve their land, their lives and the profitability of their ranches. In *Healthy Land, Happy Families and Profitable Businesses*, Dave shares insights and experiences from the school and his clients that can improve the health of your land, the happiness of your family and the profitability of your business. "A master storyteller, Dave Pratt explains, applies, and sticks the reader with the most profound insights you'll find in any farming business book. To have this much uncommon good sense packed into such a readable format is unprecedented. Because it condenses decades of experience into one volume, this book delivers more meaningful advice in a small space than I've ever seen. I'd want this one on my shelf even if I didn't have any others. What a delightful, wisdom-dense read." - Joel Salatin, Poly Face Farm

Mastering the Trade, Second Edition: Proven Techniques for Profiting from Intraday and Swing Trading Setups *McGraw Hill Professional*

The essential guide to launching a successful career in trading—updated for today's turbulent markets "Mastering the Trade is an excellent source for a basic understanding of market action, be it day and/or longer-term trend trading. A programmer will have a field day with the many ideas that are in this book. It is highly recommended." —John Hill, president of Futures Truth magazine "John Carter's new book focuses quickly on the critical area of trader psychology, a realm that will often separate the trader from his wallet if it is not mastered first. The in-depth trading strategies clearly show how to respond to market moves based on real-world examples." —Price Headley, founder of BigTrends.com and author of *Big Trends in Trading* "Well written and packed with the kind of insight about the nature of trading and the markets that can surely benefit every level of trader." —Mark Douglas, author of *Trading in the Zone* and *The Disciplined Trader* "This is a must read for all new traders, specifically for the psychological aspect of trading. I am recommending it to all of my clients." —Carolyn Boroden, FibonacciQueen.com About the Book: When it was first published in 2005, *Mastering the Trade* became an instant classic in the world of day trading. Now, veteran day trader and educator John F. Carter has updated his time-proven swing trading technique to help you succeed in an environment vastly transformed by volatility and technology. Universally acclaimed for its sophisticated yet easy-to-execute methods, this practical, results-driven guide provides everything you need to make a lucrative career as a day trader—from preparing yourself psychologically for the unique demands of day trading to timing the market, managing risk, and planning future trades. *Mastering the Trade* sets aside timeworn basics and rehashed ideas to examine in detail the underlying factors that cause prices to move. Providing the tools you need to make the right decisions at the right times, it helps you enter market shifts early and either pull out before losses accrue or hang on for a long and refreshingly predictable ride. *Mastering the Trade* covers: The five psychological truths that will transform you from a mistake-prone novice into a savvy trading professional Exact entry, exit, and stop-loss levels for the intraday trading of stocks, options, ETFs, e-mini futures, 30-year bonds, currencies, and more Seven key internals, from \$TICKS to five-minute volume—critical for gauging pending market direction from the opening bell Premarket checklists for analyzing recent market behavior and calculating on each trading day what you plan to do, how you plan to do it, and why Airtight risk control techniques for protecting trading capital—the most important component of a professional trading career After spending many years

on various trading desks, Carter has developed an intuitive understanding of how the markets work. In *Mastering the Trade*, he gives you unlimited access to everything the markets have taught him—so you can make an exceptional living on the frontlines of professional trading.

Bear Market Trading Strategies *Independently Published*

Tired of losing money in 2018? Ready to learn how to trade a bear market? Bear markets do not behave anything like bull markets. If you try to buy the dips, you will get crushed. If you try to short a bear market and don't know what you are doing, you will also get crushed. In fact, most of the tricks that work in bull markets don't work in bear markets. During a bear market, there is always a vast transfer of wealth from the amateurs to the professionals. Don't let that happen to you. If you lost money in 2008-2009, make sure that you and your family are prepared this time. In this book, you will learn: How to spot a bear market on the horizon The best way to make money using put options How to trade a bear market using stock index futures An automated trading system (never before revealed) that profits from the high volatility of a bear market 3 ways to know that a bear market is almost over How to load up on undervalued stocks at the end of a bear market And much, much more Amazon best-selling author and retired hedge fund manager, Matthew Kratter will teach you the secrets that he has used to profitably trade the last 2 bear markets. These trading strategies are extremely powerful, and yet so easy to use. And if you ever get stuck, you can always reach out to the author by email (provided inside of the book), and he will help you. Get started today Scroll to the top of this page and click BUY NOW.

No More Bull!

The Mad Cowboy Targets America's Worst Enemy: Our Diet *Simon and Schuster*

In 1996, when Howard Lyman warned America on *The Oprah Winfrey Show* that Mad Cow Disease was coming to America, offended cattlemen sued him and Oprah both. Not only were Lyman and Oprah vindicated in court, but events have proved many of Lyman's predictions absolutely right. Mad Cow Disease has come to America, and Lyman argues persuasively in *No More Bull!* that the problem will only grow more deadly until our government deals with it seriously. In *Mad Cowboy*, Lyman, a fourth-generation Montana rancher turned vegetarian then vegan, told the story of his personal transformation after a spinal tumor, which he believes was caused by agricultural chemicals, nearly left him paralyzed. In *No More Bull!*, Lyman uses his humor, compassion, firsthand experience in agriculture, and command of the facts of health to argue that we might all profit by transforming our diets. He makes a powerful case that Alzheimer's is yet another disease linked to eating meat. And he explains that the steak at the heart of your dinner plate not only may destroy your own heart but actually offers no more nutritional value than a doughnut! If you've been confused by the competing claims of the Atkins Diet, the South Beach Diet, and other fad diets, *No More Bull!* is the book that will set you straight. Its pure, unvarnished truth is told with down-home common sense. Lyman's got a message for meat eaters, vegetarians, and vegans -- and the message of *No More Bull!* is that we can all do better for ourselves and the planet.

When to Sell

Inside Strategies for Stock-market Profits *Simon & Schuster*

Explains the principles and strategies behind the profit-oriented selling decisions of experienced professionals, providing guidelines for using stop-loss orders, selling short, trading and holding, and other actions

Trading Classic Chart Patterns *John Wiley & Sons*

Use popular chart patterns profitably In his follow-up to the well-received Encyclopedia of Chart Patterns, Thomas Bulkowski gives traders a practical game plan to capitalize on established chart patterns. Written for the novice investor but with techniques for the professional, Trading Classic Chart Patterns includes easy-to-use performance tables, vivid case studies, and a scoring system that makes trading chart patterns simple. This comprehensive guide skillfully gives investors straightforward solutions to profitably trading chart patterns. Trading Classic Chart Patterns also serves as a handy reference guide for favorite chart patterns, including broadening tops, head-and-shoulders, rectangles, triangles, and double and triple bottoms. Filled with numerous techniques, strategies, and insights, Trading Classic Chart Patterns fits perfectly into any pattern trader's arsenal. Thomas N. Bulkowski (Keller, TX), an active investor since 1981, is the author of the highly acclaimed Encyclopedia of Chart Patterns (Wiley: 0471295256) as well as numerous articles for Technical Analysis of Stocks & Commodities. Trained as a computer engineer, Bulkowski worked for over a decade at Tandy Corporation. Prior to that, he worked on the Patriot air defense system for Raytheon. New technology and the advent of around the clock trading have opened the floodgates to both foreign and domestic markets. Traders need the wisdom of industry veterans and the vision of innovators in today's volatile financial marketplace. The Wiley Trading series features books by traders who have survived the market's ever changing temperament and have prospered—some by reinventing systems, others by getting back to basics. Whether a novice trader, professional or somewhere in-between, these books will provide the advice and strategies needed to prosper today and well into the future.

Long-Term Secrets to Short-Term Trading *John Wiley & Sons*

Hugely popular market guru updates his popular trading strategy for a post-crisis world From Larry Williams—one of the most popular and respected technical analysts of the past four decades—Long-Term Secrets to Short-Term Trading, Second Edition provides the blueprint necessary for sound and profitable short-term trading in a post-market meltdown economy. In this updated edition of the evergreen trading book, Williams shares his years of experience as a highly successful short-term trader, while highlighting the advantages and disadvantages of what can be a very fruitful yet potentially dangerous endeavor. Offers market wisdom on a wide range of topics, including chaos, speculation, volatility breakouts, and profit patterns Explains fundamentals such as how the market moves, the three most dominant cycles, when to exit a trade, and how to hold on to winners Includes in-depth analysis of the most effective short-term trading strategies, as well as the author's winning technical indicators Short-term trading offers tremendous upside. At the same time, the practice is

also extremely risky. Minimize your risk and maximize your opportunities for success with Larry Williams's Long-Term Secrets to Short-Term Trading, Second Edition.

The Leadership Secrets of Colin Powell *McGraw Hill Professional*

One of Booklist's Top 10 Business Books of 2002 and a BusinessWeek, New York Times, Wall Street Journal, and USA Today business bestseller "Management professor Oren Harari adopts Colin Powell's rise into the upper ranks of American power as a model for decision makers in the private sector. Harari hails Powell's character as the essence of a host of supreme executive virtues, from defining and defending rational objectives to playing the provocateur against outdated modes of boardroom thinking."--The Washington Post "Powell appears to be a natural born leader with an intuitive sense of strategy for advancement in war and politics. For those of us who are not so lucky to have such diplomacy inherently, Harari's book can teach us how to lead effectively following Powell's example."--USA Today "This is a 'battle-tested' leadership book and although the author has shown how to apply these principles in the corporate venue, you don't have to be a CEO to benefit from the words and wisdom of Colin Powell."--Booklist

Unknown Market Wizards

The best traders you've never heard of *Harriman House Limited*

The Market Wizards are back! Unknown Market Wizards continues in the three-decade tradition of the hugely popular Market Wizards series, interviewing exceptionally successful traders to learn how they achieved their extraordinary performance results. The twist in Unknown Market Wizards is that the featured traders are individuals trading their own accounts. They are unknown to the investment world. Despite their anonymity, these traders have achieved performance records that rival, if not surpass, the best professional managers. Some of the stories include: - A trader who turned an initial account of \$2,500 into \$50 million. - A trader who achieved an average annual return of 337% over a 13-year period. - A trader who made tens of millions using a unique approach that employed neither fundamental nor technical analysis. - A former advertising executive who used classical chart analysis to achieve a 58% average annual return over a 27-year trading span. - A promising junior tennis player in the UK who abandoned his quest for a professional sporting career for trading and generated a nine-year track record with an average annual return just under 300%. World-renowned author and trading expert Jack D. Schwager is our guide. His trademark knowledgeable and sensitive interview style encourages the Wizards to reveal the fascinating details of their training, experience, tactics, strategies, and their best and worst trades. There are dashes of humour and revelations about the human side of trading throughout. The result is an engrossing new collection of trading wisdom, brimming with insights that can help all traders improve their outcomes.

The New Market Wizards

Conversations with America's Top Traders *John Wiley & Sons*

Praise for THE NEW MARKET WIZARDS "Jack Schwager simply writes the best books about trading

I've ever read. These interviews always give me a lot to think about. If you like learning about traders and trading, you'll find that reading this book is time well spent." -Richard Dennis, President, The Dennis Trading Group, Inc. "Jack Schwager's deep knowledge of the markets and his extensive network of personal contacts throughout the industry have set him apart as the definitive market chronicler of our age." -Ed Seykota "Very interesting indeed!" -John Train, author of *The Money Masters* "Successful trading demands longtime experience because it requires firsthand knowledge. If there is a shortcut to this requirement, however, it is in reading about the experiences of others. Jack Schwager's book provides that shortcut. If you find yourself sweating upon occasion as you read, then you're as close to the trading experience as you can get without actually doing it yourself." -Robert R. Prechter, Jr., editor, *The Elliott Wave Theorist*

THE NEW MARKET WIZARDS Some traders distinguish themselves from the herd. These supertraders make millions of dollars-sometimes in hours-and consistently outperform their peers. As he did in his acclaimed national bestseller, *Market Wizards*, Jack Schwager interviews a host of these supertraders, spectacular winners whose success occurs across a spectrum of financial markets. These traders use different methods, but they all share an edge. How do they do it? What separates them from the others? What can they teach the average trader or investor? In *The New Market Wizards*, these wildly successful traders relate the financial strategies that have rocketed them to success, as well as the embarrassing losses that have proven them all too human. Meet the Wizards of Wall Street: * Stan Druckenmiller, who, as manager of the Soros Quantum Fund, realized an average annual return of more than 38 percent on assets ranging between \$2.0 and \$3.5 billion * William Eckhardt, a mathematician who, in collaboration with trader Richard Dennis, selected and trained the now-

legendary circle known as the Turtles * Bill Lipschutz, a former architect who, for eight years, was Salomon Brothers' largest and most successful currency trader * Blair Hull, a one-time blackjack player who began an options trading company with Asking the questions that readers with an interest in the financial markets would love to pose to the financial superstars, and filled with candid appraisals, *The New Market Wizards* takes its place as a classic.

Don't Sell Stocks on Monday *Penguin Group USA*

Describes the best hours, days, weeks, and months for trading in the stock market, and offers advice on developing an investment strategy

How to Trade In Stocks *McGraw Hill Professional*

The Success Secrets of a Stock Market Legend Jesse Livermore was a loner, an individualist-and the most successful stock trader who ever lived. Written shortly before his death in 1940, *How to Trade Stocks* offered traders their first account of that famously tight-lipped operator's trading system. Written in Livermore's inimitable, no-nonsense style, it interweaves fascinating autobiographical and historical details with step-by-step guidance on: Reading market and stock behaviors Analyzing leading sectors Market timing Money management Emotional control In this new edition of that classic, trader and top Livermore expert Richard Smitten sheds new light on Jesse Livermore's philosophy and methods. Drawing on Livermore's private papers and interviews with his family, Smitten provides priceless insights into the Livermore trading formula, along with tips on how to combine it with contemporary charting techniques. Also included is the Livermore Market Key, the first and still one of the most accurate methods of tracking and recording market patterns
