Our Missing Hearts *Penguin*

The Reese's Book Club October Pick! From the #1 bestselling author of *Little Fires Everywhere*, comes one of the most highly anticipated books of the year – the inspiring new novel about a mother's unbreakable love in a world consumed by fear. "It's impossible not to be moved." —Stephen King, *The New York*

Times Book Review "Riveting, tender, and timely." —People, *Book of the Week* "Thought-provoking, heart-wrenching...I was so invested in the future of this mother and son, and I can't wait to hear what you think of this deeply suspenseful story!" – Reese Witherspoon (Reese's Book Club October '22 Pick) Twelve-year-old Bird Gardner lives a quiet existence with his loving but broken father, a former linguist who now shelves books in a university library. Bird knows to not ask too many questions, stand out too much, or stray too far. For a decade, their lives have been governed by laws written to preserve "American culture" in the wake of years of economic instability and violence. To keep the peace and restore prosperity, the authorities are now allowed to relocate children of dissidents, especially those of Asian origin, and libraries have been forced to remove books seen as unpatriotic—including the work of Bird's mother, Margaret, a Chinese American poet who left the family when he was nine years old. Bird has grown up disavowing his mother and her poems; he doesn't know her work or what happened to her, and he knows he shouldn't wonder. But when he receives a mysterious letter containing only a cryptic drawing, he is pulled into a quest to find her. His journey will take him back to the many folktales she poured into his head as a child, through the ranks of an underground network of librarians, into the lives of the children who have been taken, and finally to New York City, where a new act of defiance may be the beginning of much-needed change. *Our Missing Hearts* is an old story made new, of the ways supposedly civilized communities can ignore the most searing injustice. It's a story about the power—and limitations—of art to create change, the lessons and legacies we pass on to our children, and how any of us can survive a broken world with our hearts intact.

Pole Dancing to Gospel Hymns *Write Bloody Publishing*

Andrea Gibson's dynamic and energetic first book, Pole Dancing to Gospel Hymns, challenges us to not only read, but to react. Hauntingly vivid, the poems march through a soldier's lingering psychological wounds, tackle the curious questions of school children on the meaning of "hate", and tangle with a lover's witty

and vibrant description of longing. Gibson's poems deconstruct the current political climate through stunning imagery and careful crafting. With the same velocity, the poignant and vacillating love poems sweep the air out of the room. It's word-induced hypoxia. Pole Dancing to Gospel Hymns whispers with a bold and unforgettable internal voice rich with the kind of questioning that inspires action.

The Gospel of the Beloved Disciple *Bloomsbury Publishing USA*

There is a general consensus that the Fourth Gospel underwent two editions. But in contrast to all previous efforts to reconstruct these two editions on the basis of source and redaction criticism, Waetjen maintains that these two editions essentially overlap without far-reaching changes. Chapter 1-20 originated within the Jewish community of Alexandria and were addressed to Jews in order to persuade them to "believe into" Jesus as the Messiah, the Son of God. The second edition originated when chapter 21 as added and certain revisions were made in chapters 1-20 by an editor in the Christian community of Ephesus in order to present the Gospel to Gentile Christians and perhaps attendantly to legitimate it for canonization. Waetjen examines John's gospel by engaging in a close reading of various units of the Gospel from the perspective of a two-level drama that presents two narrative worlds within the literary structure of the Gospel. Out of his readings of the texts, one of the major and provocative conclusions Waetjen draws is that Lazarus is the Beloved Disciple of Jesus in chapters 1-20. John, the son of Zebedee, is intimated to play the role of the Beloved Disciple not only in chapter 21, but throughout the Gospel. In other words, the editor of chapter 21 has concluded that John (based on the title that the gospel already bears), is the Beloved Disciple and project that backwards from chapter 21 throughout the previous 20 chapters. Waetjen's thorough scholarship and his attention to detail in his original readings challenge traditional readings of John's Gospel, providing fresh insights into the Gospel.

The Reason for God *Penguin*

A New York Times bestseller people can believe in—by "a pioneer of the new urban Christians" (*Christianity Today*) and the "C.S. Lewis for the 21st century" (*Newsweek*). Timothy Keller, the founding pastor of Redeemer Presbyterian Church in New York City, addresses the frequent doubts that skeptics, and even ardent believers, have about religion. Using literature, philosophy, real-life conversations, and potent reasoning, Keller explains how the belief in a Christian God is, in fact, a sound and rational one. To true believers he offers a solid platform on which to stand their ground against the backlash to religion created by the Age of Skepticism. And to skeptics, atheists, and agnostics, he provides a challenging argument for pursuing the reason for God.

Meet Me in the Morning *WestBow Press*

So much of our lives is influenced by how we see God. For author Patty Howard, these words began a two-and-a-half-year journey of listening to God every morning with the expectation that He would speak. When God speaks, He meets us where we are and shows us who we are. Sometimes we are invited to share what we hear. With social media as her pulpit and her friends as her congregation, Howard shared what God had given her every day. The Holy Spirit did the rest. In *Meet Me in the Morning*, she has gathered those meditations, originally posted on social media, and compiled them into a devotional, mostly in the order and in the form they originally appeared. May these daily meditations encourage you, inspire you, convict you, and convince you that God sees you, knows you, and loves you beyond measure. This daily devotional shows how scripture applies to real life, in real

time, and invites you to carry the ideas and insights beyond the page and into your daily life.

What Are Spiritual Gifts? *Kregel Publications*

Many Christians have tried to discover their spiritual gifts only to find the process frustrating and complicated. Rarely in our search do we actually ask what should be our central question: What are spiritual gifts? Kenneth Berding believes we have misunderstood spiritual gifts, which has led to a misguided search. His convincing and readable study suggests that the Holy Spirit does not give special abilities (the conventional view), but rather calls us and places us into various ministries to build up and strengthen the body of Christ. - Back cover.

The Believer's Brain *Psychology Press*

About 90% of people have faith in a supreme being, but our yearning for the divine, and whatever it promises, involves a large divergence in mental states and behaviors. Some adhere to doctrine, supplication, and fastidious religious practices; others have a strong sense they are part of something greater and more universal. However, all religious and spiritual paths are mediated by complex brain networks. When different areas of the brain are stimulated, a person can have a variety of experiences, but there is no specific 'God spot' where stimulation enhances religiosity or spirituality. Functional brain imaging shows that there are specific areas of the brain that 'light up' when subjects perform certain religious activities, but imaging only provides anatomic correlations, not functional explanations. *The Believer's Brain* takes a step beyond these singular methodologies, providing converging evidence from a variety of study methods of how humans' brain networks mediate different aspects of religious and spiritual beliefs, feelings, actions, and experiences. Although the book reveals how our brain is the home to the religious and spiritual mind, understanding this gift will not diminish our spirituality or our love or our belief in a supreme being, but will increase appreciation of the apparatus that mediates these mental states.

Living in the House of God *Liturgical Press*

"How should we live in this house of God? We know that the way a building is shaped also helps in determining the way those within it live and relate. We are indeed formed by what we form. Qualities such as integrity, hospitality, humanity and beauty in a place will enable its dwellers to live lives in which such qualities are evident. The way we understand who we are and how we live will be reflected in our places and vice versa. Our places become bearers of meaning and memory." —From Chapter 1 In *Living in the House of God*, Margaret Malone draws on her study of and research on the Rule of Saint Benedict to show the ways in which this ancient rule can illuminate modern life. The broad gamut of topics this book examines—from Benedictine life as sacrament to Augustine's influence on Benedict to obedience and the art of listening, among others—is itself a witness to the generous flexibility of the Rule, as Benedict proposes a way of life that truly corresponds to the deepest needs of the whole of human nature.

Reclaiming Conversation *Penguin*

"In a time in which the ways we communicate and connect are constantly changing, and not always for the better, Sherry Turkle provides a much needed voice of caution and reason to help explain what the f*** is going on." —Aziz Ansari, author of *Modern Romance* Renowned media scholar Sherry Turkle investigates how a flight from conversation undermines our relationships, creativity, and productivity—and why reclaiming face-to-face conversation can help us regain lost ground. We live in a technological universe in which we are always communicating. And yet we have sacrificed conversation for mere connection. Preeminent author and researcher Sherry Turkle has been studying digital culture for over thirty years. Long an enthusiast for its possibilities, here she investigates a troubling consequence: at work, at home, in politics, and in love, we find ways around conversation, tempted by the possibilities of a text or an email in which we don't have to look, listen, or reveal ourselves. We develop a taste for what mere connection offers. The dinner table falls silent as children compete with phones for their parents' attention. Friends learn strategies to keep conversations going when only a few people are looking up from their phones. At work, we retreat to our screens although it is conversation at the water cooler that increases not only productivity but commitment to work. Online, we only want to share opinions that our followers will agree with – a politics that

shies away from the real conflicts and solutions of the public square. The case for conversation begins with the necessary conversations of solitude and self-reflection. They are endangered: these days, always connected, we see loneliness as a problem that technology should solve. Afraid of being alone, we rely on other people to give us a sense of ourselves, and our capacity for empathy and relationship suffers. We see the costs of the flight from conversation everywhere: conversation is the cornerstone for democracy and in business it is good for the bottom line. In the private sphere, it builds empathy, friendship, love, learning, and productivity. But there is good news: we are resilient. Conversation cures. Based on five years of research and interviews in homes, schools, and the workplace, Turkle argues that we have come to a better understanding of where our technology can and cannot take us and that the time is right to reclaim conversation. The most human—and humanizing—thing that we do. The virtues of person-to-person conversation are timeless, and our most basic technology, talk, responds to our modern challenges. We have everything we need to start, we have each other. Turkle's latest book, *The Empathy Diaries* (3/2/21) is available now.

Dumbth *Prometheus Books*

Dumbth (pron. dum-th) adj: a tendency toward muddleheadedness, or willful stupidity appearing in all segments of American life. Updated, expanded with 20 new ways to think better, and highlighted with a new introduction, this is Steve Allen's humorous and provocative examination of contemporary thought or lack of it in our society. When it first appeared nearly a decade ago, *Dumbth: and 81 Ways to Make Americans Smarter* was hailed by critics across the country as the book that would wake up Americans to their tendency toward poor thinking. Labeling the ineptitude phenomenon as dumbth, Allen has probed the depths of mass ignorance in thinking, speech, and actions for more than thirty years as he observed increased inefficiency, shoddy workmanship, bad service, and an overall breakdown in the capacity to reason. Today, while politicians and school boards play into the popular foolishness by proposing use of dumbed down texts and a street language called ebonics to reach students, Allen urges another kind of education. Allen explains the problem of fuzzy thinking in detail, and optimistically proposes many simple yet necessary remedies to dumbth in the 101 rules for good thinking, reading, writing, speaking, and, most importantly, reasoning. Steve Allen (1921-2000) was known as television's renaissance man. He authored more than fifty books and composed over 8,500 songs. Allen was the creator and original host of the *Tonight Show* and the award-winning PBS series *Meeting of Minds*. Lily and her ex-husband, Ryle, have just settled into a civil coparenting rhythm when she suddenly bumps into her first love, *Atlas*, again. After nearly two years separated, she is elated that

for once, time is on their side, and she immediately says yes when *Atlas* asks her on a date. But her excitement is quickly hampered by the knowledge that, though they are no longer married, Ryle is still very much a part of her life—and *Atlas Corrigan* is the one man he will hate being in his ex-wife and daughter's life. Switching between the perspectives of Lily and *Atlas*, *It Starts with Us* picks up right where the epilogue for the "gripping, pulse-pounding" (Sarah Pekkanen, author of *Perfect Neighbors*) bestselling phenomenon *It Ends with Us* left off. Revealing more about *Atlas*'s past and following Lily as she embraces a second chance at true love while navigating a jealous ex-husband, it proves that "no one delivers an emotional read like Colleen Hoover" (Anna Todd, New York Times bestselling author).
