Global Public Health Communication Challenges Perspectives ...

Results: The COVID-19 pandemic has introduced unique challenges for public health practitioners and health communicators that warrant an expansion of existing health communication principles to take into consideration: the new infodemic (or mis/disinfodemic) challenge - particularly as treatments and vaccines are being developed; communication of risk and uncertainty; health-information behaviours and the instantaneous nature of social media, and the relationship between media literacy and ...

Enhancing global health communication during a crisis ...

This increase in the prominence of the field, externally, is happening contemporaneously with important developments taking place, internally, one of which is the focus on the study of environmental, social and psychological influences on behaviour and health. Given the global challenges posed by major threats, health communication scholars and practitioners recognize the importance of prevention and, with it, the need to understand human behaviour through the prism of theory.
