And if you ever need assistance locating the excellent book, our knowledgeable team is below to offer tailored referrals.

Irrational Man

A Study in Existential Philosophy *Anchor*

Widely recognized as the finest definition of existentialist philosophy ever written, this book introduced existentialism to America in 1958. Barrett speaks eloquently and directly to concerns of the 1990s: a period when the irrational and the absurd are no better integrated than before and when humankind is in even greater danger of destroying its existence without ever understanding the meaning of its existence. Irrational Man begins by discussing the roots of existentialism in the art and thinking of Augustine, Aquinas, Pascal, Baudelaire, Blake, Dostoevski, Tolstoy, Hemingway, Picasso, Joyce, and Beckett. The heart of the book explains the views of the foremost existentialists—Kierkegaard, Nietzsche, Heidegger, and Sartre. The result is a marvelously lucid definition of existentialism and a brilliant interpretation of its impact.

Basic Writings of Existentialism *Modern Library*

Edited and with an Introduction by Gordon Marino Basic Writings of Existentialism, unique to the Modern Library, presents the writings of key nineteenth- and twentieth-century thinkers broadly united by their belief that because life has no inherent meaning humans can discover, we must determine meaning for ourselves. This anthology brings together into one volume the most influential and commonly taught works of existentialism. Contributors include Simone de Beauvoir, Albert Camus, Fyodor Dostoevsky, Ralph Ellison, Martin Heidegger, Søren Kierkegaard, Friedrich Nietzsche, Jean-Paul Sartre, and Miguel de Unamuno y Jugo.

Irrational man

Sway

The Irresistible Pull of Irrational Behavior *Currency*

A fascinating journey into the hidden psychological influences that derail our decision-making, Sway will change the way you think about the way you think. Why is it so difficult to sell a plummeting stock or end a doomed relationship? Why do we listen to advice just because it came from someone “important”? Why are we more likely to fall in love when there’s danger involved? In Sway, renowned organizational thinker Ori Brafman and his brother, psychologist Rom Brafman, answer all these questions and more. Drawing on cutting-edge research from the fields of social psychology, behavioral economics, and organizational behavior, Sway reveals dynamic forces that influence every aspect of our personal and business lives, including loss aversion (our tendency to go to great lengths to avoid perceived losses), the diagnosis bias (our inability to reevaluate our initial diagnosis of a person or situation), and the “chameleon effect” (our tendency to take on characteristics that have been arbitrarily assigned to us). Sway introduces us to the Harvard Business School professor who got his students to pay \$204 for a \$20 bill, the head of airline safety whose disregard for his years of training led to the transformation of an entire industry, and the football coach who turned conventional strategy on its head to lead his team to victory. We also learn the curse of the NBA draft, discover why interviews are a terrible way to gauge future job performance, and go inside a session with the Supreme Court to see how the world’s most powerful justices avoid the dangers of group dynamics. Every once in a while, a book comes along that not only challenges our views of the world but changes the way we think. In Sway, Ori and Rom Brafman not only uncover rational explanations for a wide variety of irrational behaviors but also point readers toward ways to avoid succumbing to their pull.

Economic Fables *Open Book Publishers*

"I had the good fortune to grow up in a wonderful area of Jerusalem, surrounded by a diverse range of people: Rabbi Meizel, the communist Sala Marcel, my widowed Aunt Hannah, and the intellectual Yaacovson. As far as I'm concerned, the opinion of such people is just as authoritative for making social and economic decisions as the opinion of an expert using a model." Part memoir, part crash-course in economic theory, this deeply engaging book by one of the world's foremost economists looks at economic ideas through a personal lens. Together with an introduction to some of the central concepts in modern economic thought, Ariel Rubinstein offers some powerful and entertaining reflections on his childhood, family and career. In doing so, he challenges many of the central tenets of game theory, and sheds light on the role economics can play in society at large. Economic Fables is as thought-provoking for seasoned economists as it is enlightening for newcomers to the field.

After Virtue *A&C Black*

Highly controversial when it was first published in 1981, Alasdair MacIntyre's After Virtue has since established itself as a landmark work in contemporary moral philosophy. In this book, MacIntyre sought to address a crisis in moral language that he traced back to a European Enlightenment that had made the formulation of moral principles increasingly difficult. In the search for a way out of this impasse, MacIntyre returns to an earlier strand of ethical thinking, that of Aristotle, who emphasised the importance of 'virtue' to the ethical life. More than thirty years after its original publication, After Virtue remains a work that is impossible to ignore for anyone interested in our understanding of ethics and morality today.

The Illusion of Technique

A Search for Meaning in a Technological Civilization *Anchor*

Irrationality

A History of the Dark Side of Reason *Princeton University Press*

From sex and music to religion and politics, a history of irrationality and the ways in which it has always been with us—and always will be In this sweeping account of irrationality from antiquity to the rise of Twitter mobs and the election of Donald Trump, Justin Smith argues that irrationality makes up the greater part of human life and history. Ranging across philosophy, politics, and current events, he shows that, throughout history, every triumph of reason has been temporary and reversible, and that rational schemes often result in their polar opposite. Illuminating unreason at a moment when the world appears to have gone mad again, Irrationality is timely, provocative, and fascinating.

Predictably Irrational

The Hidden Forces That Shape Our Decisions *Harper Collins*

Intelligent, lively, humorous, and thoroughly engaging, "The Predictably Irrational" explains why people often make bad decisions and what can be done about it.

Zen and the Art of Motorcycle Maintenance

An Inquiry Into Values *Harper Collins*

Acclaimed as one of the most exciting books in the history of American letters, this modern epic became an instant bestseller upon publication in 1974, transforming a generation and continuing to inspire millions. This 25th Anniversary Quill Edition features a new introduction by the author; important typographical changes; and a Reader's Guide that includes discussion topics, an interview with the author, and letters and documents

detailing how this extraordinary book came to be. A narration of a summer motorcycle trip undertaken by a father and his son, the book becomes a personal and philosophical odyssey into fundamental questions of how to live. The narrator's relationship with his son leads to a powerful self-reckoning; the craft of motorcycle maintenance leads to an austere beautiful process for reconciling science, religion, and humanism. Resonant with the confusions of existence, Zen and the Art of Motorcycle Maintenance is a touching and transcendent book of life.

Nicomachean Ethics *Courier Corporation*

Enduringly profound treatise, whose lasting effect on Western philosophy continues to resonate. Aristotle identifies the goal of life as happiness and discusses its attainment through the contemplation of philosophic truth.

One-Dimensional Man

Studies in the Ideology of Advanced Industrial Society *Routledge*

One of the most important texts of modern times, Herbert Marcuse's analysis and image of a one-dimensional man in a one-dimensional society has shaped many young radicals' way of seeing and experiencing life. Published in 1964, it fast became an ideological bible for the emergent New Left. As Douglas Kellner notes in his introduction, Marcuse's greatest work was a 'damning indictment of contemporary Western societies, capitalist and communist.' Yet it also expressed the hopes of a radical philosopher that human freedom and happiness could be greatly expanded beyond the regimented thought and behaviour prevalent in established society. For those who held the reigns of power Marcuse's call to arms threatened civilization to its very core. For many others however, it represented a freedom hitherto unimaginable.

Accidental Gods

On Men Unwittingly Turned Divine *Metropolitan Books*

A provocative history of men who were worshipped as gods that illuminates the connection between power and religion and the role of divinity in a secular age Ever since 1492, when Christopher Columbus made landfall in the New World and was hailed as a heavenly being, the accidental god has haunted the modern age. From Haile Selassie, acclaimed as the Living God in Jamaica, to Britain’s Prince Philip, who became the unlikely center of a new religion on a South Pacific island, men made divine—always men—have appeared on every continent. And because these deifications always emerge at moments of turbulence—civil wars, imperial conquest, revolutions—they have much to teach us. In a revelatory history spanning five centuries, a cast of surprising deities helps to shed light on the thorny questions of how our modern concept of “religion” was invented; why religion and politics are perpetually entangled in our supposedly secular age; and how the power to call someone divine has been used and abused by both oppressors and the oppressed. From nationalist uprisings in India to Nigerien spirit possession cults, Anna Della Subin explores how deification has been a means of defiance for colonized peoples. Conversely, we see how Columbus, Cortés, and other white explorers amplified stories of their godhood to justify their dominion over native peoples, setting into motion the currents of racism and exclusion that have plagued the New World ever since they touched its shores. At once deeply learned and delightfully antic, Accidental Gods offers an unusual keyhole through which to observe the creation of our modern world. It is that rare thing: a lyrical, entertaining work of ideas, one that marks the debut of a remarkable literary career.

Orientalism *Vintage*

More than three decades after its first publication, Edward Said's groundbreaking critique of the West's historical, cultural, and political perceptions of the East has become a modern classic. In this wide-ranging, intellectually vigorous study, Said traces the origins of "orientalism" to the centuries-long period during which Europe dominated the Middle and Near East and, from its position of power, defined "the orient" simply as "other than" the occident. This entrenched view continues to dominate western ideas and, because it does not allow the East to represent itself, prevents true understanding. Essential, and still eye-opening, Orientalism remains one of the most important books written about our divided world.

THE REPUBLIC BEYOND BOOKS HUB

THE REPUBLIC Plato's Republic is widely acknowledged as one of the most influential works in the history of philosophy. Presented in the form of a dialogue between Socrates and three different interlocutors, it is an inquiry into the notion of a perfect community and the ideal individual within it. During the conversation, other questions are raised: what is goodness; what is reality; what is knowledge; what is the purpose of education? With remarkable lucidity and deft use of allegory, Plato arrives at a depiction of a state bound by harmony and ruled by 'philosopher kings'. THE REPUBLIC The Republic is a philosophical dialogue about the nature of justice and the order and character of the just city-state and the just individual. The

dialogues, among Socrates and various Athenians and foreigners, discuss the meaning of justice and examine whether or not the just man is happier than the unjust man, by proposing a society ruled by philosopher-kings and the guardians. THE REPUBLIC In this intellectually and historically influential work of philosophy and political theory, Plato discusses the theory of forms, the immortality of the soul, and the roles of the philosopher and of poetry in society. THE REPUBLIC

Sophie's World

A Novel About the History of Philosophy *Farrar, Straus and Giroux*

One day Sophie comes home from school to find two questions in her mail: "Who are you?" and "Where does the world come from?" Before she knows it she is enrolled in a correspondence course with a mysterious philosopher. Thus begins Jostein Gaarder's unique novel, which is not only a mystery, but also a complete and entertaining history of philosophy.

Nicomachean Ethics *Phoemixx Classics Ebooks*

Nicomachean Ethics Aristotle - The Nicomachean Ethics is one of Aristotle's most widely read and influential works. Ideas central to ethics—that happiness is the end of human endeavor, that moral virtue is formed through action and habituation, and that good action requires prudence—found their most powerful proponent in the person medieval scholars simply called "the Philosopher." Drawing on their intimate knowledge of Aristotle's thought, Robert C. Bartlett and Susan D. Collins have produced here an English-language translation of the Ethics that is as remarkably faithful to the original as it is graceful in its rendering. Aristotle is well known for the precision with which he chooses his words, and in this elegant translation his work has found its ideal match. Bartlett and Collins provide copious notes and a glossary providing context and further explanation for students, as well as an introduction and a substantial interpretive essay that sketch central arguments of the work and the seminal place of Aristotle's Ethics in his political philosophy as a whole. The Nicomachean Ethics has engaged the serious interest of readers across centuries and civilizations—of peoples ancient, medieval, and modern; pagan, Christian, Muslim, and Jewish—and this new edition will take its place as the standard English-language translation.

White Fragility

Why It's So Hard for White People to Talk About Racism *Beacon Press*

The New York Times best-selling book exploring the counterproductive reactions white people have when their assumptions about race are challenged, and how these reactions maintain racial inequality. In this “vital, necessary, and beautiful book” (Michael Eric Dyson), antiracist educator Robin DiAngelo deftly illuminates the phenomenon of white fragility and “allows us to understand racism as a practice not restricted to ‘bad people’ (Claudia Rankine). Referring to the defensive moves that white people make when challenged racially, white fragility is characterized by emotions such as anger, fear, and guilt, and by behaviors including argumentation and silence. These behaviors, in turn, function to reinstate white racial equilibrium and prevent any meaningful cross-racial dialogue. In this in-depth exploration, DiAngelo examines how white fragility develops, how it protects racial inequality, and what we can do to engage more constructively.

The Lottery *The Creative Company*

A seemingly ordinary village participates in a yearly lottery to determine a sacrificial victim.

Lord of the Flies *Penguin*

Golding’s iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a new Suggestions for Further Reading by Jennifer Buehler. At the dawn of the next world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of adventure seems as far removed from reality as the hope of being rescued.

The Concept of Anxiety: A Simple Psychologically Oriented Deliberation in View of the Dogmatic Problem of Hereditary Sin *W. W. Norton & Company*

Presents a translation of the Danish philosopher's 1844 treatise on anxiety, which he claimed could only be overcome through embracing it.

Investing and the Irrational Mind: Rethink Risk, Outwit Optimism, and Seize Opportunities Others Miss *McGraw Hill Professional*

Behavioral finance expert and bestselling author Robert Koppel shows traders and investors how to invest your money rationally, even in an irrational world "Investing," according to Robert Koppel, "Involves far more than specific analytical and strategic skills. It requires the development of habits, thought patterns and creative attitudes that influence the way to think and act in the market." In Investing and the Irrational Mind, Koppel, author of the classic bestseller,The Inner Game of Trading, uses the latest advancements in behavioral finance and neuroeconomics to help you gain these habits, as well as the deep understanding of market risk factors necessary to successful portfolio building. Armed with 30 years' experience as an analyst, and fund manager, and interviews with top traders, behavioral economists, risk managers and neuroscientists, Koppel lets you build a personal arsenal of risk management skills ("quantitative architecture") necessary for investors at any level to develop a focused, disciplined, confident, and profitable approach to investing. Filled with surprising insights into human behavior, and rock-solid financial advice, this is the guide

you need to invest in today's markets.

What is Existentialism? *New York : Grove Press*
What is existentialism?--Heidegger: the silent power of the possible.

Things Fall Apart *Penguin UK*
Okonkwo is the greatest warrior alive, famous throughout West Africa. But when he accidentally kills a clansman, things begin to fall apart. Then Okonkwo returns from exile to find missionaries and colonial governors have arrived in the village. With his world thrown radically off-balance he can only hurtle towards tragedy. Chinua Achebe's stark novel reshaped both African and world literature. This arresting parable of a proud but powerless man witnessing the ruin of his people begins Achebe's landmark trilogy of works chronicling the fate of one African community, continued in Arrow of God and No Longer at Ease.

Good Thinking

Why Flawed Logic Puts Us All at Risk and How Critical Thinking Can Save the World *The Experiment*
Good Thinking is our best defense against anti-vaccine paranoia, climate denial, and other dire threats of today Publisher's Note: Good Thinking was previously published in the UK as The Irrational Ape. In our ever-more-polarized society, there's at least one thing we still agree on: The world is overrun with misinformation, faulty logic, and the gullible followers who buy into it all. Of course, we're not among them—are we? Scientist David Robert Grimes is on a mission to expose the logical fallacies and cognitive biases that drive our discourse on a dizzying array of topics—from vaccination to abortion, 9/11 conspiracy theories to dictatorial doublespeak, astrology to alternative medicine, and wrongful convictions to racism. But his purpose in Good Thinking isn't to shame or place blame. Rather, it's to interrogate our own assumptions—to develop our eye for the glimmer of truth in a vast sea of dubious sources—in short, to think critically. Grimes's expert takedown of irrationality is required reading for anyone wondering why bad thinking persists and how we can defeat it. Ultimately, no one changes anyone else's mind; we can only change our own—and give others the tools to do the same.

Rational Irrational Man

Torah Psychology

The Body Keeps the Score

Brain, Mind, and Body in the Healing of Trauma *Penguin*
#1 New York Times bestseller “Essential reading for anyone interested in understanding and treating traumatic stress and the scope of its impact on society.” —Alexander McFarlane, Director of the Centre for Traumatic Stress Studies A pioneering researcher transforms our understanding of trauma and offers a bold new paradigm for healing in this New York Times bestseller Trauma is a fact of life. Veterans and their families deal with the painful aftermath of combat; one in five Americans has been molested; one in four grew up with alcoholics; one in three couples have engaged in physical violence. Dr. Bessel van der Kolk, one of the world's foremost experts on trauma, has spent over three decades working with survivors. In The Body Keeps the Score, he uses recent scientific advances to show how trauma literally reshapes both body and brain, compromising sufferers' capacities for pleasure, engagement, self-control, and trust. He explores innovative treatments—from neurofeedback and meditation to sports, drama, and yoga—that offer new paths to recovery by activating the brain's natural neuroplasticity. Based on Dr. van der Kolk's own research and that of other leading specialists, The Body Keeps the Score exposes the tremendous power of our relationships both to hurt and to heal—and offers new hope for reclaiming lives.

Existentialism From Dostoevsky to Sartre *Hassell Street Press*
This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. To ensure a quality reading experience, this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy-to-read typeface. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

ANTHEM BEYOND BOOKS HUB
Hailed by The New York Times as "a compelling dystopian look at paranoia from one of the most unique and perceptive writers of our time," this brief, captivating novel offers a cautionary tale. The story unfolds within a society in which all traces of individualism have been eliminated from every aspect of life — use of the word "I" is a capital offense. The hero, a rebel who discovers that man's greatest moral duty is the pursuit of his own happiness, embodies the values the author embraced in her personal philosophy of objectivism: reason, ethics, volition, and individualism. Anthem anticipates the themes Ayn Rand explored in her later masterpieces, The Fountainhead and Atlas Shrugged. Publisher's Weekly acclaimed it as "a diamond in the rough, often dwarfed by the superstar company it keeps with the author's more popular work, but every bit as gripping, daring, and

powerful." Anthem is a dystopian fiction novella by Ayn Rand, written in 1937 and first published in 1938 in England. It takes place at some unspecified future date when mankind has entered another dark age characterized by irrationality, collectivism, and socialistic thinking and economics. Technological advancement is now carefully planned (when it is allowed to occur at all) and the concept of individuality has been eliminated.

A Study in Scarlet Women *Penguin*
"USA Today bestselling author Sherry Thomas turns the story of the renowned Sherlock Holmes upside down... With her inquisitive mind, Charlotte Holmes has never felt comfortable with the demureness expected of the fairer sex in upper class society. But she never thought that she would become a social pariah, an outcast fending for herself on the mean streets of London. When the city is struck by a trio of unexpected deaths and suspicion falls on her sister and her father, Charlotte is desperate to find the true culprits and clear the family name. She'll have help from friends new and old--a kind-hearted widow, a police inspector, and a man who has long loved her. But in the end, it will be up to Charlotte, under the assumed name Sherlock Holmes, to challenge society's expectations and match wits against an unseen mastermind"--

The Wisdom of Crowds *Anchor*

In this fascinating book, New Yorker business columnist James Surowiecki explores a deceptively simple idea: Large groups of people are smarter than an elite few, no matter how brilliant—better at solving problems, fostering innovation, coming to wise decisions, even predicting the future. With boundless erudition and in delightfully clear prose, Surowiecki ranges across fields as diverse as popular culture, psychology, ant biology, behavioral economics, artificial intelligence, military history, and politics to show how this simple idea offers important lessons for how we live our lives, select our leaders, run our companies, and think about our world.

Self-Portrait in Black and White

Unlearning Race *John Murray*
A SUNDAY TIMES BOOK OF THE YEAR A TIME 'MUST-READ' 'An extraordinarily thought-provoking memoir that makes a controversial contribution to the fraught debate on race and racism . . . intellectually stimulating and compelling' SUNDAY TIMES A reckoning with the way we choose to see and define ourselves, Self-Portrait in Black and White is the searching story of one American family's multi-generational transformation from what is called black to what is assumed to be white. Thomas Chatterton Williams, the son of a 'black' father from the segregated South and a 'white' mother from the West, spent his whole life believing the dictum that a single drop of 'black blood' makes a person black. This was so fundamental to his self-conception that he'd never rigorously reflected on its foundations - but the shock of his experience as the black father of two extremely white-looking children led him to question these long-held convictions. It is not that he has come to believe that he is no longer black or that his daughter is white, Williams notes. It is that these categories cannot adequately capture either of them - or anyone else, for that matter. Beautifully written and bound to upset received opinions on race, Self-Portrait in Black and White is an urgent work for our time.

Irrational Kindness!

The Crazy Pursuit of an Extraordinary Life *Morgan James Publishing*
“A thoughtful and fresh perspective on life’s compassionate journey to success. Irrational Kindness is powerful, provocative, and palatable.” —Linda Cash, former Vice President, Quality and New Model Launch Program at Ford Motor Company This work from a fast food entrepreneur and rare triple-franchisee Kevin Williams was written as part-employee handbook, part-operating manual for life. Irrational Kindness flips traditional wisdom on its head and gives a different lens through which to look at life. Often the idea of being irrational is smeared with negative connotations. It can sound illogical, senseless, unjustifiable, or groundless. It may even represent ludicrous and mad behavior! But Kevin Williams argues that being irrational can be just the opposite. And it is the most positive, inspiring, and empowering way to be. Being irrational has to do with thinking outside the box—way outside. It has to do with viewing life as a journey and still being willing to reverse the route, shake things up, or flip the map upside down. Why? Not just to be different, but to make a difference. Irrational Kindness can serve as a harmonious reminder that one’s hopes and dreams do not have to be derailed—not by their fears, their pasts, or by people who make them feel like they have to know everything to be successful, or even just to get started. Throughout its pages, Kevin provides the inspiration everyone needs to favor understanding over being understood and prioritize kindness—toward themselves as well as others—over everything. “This book is a needed and timely reminder to pause and give Kindness a platform to change the world around you.” —Princess Moon,Podcast Artist & Encourager of People

Negotiation Genius

How to Overcome Obstacles and Achieve Brilliant Results at the Bargaining Table and Beyond *Bantam*
Presents a comprehensive guide to the essential skills, strategies, techniques, and creative mindset of successful negotiation, drawing on the latest behavioral research and real-life case studies to explain how to prepare for and execute negotiations, from identifying opportunities to overcoming resistance and defusing hardball tactics. Reprint. 30,000 first printing.

Social Anxiety Disorder

The Nice Guideline on Recognition, Assessment and Treatment of Social Anxiety Disorder

Social anxiety disorder is persistent fear of (or anxiety about) one or more social situations that is out of proportion to the actual threat posed by the situation and can be severely detrimental to quality of life. Only a minority of people with social anxiety disorder receive help. Effective treatments do exist and this book aims to increase identification and assessment to encourage more people to access interventions. Covers adults, children and young people and compares the effects of pharmacological and psychological interventions. Commissioned by the National Institute for Health and Clinical Excellence (NICE). The CD-ROM contains all of the evidence on which the recommendations are based, presented as profile tables (that analyse quality of data) and forest plots (plus, info on using/interpreting forest plots). This material is not available in print anywhere else.

Talking to Strangers

What We Should Know about the People We Don't Know *Little, Brown*

Malcolm Gladwell, host of the podcast Revisionist History and author of the #1 New York Times bestseller Outliers, offers a powerful examination of our interactions with strangers and why they often go wrong—now with a new afterword by the author. A Best Book of the Year: The Financial Times, Bloomberg, Chicago Tribune, and Detroit Free Press How did Fidel Castro fool the CIA for a generation? Why did Neville Chamberlain think he could trust Adolf Hitler? Why are campus sexual assaults on the rise? Do television sitcoms teach us something about the way we relate to one another that isn't true? Talking to Strangers is a classically Gladwellian intellectual adventure, a challenging and controversial excursion through history, psychology, and scandals taken straight from the news. He revisits the deceptions of Bernie Madoff, the trial of Amanda Knox, the suicide of Sylvia

Plath, the Jerry Sandusky pedophilia scandal at Penn State University, and the death of Sandra Bland—throwing our understanding of these and other stories into doubt. Something is very wrong, Gladwell argues, with the tools and strategies we use to make sense of people we don't know. And because we don't know how to talk to strangers, we are inviting conflict and misunderstanding in ways that have a profound effect on our lives and our world. In his first book since his #1 bestseller David and Goliath, Malcolm Gladwell has written a gripping guidebook for troubled times.

Encounter with Nothingness

An Essay on Existentialism *Routledge*

This book, first published in 1951, discusses the fundamental concepts which have crystallized around the fatal 'crisis'. It proceeds by critically examining the theories which, from Kierkegaard to Heidegger, Sartre and their associates, have placed Existentialism in the focus of philosophical thought.

Black Skin, White Masks

Black Skin, White Masks is a classic, devastating account of the dehumanising effects of colonisation experienced by black subjects living in a white world. First published in English in 1967, this book provides an unsurpassed study of the psychology of racism using scientific analysis and poetic grace.Franz Fanon identifies a devastating pathology at the heart of Western culture, a denial of difference, that persists to this day. A major influence on civil rights, anti-colonial, and black consciousness movements around the world, his writings speak to all who continue the struggle for political and cultural liberation.With an introduction by Paul Gilroy, author of There Ain't No Black in the Union Jack.
