The Experiment

The Experiment has an intriguing premise. Human behavior, group dynamics; what will happen when you put a group of people (all with very different personalities) in a small, stressful environment for a long period of time. As this is a straight to DVD movie it surprisingly has a good cast and doesn't suffer from small budget diseases.

Experiment - Wikipedia

The Stanford marshmallow experiment was a study on delayed gratification in 1972 led by psychologist Walter Mischel, a professor at Stanford University. In this study, a child was offered a choice between one small but immediate reward, or two small rewards if they waited for a period of time. During this time, the researcher left the room for about 15 minutes and then returned. The reward was either a marshmallow or pretzel stick, depending on the child's preference. In follow-up studies, the r
