New product development is the main factor of economic progress in building the economic competitive advantage. The life cycle of products becomes very short and it trends to be shorter year by year.

(PDF) RESEARCH OF THE NEW PRODUCT DEVELOPMENT PROCESS

Evaluation of impact is becoming increasingly important, both within the UK and internationally, and research and development into impact evaluation continues, for example, researchers at Brunel have developed the concept of depth and spread further into the Brunel Impact Device for Evaluation, which also assesses the degree of separation between research and impact (Scoble et al. working paper).
