The core advantage of soilless culture, frequently referenced to as “hydroponics”, is the independence of the crop from the soil which, as a natural medium, is heterogeneous,

accommodates...

SOILLESS CULTURE, GROWING MEDIA AND HORTICULTURAL PLANTS ...

Abstract : The aim of this publication is to summarize information on soilless culture, much of which is scattered in individual scientific papers and not readily available in a compiled form, and to indicate techniques relevant to circumstances found in various parts of the world.

Soilless culture for horticultural crop production.

Hydroponics is a type of horticulture and a subset of hydroculture, which is a method of growing plants, usually crops, without soil, by using mineral nutrient solutions in an aqueous solvent. Terrestrial plants may be grown with only their roots exposed to the nutritious liquid, or, in addition, the roots may be physically supported by an inert medium such as perlite, gravel, or other substrates.

Hydroponics - Wikipedia

The basis of vertical farming is hydroponic (water based and soil-less) culture in nutrient solutions. The idea of a vertical farm has been existing at least since the Hanging Gardens of Babylon. The modern idea of vertical farming uses techniques similar to glass houses, where natural sunlight can be augmented with artificial lighting.

Soilless farming - Hydroponic crop cultivation - Soilless

Soilless culture systems are classified according to the type of substrate (soilless medium) they use, how the nutrient solution is delivered to the plants (drip irrigation, flowing or stagnant nutrient solution) and what happens to the solution after it drains away such as open (free drain) or closed (recirculating water).

Soilless cultivation - What makes a good medium? | CANNA UK

Soilless Culture provides the reader with an understanding of the properties of the various soilless media and how these properties affect plant performance in relation to basic horticultural operations, such as irrigation and fertilization. This book is ideal for agronomists, horticulturalists,
