Agricultural equipment and machinery | Vicon round balers ...

I know someone with a Vicon RF 119 round baler who's having problems with it. The control box works fine until it comes to stopping the netwrap operation. The actuator cylinder only comes back (or retracts) part of the way to release of the cutter bar and cut the netwrap. It stops about 3/4 inch short of hitting the release block, and does this in both automatic or manual operation.
