Neurologic Complications Of Critical Illness [PDF, EPUB EBOOK]

Acute and chronic neurologic complications can occur both in neurologic and nonneurologic critically ill patients, of which many are perceived as highly detrimental to survival and outcome. Survivors of critical illness are often left with neurologic and cognitive disabilities (Ortega-Gutierrez et al., 2009 , Desal et al., 2011), even without evident neurologic complications during the

course of their ICU stay.

Prognosis of neurologic complications in critical illness ...

Neurologic complications of critical illness require extensive clinical and neurophysiologic evaluation to establish a reliable prognosis. Neurologic complications in hematopoietic stem cell transplant recipients are important causes of treatment-related morbidity and mortality.

Neurologic Complications Of Critical Illness

Conclusions: CNS/PNS complications were common in hospitalized COVID-19 patients, particularly in ICU patients, and often attributable to critical illness. In cases with COVID-19 as the primary cause for neurological disease, there were no signs of viral neurotropism, but laboratory changes suggested autoimmune-mediated mechanisms.

Central and peripheral nervous system complications of ...

Patients with neurologic complications experienced 2.5-fold longer medical ICU stay times ($p < .001$) and almost two-fold longer hospital stay times ($p < .001$). Metabolic encephalopathy, seizures, hypoxic-ischemic encephalopathy, and stroke were the most common complications. Sepsis was the most frequent cause of encephalopathy, and cerebrovascular lesions were the most common cause of seizures.

Neurologic complications of critical medical illnesses

Other neurologic complications include posterior leukoencephalopathy, cerebellar syndrome, focal deficits, headache, tremor, sleep disorders, and peripheral neuropathy. Risk factors for neurologic complications include an operative time longer than 10 hours, high CTP score, and a history of hepatic encephalopathy (Dhar et al, 2008).
