But it was curiosity and commitment that made the late Hans Rosling, author of the bestselling book Factfulness with Ola Rosling and Anna Rosling Rönnlund, the most popular researcher of our time. How I Learned to Understand the World is Hans Rosling's own story of how he became a revolutionary thinker, and takes us from the swelter of an emergency clinic in Mozambique, to the World Economic Forum at Davos. The Art of Asking

How I Learned to Stop Worrying and Let People Help *Grand Central Publishing*
FOREWORD BY BRENE BROWN and POSTSCRIPT FROM BRAIN PICKINGS CREATOR MARIA POPOVA
Rock star, crowdfunding pioneer, and TED speaker Amanda Palmer knows all about asking. Performing as a living statue in a wedding dress, she wordlessly asked thousands of passersby for their dollars. When she became a singer, songwriter, and musician, she was not afraid to ask her audience to support her as she surfed the crowd (and slept on their couches while touring). And when she left her record label to strike out on her own, she asked her fans to support her in making an album, leading to the world's most successful music Kickstarter. Even while Amanda is both celebrated and attacked for her fearlessness in asking for help, she finds that there are important things she cannot ask for-as a musician, as a friend, and as a wife. She learns that she isn't alone in this, that so many people are afraid to ask for help, and it paralyzes their lives and relationships. In this groundbreaking book, she explores these barriers in her own life and in the lives of those around her, and discovers the emotional, philosophical, and practical aspects of THE ART OF ASKING. Part manifesto, part revelation, this is the story of an artist struggling with the new rules of exchange in the twenty-first century, both on and off the Internet. THE ART OF ASKING will inspire readers to rethink their own ideas about asking, giving, art, and love.

How I Learned to Hate in Ohio

A Novel *Abrams*
A brilliant, hilarious, and ultimately devastating debut novel about how racial discord grows in America In late-1980s rural Ohio, bright but mostly friendless Barry Nadler begins his freshman year of high school with the goal of going unnoticed as much as possible. But his world is upended by the

arrival of Gurbaksh, Gary for short, a Sikh teenager who moves to his small town and instantly befriends Barry and, in Gatsby-esque fashion, pulls him into a series of increasingly unlikely adventures. As their friendship deepens, Barry's world begins to unravel, and his classmates and neighbors react to the presence of a family so different from theirs. Through darkly comic and bitinglly intelligent asides and wry observations, Barry reveals how the seeds of xenophobia and racism find fertile soil in this insular community, and in an easy, graceless, unintentional slide, tragedy unfolds. How I Learned to Hate in Ohio shines an uncomfortable light on the roots of white middle-American discontent and the beginnings of the current cultural war. It is at once bracingly funny, dark, and surprisingly moving, an undeniably resonant debut novel for our divided world.

Permission to Screw Up

How I Learned to Lead by Doing (Almost) Everything Wrong *Penguin*
The inspiring, unlikely, laugh-out-loud story of how one woman learned to lead-and how she ultimately succeeded, not despite her many mistakes, but because of them. This is the story of how Kristen Hadeed built Student Maid, a cleaning company where people are happy, loyal, productive, and empowered, even while they're mopping floors and scrubbing toilets. It's the story of how she went from being an almost comically inept leader to a sought-after CEO who teaches others how to lead. Hadeed unintentionally launched Student Maid while attending college ten years ago. Since then, Student Maid has employed hundreds of students and is widely recognized for its industry-leading retention rate and its culture of trust and accountability. But Kristen and her company were no overnight sensation. In fact, they were almost nothing at all. Along the way, Kristen got it wrong almost as often as she got it right. Giving out hugs instead of feedback, fixing errors instead of enforcing accountability, and hosting parties instead of cultivating meaningful relationships were just a few of her many mistakes. But Kristen's willingness to admit and learn from those mistakes helped her give her people the chance to learn from their own screwups too. Permission to Screw Up dismisses the idea that leaders and organizations should try to be perfect. It encourages people of all ages to go for it and learn to lead by acting, rather than waiting or thinking. Through a brutally honest and often hilarious account of her own struggles, Kristen encourages us to embrace our failures and proves that we'll be better leaders when we do.

Learning to Improve

How America's Schools Can Get Better at Getting Better *Harvard Education Press*
As a field, education has largely failed to learn from experience. Time after time, promising education reforms fall short of their goals and are abandoned as other promising ideas take their place. In Learning to Improve, the authors argue for a new approach. Rather than "implementing fast and learning slow," they believe educators should adopt a more rigorous approach to improvement that allows the field to "learn fast to implement well." Using ideas borrowed from improvement science, the authors show how a process of disciplined inquiry can be combined with the use of networks to identify, adapt, and successfully scale up promising interventions in education. Organized around six core principles, the book shows how "networked improvement communities" can bring together researchers and practitioners to accelerate learning in key areas of education. Examples include efforts to address the high rates of failure among students in community college remedial math courses and strategies for improving feedback to novice teachers. Learning to Improve offers a new paradigm for research and development in education that promises to be a powerful driver of improvement for the nation's schools and colleges.

The Biggest Bluff

How I Learned to Pay Attention, Master Myself, and Win *Penguin*
The New York Times bestseller! A New York Times Notable Book "The tale of how Konnikova followed a story about poker players and wound up becoming a story herself will have you riveted, first as you learn about her big winnings, and then as she conveys the lessons she learned both about human nature and herself." —The Washington Post It's true that Maria Konnikova had never actually played poker before and didn't even know the rules when she approached Erik Seidel, Poker Hall of Fame inductee and winner of tens of millions of dollars in earnings, and convinced him to be her mentor. But she knew her man: a famously thoughtful and broad-minded player, he was intrigued by her pitch that she wasn't interested in making money so much as learning about life. She had faced a stretch of personal bad luck, and her reflections on the role of chance had led her to a giant of game theory, who pointed her to poker as the ultimate master class in learning to distinguish between what can be controlled and what can't. And she certainly brought something to the table, including a Ph.D. in psychology and an acclaimed and growing body of work on human behavior and how to hack it. So Seidel was in, and soon she was down the rabbit hole with him, into the wild, fiercely competitive, overwhelmingly masculine world of high-stakes Texas Hold'em, their initial end point the following year's World Series of Poker. But then something extraordinary happened. Under Seidel's guidance, Konnikova did have many epiphanies about life that derived from her new pursuit, including how to better read, not just her opponents but far more importantly herself; how to identify what tilted her into an emotional state that got in the way of good decisions; and how to get to a place where she could accept luck for what it was, and what it wasn't. But she also began to win. And win. In a little over a year, she began making earnest money from tournaments, ultimately totaling hundreds of thousands of dollars. She won a major title, got a sponsor, and got used to being on television, and to headlines like "How one writer's book deal turned her into a professional poker player." She even learned to like Las Vegas. But in the end, Maria Konnikova is a writer and student of human behavior, and ultimately the point was to render her incredible journey into a container for its invaluable lessons. The biggest bluff of all, she learned, is that skill is enough. Bad cards will come our way, but keeping our focus on how we play them and not on the outcome will keep us moving through many a dark patch, until the luck once again breaks our way.

Surprised by God

How I Learned to Stop Worrying and Love Religion Beacon Press

At thirteen, Danya Ruttenberg decided she was an atheist. As a young adult, she immersed herself in the rhinestone-bedazzled wonderland of late 1990s San Francisco-drinking smuggled absinthe with wealthy geeks and plotting the revolution with feminist zinemakers. But she found herself yearning for something she would eventually call God. Surprised by God is a memoir of a young woman's spiritual awakening and eventual path to the rabbinate, a story of integrating life on the edge of the twenty-first century into the discipline of traditional Judaism, without sacrificing either. It's also an unflinchingly honest guide to the kind of work that goes into developing a spiritual practice-and it shows why, perhaps, doing this in today's world requires more effort than ever.

Daring to Drive

A Saudi Woman's Awakening Simon and Schuster

This is a memoir about living, loving, dreaming, daring, and driving while female -- in a country where it's dangerous to do all of the above. Manal al-Sharif grew up in Mecca the second daughter of a taxi driver, born the year strict fundamentalism took hold. In her adolescence, she was religious radical, melting her brother's boy band CDs in the oven because music was haram: forbidden by Islamic law. But what a difference an education can make. By her twenties, she was a computer security engineer, one of a few women working in a desert compound built to resemble suburban America. That's when the Saudi kingdom's contradictions became too much to bear: she was labeled a slut for chatting with male colleagues, her school-age brother chaperoned her on a business trip, and while she kept a car in her garage, she was forbidden from driving on Saudi streets. Manal-al-Sharif has written a memoir about the making of an accidental activist, a story of a young Muslim woman who stood up to a kingdom of men -- and won.

Ruhl’s theatrical voice is reticent and daring, accurate and outlandish.” —John Lahr, New Yorker A reimagining of the classic myth of Orpheus through the eyes of its heroine. Dying too young on her wedding day, Eurydice journeys to the underworld, where she reunites with her beloved father and struggles to recover lost memories of her husband and the world she left behind.
