previously siloed in enclaves, revealing how they are linked within what is becoming a new field of investing. Written by two leaders in the growing field of impact investing, the book defines this emerging industry for participants on all sides of the funding equation (investors, funders and social entrepreneurs). Filled with illustrative examples of impact investing success stories. Reveals how the field can expand in order to address the most critical social and environmental issues of our day. Explores the wide-ranging applications of impact investing as well as entrepreneurial opportunities. The authors do not take a normative approach to

argue how investors should behave like an investment guide might but show how entrepreneurial people and institutions are already offering an integrated alternative.

All she knows is that her sister and niece have been abducted, held hostage for the stone pendants that Morgan and her sister wear: two of twelve relics once owned by the original Apostles. But now the Keepers of the stones are being murdered, and the relics stolen by Thanatos, a shadowy group dedicated to

remaking the world into a living Hell. The authorities are clueless; the world lies helpless. And Thanatos grows more powerful with each stone they take. Enter Jake Timber — agent of ARKANE, the British agency tasked with investigating the supernatural. Jake knows some of the secrets Morgan needs to save her family, but can't stop Thanatos without her help.
