The 1992-1993 radio bezels are physically the same as the 90-91 versions but are black with a rubberized coating. 1994-1996 radio bezels are different where they are made to wrap around the right side of the center dash edge due to the change in dash and console design of the 94-96 years. Both the 92-93 and 94-96 bezel had a black rubberized coating. As many owners know, this coating is very ...

The instruments were mounted at a more conventional angle, avoiding the reflections caused by the upward angled flat dash of earlier cars. Conversely, auxiliary instruments were moved to angled bezels in the centre console, further from the driver's line of sight than before. The new seats introduced adjustable headrests which merged with the top of the seat when fully down. The window winder ...
