Axial-Flow® 240 Series | Harvesting | Products | Case IH

Axial flow combines are a type of combine harvester that has been manufactured by International Harvester, and later Case International, Case Corporation and CNH Global, used by farmers to harvest a wide range of

grains around the world. Introduced in 1977, these harvesters marked a departure from traditional combine harvester design, in that threshing and separation was performed mainly by a rotor, as opposed to the drum and straw walker type models used previously. This is shown in the image a
