Artificial Reefs In Fisheries

Management Crc Marine ...

IN an early positive sign, artificial reefs deployed by the Fisheries Department in 30 different locations along the coasts of Chennai, Kancheepuram and Tiruvallur, have begun ushering marine life. The objective of the project was to revive traditional fishing grounds of small fishermen and create a cluster of artificial reefs, which act as natural breakwaters.

Artificial reefs help to usher in marine life

While artificial reefs have long been presumed to offer an alternative management option to resource managers, in practice artificial reefs are often not formally

incorporated into fishery management plans.

Marine Artificial Reef Research and Development ...

Artificial reefs are recognised world-wide for their ability to encourage growth and development of a great number and variety of marine organisms, which in turn provide food, shelter and protection for fish.

Conservation of fisheries resources

In the other scenario the artificial reef serves to aggregate fish and makes them more vulnerable to being harvested by fishermen. One demonstration in fisheries management has been the deployment of concrete modules in

Algarve, Portugal to build an artificial reef complex as part of the Algarve Artificial Reef Program.

ArtificialReefs - coraldigest

Abstract. Artificial reef communities undergo long periods of succession prior to becoming stable, but funding challenges often prevent post-deployment monitoring from evaluating long-term successional changes. The present study employed baited remote underwater video surveillance (BRUVS) to compare the species richness, diversity, abundance, and age structure of fishes across a 4-year-old artificial reef, a 41-year-old artificial reef, a representative natural reef, and a bare control in ...
