No combination of colors can create primary colors, but primaries mix in various combinations to form all other colors. You make secondary colors (green, orange, and purple/violet) by mixing two primary colors. If you want to go farther, you can create tertiary colors by mixing one primary and one secondary color to get yellow-orange, orange-red, red-violet, violet-blue, blue-green, or yellow-green. Keep this wheel handy to remember which colors mix to make other colors.
